THE McCRACKEN INQUEST Physicians Give Their Opinions

The inquest in connection with the death of Harry McCracken was resumed last night and during the session physicians gave evidence relative to the case, pised in the hospital.
Dr. W. A. Christie, the first witness,

stated that he had attended McCracken before he went to the hospital, and also said in answer to the coroner that a typhoid fever patient falling 40 feet might be killed thereby and others might not be injured at all.

Dr. W. J. Scott, superintendent of the hospital, said that typhoid patients usually give vent to low mutterings, but without violence. The doctor said that after the accident McCracken did not appear to suffer from the shock.

pear to suffer from the shock.
Dr. A. F. Emery said that if there were low mutterings he would have given orders for McCracken to be closely watch.

FRUIT. Dr. Emery said that he did not think that if a nurse had been in the room with McCracken that he would have gone out the window. The witness said that before the accident he thought McCrack-WHEN YOU NEED BROWN BREAD, buy en's chances for recovery were slim. Dr. Emery said that if he had such a case in e best; mother's make.
