EVEN such a beard as this would give up quickly to the softening influence of Colgate's Rapid-Shave Cream.

It works wonders—makes the toughest beard yield softly to the razor, and leaves the face cool, soothed, and refreshed.

We have everything for the toilet—fine soaps, talc, dentifrice, tooth brushes, shaving brushes, razor strops, blades, and bath salts and toilet waters.

You Can Buy Cheaper Shoes Than Ours

You'll find a lot of "price temptations," accompanied by an apologetic "reason why we sell so cheap among the advertising that appears these days."

Some men "fall for it"—ONCE. And only once, they're cured.

We're selling good shoes at fair prices. We're making a normal trading profit. Every man is entitled to that. Every man expects to pay that. And every man expects a dollar's worth for a dollar spent.

You'll get it when you buy your spring shoes here. Goodyear Welts as Low as \$4.50 in Oxfords, and \$5.00 in High Shoes or Boots.

SEES DANGER IN U. S. PORT CALL

Board of Trade Council Objects to Indies Treaty Clause

Will Present Matter to Government—Federal Taxation on Public Utilities

The Board of Trade Council went on record today as being opposed to the clause in the tenders for West Indies steamer service which allows an inward or outward call at or in the U. S. The council favored the proposition of the Montreal Board of Trade that federal taxation on public utilities should be on gross revenues, rather than profits, and that publicly owned utilities should pay the same tax as privately owned.

MARITIME MOVEMENT A. P. Peterson, for the Maritime committee reported that this movement was progressing favorably and a good result was expected from their work.

WEST INDIES A. F. Blake, chairman of the West Indies committee, reported that his committee had been studying the proposed tender for steamship service to the West Indies, and they saw a danger to Canadian trade in the clause allowing an inward or outward call at one port in the U. S. It was felt this was a direct violation of the policy of Canadian trade through Canadian ports and might result in the diversion of freight to U. S. ports.

FOR NEW MEMBERS A. L. Foster, for the membership committee, reported that a campaign for new members would be undertaken soon.

TAX ON UTILITIES The Montreal Board of Trade asked the support of the local board in its protest against the present income tax on profits of private utilities.

WOULD CHANGE TAXI BY-LAW

Objection is Raised to One Proposal of Commissioner Harding

Will Be Discussed Monday—Tax Valuation of West Saint John Plant

At a meeting of the Common Council in committee today, Commissioner Harding said he has been considering some changes in the taxi by-law and would like to have this matter dealt with as soon as possible.

PROPOSED CHANGES At the present time the licenses are issued on January 1 and none later than February and it is proposed to change this to read May 1 and June 1. This clause is objected to by the taxi men on the ground that it permits a number to come in and take the cream of the business away from those who operate the year round.

PLANT VALUATION A bill prepared by Barnhill, Sanford and Harrison, solicitors for Taylor and White, providing for a fixed valuation of \$2,500 for 10 years on the plant of Taylor and White, West Saint John, was before the Common Council this morning and the acting Mayor was given authority to sign the petition sent with the bill to show the council had agreed to it.

Acting Mayor Frink reported that he had been looking into the matter of the bill rendered by the militia department for services of troops in 1921 and was not yet ready to report.

STATEMENT SOON ON PROHIBITION LAW Chief Inspector Says Some Matters Affecting Administration Being Considered

While there was nothing special to announce at the moment, certain matters were being considered in relation to the administration of the prohibition law, and a statement probably would be made in the near future, said W. L. MacFarlane, chief provincial inspector, when interviewed in his office here this morning.

Mr. MacFarlane, who arrived in the city yesterday, has been busy holding conferences with the various inspectors in this locality, in regard to law enforcement. The said conferences were pretty good now, he looked for an additional improvement soon.
