

The Study of Children And Their School Training

— BY —

FRANCIS WARNER, M. D. (Lond.),
F. R. C. P., F. R. C. S. (Eng.)

*Physician to and Lecturer at the London Hospital; Physician to the Royal Albert Orphanage; formerly Physician to the East London Hospital for Children.
Honorary Member of the Hungarian Society of Public Health at Budapest.*

12mo.; Cloth, \$1.25.

This volume is written chiefly for Teachers, as it deals with the training of children during the period of school life, but interested and intelligent parents will find it helpful in its facts and recommendations. All true students of childhood will welcome the book.—*From the Introduction by Inspector J. L. Hughes.*

Essays on Educational Reformers

— BY —

ROBERT HERBERT QUICK, M. A.

This book has long been authorized by the Education Department for the Normal School Course. Its large sale shows that it was regarded as a valuable addition to pedagogical literature. The present volume has, in a measure, been re-written; with new matter added, and brought down to date.

12mo.; Cloth, \$1.50.
