## ROCKWOOD CROWDED

Delightful Weather Brought Thousands to Rockwood Park Last Evening.

The delightful weather last evening tempted thousands to Rockwood Park, and until ten o'clock a great crowd lined the walks, filled the pavilion, patronized the various attractions, or sat in groups along the hill-sides, under a very hot and warm sun. Men, women and children, baby carriages and large teams pressed each other for room on the road in front of the pavilion.

Teams should not be permitted to pass the pavilion after 8.30 o'clock on land nights. That narrow way was so crowded with strollers last evening that passing teams were wedged in, and if under such conditions a horse became frightened there would be serious injury to some.

It seemed to the little motor with a Times man met clergyman, alderman, merchants, bank managers, insurance men in short all sorts and conditions of men and boys, while the ladies seemed to be even more numerous, from the occasional leader to the little motor with a child in go-cart or carriage.

And yet, King street at ten o'clock had the usual crowd of people and the chattering wheels would never dream that so many people were out behind Mount Pleasant.

## BUTTER AND POTATOES

Slump in Butter Market--Increase in Potato Farming.

Indications point to a slump in the butter market. The exports to Great Britain have dropped off tremendously lately. The English market is said to be flooded with butter from Scotland, Ireland and Denmark and as a result the exports from Canada for June this year were 16,900 packages below last year.

In June, 1906, 19,005 packages of butter were exported to England, as compared with about 3,200 for June of the present year. In the province of Quebec 35 cents a pound was being obtained for butter last winter, whereas the price is now down to 20 cents, and is expected to go much lower as there is no opportunity for shipping it away.

The growing of potatoes has now become a very important factor among the farmers of Carleton county. It is stated that the crop of tubers from this county will this year far exceed all previous records. The yield, it is said, will be about double that of last year, which was the best on record. Timothy Collins, of T. Collins & Co., North Market street, who handle a large quantity of potatoes every year, was up in Carleton county a couple of weeks ago and he says the crop will be enormous. One man alone has put in fifty acres of potatoes, planting 450 barrels of seed.

Farmers who last year planted five acres were this year planting ten acres, and so on all over the county. Lots of farmers, he said, have planted 100, 150 or 200 barrels of seed.

The farmers are selling their cattle and going in for potatoes altogether. Hay is also being grown very extensively. The farmers say that they can make a good profit if they sell their potatoes for 30 or 40 cents, but last year great quantities were sold at \$2.40 and \$2.50 a barrel.

The great demand in the west has caused this branch of agriculture to take a great boom. Many New Brunswickers who went into Maine a few years ago, are coming back and buying farms in Carleton county and, as a result, farms that would have been sold for \$5,000 a year or two ago, are now being taken over at two or three times that price.

THE STATE OF THE FISH TRADE  
Shad a Failure, Gaspereaux Small Catch, and Salmon Scarcely an Average.

The fishing trade as a whole at this port is not up to the standard. The line fishing for cod and pollock along the Bay of Fundy coast is, however, better than it was this time last season. Gaspereaux fishing was not as good as last season, and was away below the average yearly catch. Gaspereaux sell for \$1.10 per barrel, sold. Some lots have been sent away to the West Indies. The salmon fishing, although not finished, is not as good as it was last year at the same time, but this last week there was some improvement and it is expected that this season's catch will be about the same as last year for 12 and 13 cents per pound. The shipment to the United States market is not so large as it was last year, but the local markets have been taking more salmon on account of the high price of meat.

The shad fishing was a failure altogether but it is by that the catch of fall shad will partially make up for this. All along the shore fishermen are out for salmon, and while ashore are getting the nets ready for the fall shad.

BIG EXPORT OF PULP WOOD  
The Lumber Trade is Generally Active at the Port of St. John.

Not only in the winter port freight business does St. John rank among the leading Atlantic ports, but in summer business as well as in holding her own and in some directions showing quite a large increase in departments of the shipping trade. Lumber shipments in particular show a most gratifying increase.

Ocean freights are about the same as at this time last year, 35 shillings from St. John to west coast of England. Since the opening of river navigation the shipment of lumber to the United Kingdom is just about the same as at this time last season, but throughout the past winter the deal shipments of liners was heavy.

Cowwise freights are ruling at \$3.50 and \$3.75 per thousand feet for New York, Philadelphia and Washington. There is now a steady demand for schooners from New Brunswick and Nova Scotia ports, and in cases 84, has been paid from Nova Scotia. Shipments from Maine ports have practically stopped during this month of July, into the New York market.

The amount of lumber shipped from this port this season to the United States shows a slight increase, while the shipment of pulp wood has more than doubled. This branch of business is increasing, also the shipment of cedar shingles, which always find a ready market.

The outlook all along the line looks bright, with all the mills cutting and the lumber trade out of this port will be heavy.

MAY ACQUIRE BOYS COLLEGE  
Rumor of a movement towards the acquisition of the Rothmans College for Boys, by the Church of England in New Brunswick, has been current for some time. The present proprietor, James F. Robertson, has been induced to name a figure at which he will sell.

The matter will likely come up at the synod meeting in October.

THE YACHTSMEN  
The R.K.Y.C. fleet of nine annual cruise, was at Oak Point last evening. Rev. Dr. Lindsay Parker, of Brooklyn, N. Y., chaplain of the club, joined the fleet at the mouth of the Belisle, in the Alanna.

The yachts are today sailing to Carter's Point, where the annual Sunday service is to be held. A very handsome gown programme has been prepared and the service is likely to be very largely attended.
