Corner Yonge and Temperance Streets, Toronto.

Continued From Page 1.

sisted any attempt to incorporate such provision in the bill. Mr. Barker strongly sympathized with Toronto's contention and submitted for consideration of the minister an amendment that the railway shall not be permitted to pass along any street or public place

Mr. Graham expressed himself in accord with this amendment. He was as strongly opposed to level crossings as anyone, and while in provincial politics he had resisted any attempt of this same railway to secure entrance to To-

Mr. Blain (Peel) agreed with the principle that Toronto and Hamilton should have control of their streets, but the same could be said of municipalities were quite thickly populated. Many of the property owners had sold the right of way to the rallway on the distinct understanding that it was to be a steam

Mr. Foster pointed out that the minister conceded everything, but was not doing much. Surely they had all come to the conclusion that instead of increasing the dangers of level crossings, the number should be diminished There was a strong feeling in Toronto on this question. If the minister agreed that grades should be separated, why

UNCTION DECIDES TO

nual expenditure for the maintenance of the building will be \$2000 a year. This decision was only arrived at after an hour's discussion. A. B. Rice, who headed the deputation from the library board, outlined the board's scheme. He only suggested a \$5000 or \$1000 building, but Mayor Baird favored a larger and better one on the ground that a \$10,000 library would not be big enough when the town's population has increased to about \$30,000. Mayor Baird, however, did not approve of gbing beyond a \$15,000 building, and voted against the motion, which was carried for a \$20,000 building.

Advertisements for a town engineer

have not yet been issued, and the mat-ter was therefore left over for discus-sion at a later date.

At the suggestion of Superintendent McMulkin, the works department re-cently increased the water rates chargcently increased the water rates charged the Dodge Manufacturing Company. To this increase the company objects, and in a letter read this evening complained that it was unfair. Mr. Mc-Mulkin, in explanation, said the in-crease was a just one, because this firm

wasted a considerable amount of water.

Must Remove Obstructions. The city did not wish the interposition of a third body, the railway commission, and in view of doubt as to the action of the commission, the bill should be clear on this point.

Councillor Sheep and asked if the C. P.R. had as yet removed the obstructions from Ethel-avenue which were complained of at the last meeting of council. Solicitor Anderson in reply stated that the yard foreman had told him that only a few they removed be clear on this point.

There was the other question. The railway might make its own arrangements with the Toronto Railway without regard to the existence of the present franchise.

Mr. Conmee did not believe the interests of Toronto should be paramount. The outside public had some rights. He thought the railway board was the proper tribunal to deal with the question.

diately." Complaints were also received about of be discussed at present, the
