GAS METERS TOO ACTIVE BRING ALL DEPARTMENTS TO THE QUEEN'S PARK

Two Specific Instances Placed Before Special Examining Committee—City Hall Happenings.

Grievances against the gas company were heard yesterday afternoon by the special committee appointed to hear complaints. James Millon of 48 Gladstone-avenue said that formerly he had paid the company \$7 a quarter for seven lights and a gas stove, but for the last two quarters he was charged \$40.20 without any increase in the use of gas. The company had admitted that it was in the wrong and gave him a rebate of \$3. Mr. Millon was told by the committee to pay the bills with a formal written protest and bring the receipts to the committee.

Ald. Vaughan said he objected, not so much to the company's mistakes as to their refusal to correct them, unless a strong appeal was made. Another complaint was that gas bills for the first quarter of the past three years ranged as follows: \$14.40 for the first, \$22.40 for the second year, and \$33.70, without any extra use of gas.

On the suggestions of Ald. Foster and Ald. Keeler the city solicitor will be asked to report on the city's position, and to submit all the legislation in regard to it. Parade of Prisoners. That jail prisoners should not be forced to parade the streets in the vicinity when going to and from work, but should be taken by a more private route, was a matter brought to the attention of the legislative committee of the city council yesterday by Ald. Hilton. The committee decided to ask council to memorialize the provincial secretary to order it stopped. A report of the city solicitor was to the effect that there is no legislation to prevent children under 12 years of age attending theatres.

Dr. Charles M. Ross and Miss Lillian Hurrell were married this afternoon at Christ Church Cathedral. A Warton despatch says: S. M. Douglas, salesman for the Scarborough Company, engravers and publishers of Hamilton, was found dead in his room at the St. Alban Hotel here at noon today. Deceased had been drinking heavily. Brevities. Miss Margaret McCoy has resigned her position in St. Paul's Church to become a member of the Macdonald-street Presbyterian Church choir, and Chester Walters will retire from the leadership of the James-street Baptist Church to become a soloist at Knox Church.

Object of New Wing to Parliament Buildings, Plans For Which Will Be Decided on To-Day.

At 11 o'clock this morning the final plans and specifications of the new wing to the parliament buildings will be considered by the provincial cabinet. Tenders will then be called for and the work commenced forthwith. The building will be of brown sandstone, three stories in height, and the walls and foundations are designed to support two additional stories if they are afterwards required. The present boiler house will be depressed and placed entirely underground, and the new wing will extend northerly from the main staircase almost to the driveway thru the park.

A large number of offices will be located on the first floor, the second floor will be occupied by the library, and the third floor will be devoted to office work. The new wing will be provided for storing the large number of valuable documents belonging to the government, while the structure itself will be fire-proof thruout. Entrance will be had thru a doorway from the north as well as from the various floors of the present building.

Sir James Whitney said it was the intention of the government to bring the offices under one roof, as well as to relieve considerable congestion which now obtains in the old building. This change will affect the department of education, at present located in the Normal School, and the T. & N. O. Railway offices on Toronto street, and will give better accommodation to the Ontario Railway and Municipal Board and the Hydro-Electric Power Commission. Provincial Treasurer Matheson's regulations regarding moving picture shows will come into effect on Friday. Before that date every show must take out a license.

Provincial Inspector Geare ridicules the idea that the "black hand" set fire to Frank Cook's house in Aurora. He is convinced that the fire was accidental. Power to examine the systems of bookkeeping of municipal utilities was given to the Ontario Railway and Municipal Board at the recent session of the legislature and an auditor will shortly be appointed to conduct an investigation. The board is unable to give the board information desired, and the new officer will have a wide range in his board when a municipality is charging too low a rate, and will thus relieve the taxpayers of the burden of making up deficits. The object will be to keep the expenditures and rates nearly even.

KENNEDY WILL AGAIN

Sea Commences Litigation Against Other Beneficiaries. The Kennedy will is in the courts again. David Kennedy, who died in February, 1896, left to his son, James Harold, the house on Spencer-avenue, since expropriated by the city, and to his son, Joseph Hilton Kennedy, what is known as the Foxwell estate. The latter, mentioned in the will, is worth \$10,000, is now believed to be one of the most valuable gravel pits in Canada. Other members of the family get comparatively little or nothing. Questions now at issue are, what is the meaning of "residue" and "pecuniary legate," and should the first charge fall on the estate or what should be done with it?

Yesterdays Joseph Hilton Kennedy sued in the non-jury assize court all the other beneficiaries of the will, demanding that the Foxwell estate be turned over to him. He also asked that James Harold Kennedy be removed from the position of executor, charging misconduct in the management of the estate. Justice Riddell will first decide whether the plaintiff has a right to bring the action, and for this reason adjourned the case.

PORTAGE LA PRAIRIE, April 14.—Richard Hodge, a wealthy settler of this district, charged with ill-treating a Barnardo boy, causing his death, was released on \$10,000 bail this morning.

Dominion Council, Y.M.C.A.

Yesterday afternoon the Dominion Council of the Young Women's Christian Association gave a most delightful reception to the teachers attending the Ontario Educational Association meeting in the city this week. The reception was held at Westminster College, and Mrs. Kilgour, president of the Dominion Council, and Mrs. Gregory welcomed the guests, who represented a large number of the cities and towns in Ontario. During the last few years the work of the Dominion Council has greatly extended. With the growth of manufacturing towns in Ontario and the rapid development of the west, there is need for this organization to extend and fill a place that is being adequately filled by no other organization. In the extension of this work the Dominion Council feels that the cooperation and support of the teachers throughout Canada would be most valuable. They, therefore, made this opportunity of presenting to the teachers of Ontario the work that is now being done by the Young Women's Christian Association, and its possibilities in the development of our national life. Miss Little, general secretary of the Dominion Council, spoke of the growth and extent of the association movement in Canada, and Mr. J. A. Macdonald made a strong appeal to the teachers from a business man's point of view for their cooperation in this work, which he believes to be a powerful factor in the uplifting of the life.

Not since 1901 has Mrs. Charles Bartlett of the Village of Delhi, Norfolk County, heard from her husband, so she is believed to be dead. The police say that Alex. Findlay, who pleaded guilty to trying to break into Sidney C. Fox's house, received \$50 a month from his family in Scotland. T. L. and Mrs. Kinrade were in the city to-day to consult with their lawyer, George S. Lynch-Staunton, K.C. They returned to Toronto this evening. "SPRING FEVER."

The need of a spring medicine seems to be universal. This is due to the fact that during the winter the blood becomes impure on account of the hearty food eaten. This causes that tired, weary, all-gone, don't-care-to-work feeling which is so prevalent at this time of year.

BURDOCK BLOOD BITTERS

THAT TIRED FEELING. Mr. F. H. Leard, Saskatoon, Sask., writes: "I have used Burdock Blood Bitters as a blood-purifier, and think it an excellent remedy. Everyone should take it in the spring to cure that tired feeling that comes to so many at this time of year."

USES IT EVERY SPRING. Mr. H. Langley, Hamilton, Ont., writes: "I have used Burdock Blood Bitters as a spring tonic, and I find it the best thing I can take. It builds me right up, and I use it every spring. It is excellent for the blood."
