### MAKE MANY POINTS IN QUICK ADVANCE

ans Continue to Drive Back Austrians in Trentino.

### MALE LOFTY HEIGHTS

anna Denies Beating Retreat, But Admits Evacuation.

Special Cable to The Toronto World.  
LONDON, June 29.—"Between the Adige and Brenta our advance continues," the Italian war office announced today. The troops of Italy, scaling forbidden peaks and bullet and shell-swept slopes, stormed the lofty and powerful fort erected by the Austrians on Mattione in a venturesome step-chase sort of advance, and Italian infantry of the line at the same time carried the ridge of Monte Trappola. Trenches were taken in a single dash in the sector of Pambio. Ground of wild and rugged character, unfavorable to the movement of artillery, is retarding the pace of the advance in the Posina, and operations there are therefore being conducted on a slower scale. But Grisco has been reached and the positions of the Austrians at Betta and Monte Major have been carried. Pedesca and positions on the Com-

mont plateau have been occupied by the Italians in their thrust in the Arzio valley. In the Arzio valley the enemy has strengthened his positions. This he has also done on the left bank of the Galmara at Agello Pass. From this point of vantage Austrian cannon and machine guns continually swept the storming lines of Italians. These, however, have captured trenches near Zebio and Zingurana on the southern side of this valley.

The Austrians, under date of June 27, thus describe their retirement: "The drawing in of our front in the sector between the Brenta and the Adige was concluded yesterday. All Italian reports in regard to positions captured and other successes are absolutely untrue, as is proved by the following statement which could not be published previously for military reasons:

"During the night of June 25 there was begun partial evacuation of our first line, which had been conquered in attack, but proved to be unfavorable terrain. This evacuation had been prepared for a week. On June 25 the enemy continued to bombard the positions abandoned by us. It was not until noon that the Italians at some places on the front, between the Arzio and the Sugana valley, advanced cautiously. In the sector between the Adige and the Arzio the Italian bombardment of positions we had evacuated for some time continued all day, throughout the night and in some places during yesterday morning. On both days there was no fighting along this whole front. Our troops lost no prisoners, cannon, machine guns or other war material. Now the Italians are advancing against our new positions."

### COMMITTED FOR TRIAL.

Dr. Leslie Conliffe came up in the women's court yesterday on a charge of performing an illegal operation on a young girl 17 years of age and was committed for trial.

### GERMANS SHELL CANADIAN LINES

Foe Thus Retaliates for Hammering Received From British.

### USE SMOKE AND GAS

Raiding Parties Succeed Under Cover of This Form of Protection.

LONDON, June 29.—Frederic Falluier in a despatch from British headquarters in France, dated Wednesday, June 28, says: "Unusually heavy artillery firing, with numbers of trench raiders, have continued all along the British front during the last 24 hours. Here and there were intense outbursts from artillery concentrations on both sides.  
The British used both gas and smoke to cover their trench raids. In the Ypres salient were found the bodies of Germans killed by gas in their trenches. The Germans retaliated by bombardment of the Canadian positions at Observatory ridge and Sorrel Hill.  
The ease with which raiding parties, under cover of bombardment, can rush a trench of the enemy, inflict losses and bring back prisoners is such that it has become systematic nightly business along the whole front in the last few days, on a scale not attempted before.  
The Berlin version follows: The fighting on the western front attained proportions of considerable

violence at various points yesterday and last night, the war office announced today, but attacks of the British and French were repulsed everywhere. "In the western war theatre," the statement says, "the same conditions prevail along the British front as have existed during the last few days. Attacks by enemy patrols and strong infantry detachments, as well as gas results. Artillery fighting attained great intensity at certain points."

Bohan is one of the most popular members of this small club and is the twelfth to go overseas.

### BONA FIDE "OBJECTORS" ASSURED OF EXEMPTION

But Others Will Be Treated With Utmost Rigor, Says Asquith.

LONDON, June 29.—Premier Asquith today made his promised statement in the house of commons regarding the procedure of the war office towards conscientious objectors to military service who had committed offences in this connection. All men who honestly objected to military service, said the premier, ought to be able to avail themselves of the exemption privileges. Those who put forward the plea of conscientious objection as a cloak to cover indifference to respond to the national call ought to be treated with the utmost vigor.  
The premier announced that genuine conscientious objectors who undertook to perform work of national importance would cease to be the subject of military discipline.

### WAS A PRIVATE VENTURE.

Waldemar H. F. N. De Bille's proposed allied bazaar turns out to be a private venture and not, as was stated in a morning paper, a civic enterprise. "I saw Mr. De Bille yesterday," Mayor Church agreed, "but the city has nothing to do with it. And Dr. Orr, manager of the Canadian Exhibition, did not think there was any possibility of the fair grounds being used for the project."

### CHARGED WITH FRAUD.

### FACE AND HANDS BURNED.

William Mathewson, 125 Clinton street, had his hands and face badly burned yesterday afternoon when some hot resin he was using caught fire. He was taken to the General Hospital.

### CITY HALL NOTES

The question of protecting Toronto Island from storms cropped up again at the board of control yesterday. Ald. Ryding and Ald. McBride urged that the board take immediate action to protect the shores, but the board refused to admit the city's responsibility with another conference with the works and parks commissioners.

The carters employed by the street cleaning department are now after a substantial raise in pay. Yesterday a deputation of them appeared before the board of control and requested that in addition to their weekly salary of \$15, they be allowed \$9 per week to maintain their horses and wagons. The carters now get \$19 per week, including equipment allowance, so their request is for a \$5 raise.

Controller Foster was absent from the board meeting yesterday, and the vote to pay the \$1000 insurance to the next of kin as well as actual dependents was lost on a vote of 2 to 3. The insurance committee voted against it. Mayor Church maintained that the insurance act was wrong when it stipulated dependents. Dependents he maintained included next of kin.

### PRESENTATION TO FIREMAN.

Lieut. James Allen, who was recently promoted and transferred from Rose avenue fire hall to Richmond street station, was presented Wednesday with an umbrella by his comrades in the former station. He was twelve years at Rose avenue.
