MARITIMES TO LURE COUNTRYMEN

Similarity to Parts of Britain Observed Here by

OTTAWA, Sept. 2—That there are splendid opportunities in the Maritime Provinces for Old Countrymen with a little capital, desirous of going in for farming in a smaller way than usually in the west, appears to be the general opinion of the British press who are touring Canada from coast to coast as guests of the president of the Canadian Pacific Railway, E. W. Beatty, with a view to studying Canadian conditions at first hand, and who arrived in Ottawa today.

at first hand, and who arrived in Ottawa today.

All the members of the party appeared to have been impressed also with the similarity, as they termed it, of the country in the Maritimes to that of some parts of the Old Country at least. For this reason, among others, the pressmen were inclined to see considerably more attraction for Old Country people in that part of Canada.

Another "One" Price Dining Room Suite

Repeating Last Spring's Big Success

LAST Spring, in co-operation with many furniture dealers in Ontario and Quebec, we featured a special Gibbard dining room suite at ONE cash price.

This was the first time in the history of Canadian furniture merchandising that dealers agreed with the maker to sell his furniture at ONE cash price—and a LOW one.

Soon Sold Out

So successful was this event that we were soon sold out of the suite. Demand exceeded our stock at the

We tell you this as a warning. We advise you to act promptly, if you desire one of the special new dining room suites we are placing on the market to be sold at ONE cash price by leading furniture stores in Ontario and Quebec.

One Cash Price \$247 (Slightly Extra for Credit)

This new suite, NOW on sale, is, to our mind, the finest Gibbard dining room suite that we have built to retail at such a low cash price as \$247.

Artistic Hand Carving Aside from the fact that this suite is of SOLID Walnut, the most desired and most beautiful of cabinet woods, the outstanding feature is the Hand Carving on the buffet doors and on the side panels of the china cabinet. There are artistic Hand Carved de-corations on the chairs, too. This Hand Carving is executed in the solid walnut itself. It is a distinguishing feature of Gibbard furniture. It gives it a character all of its own it a character all of its own.

The Queen Anne design is very artistic. The finish is particularly handsome and durable. The suite is well built throughout. There are dust-proof divisions between

drawers.

The roomy buffet has ample cupboard space, neat arrangement for cutlery, lots of room for linens. The drop door is another desirable feature.

Crimson Price Tag To enable you to identify the suite, a large crimson price tag will be displayed with the suite, with the figures \$247 in large

Table Mat Included An Asbestos Table Mat of the correct size to fit the table will be included with the suite without extra charge.

If this special suite is not procurable in your locality, write us, giving the name of the furniture dealer from whom you usually purchase, and we will arrange to have you supplied. But remember our warning. See this suite right away if you desire to obtain one.

LUMBERMEN AWAIT

Mirimachi Operators Say Season's Cut Plans Depend on

NEWCASTLE, Sept. 2-J. Leonard O'Brien, one of the Miramichi lumusiness conditions on the river, said that the mills that commenced perations this season were working at present and the outlook was that hey would run for another four to six weeks, depending upon their supply of logs.

During the last month the steamer hipments from the river had been shipments from the river had been quite heavy, including laths to the United States markets and long lumber to the Old Country, he said. The number of ships in port taking lumber cargoes might lead an observer to believe that the lumber business was exceedingly brisk. However, the fact was that the prices obtainable did not meet the cost of producing the lumber by a substantial amount.

ASK ABOUT RELIEF.

This was an unhealthy condition and, therefore, no plans had been made for the cut of logs for the coming winter, Mr. O'Brien said.

Other lumbermen on the river stated that in view of the present unsettled conditions the cut would be limited and in any event, before plans could be made definitely they should know what measures of relief the incoming Baxter Government could offer. Until this all-important fact was determined very little could be done. In view of the importance of the lumber industry to the province it is expected by the lumbermen that the new Government will give the question of relief the fullest consideration as soon as circumstances will permit so that cutting may be commenced before the season becomes too far advanced.

"Red" Hill May Try
To Swim Niagara

NIAGARA FALLS, N. Y., Sept. 3.

William (Red) Hill, of Niagara
Falls, Ont., famous for the part he played in the rescue of persons from the ice bridge in the tragedy on February 4, 1912, is reported to be contemplating swimming the Niagara River below the falls next Sunday. A purse of \$1,000 is said to have been posted and will be turned over to Hill if he successfully negotiates the stream. Bobby Leach, veteran dare-devil, who went over the falls in a barrel, in July 1911, made two attempts to swim the river and failed last Sunday.

Authorities on both sides of the river said that no permit would be issued to thill and that every effort would be made to stop him should he try to swim the river. For this reason Hill is keeping his plans secret.
