

RESTAURANT STALLS AGAIN COURT TOPIC

Complaint Against Six Chinese Proprietors Made in Police Court

MAGISTRATE IS TO INVESTIGATE

Hon. Mr. Tilley for Defence—Question of Immorality Mentioned

Six Chinese proprietors of cafes were remanded for a week this morning in Police Court, after having been charged with keeping stalls in their restaurants which screened the occupants from view.

Hon. L. P. D. Tilley, K.C., appeared for the defendants. He saw the partitions which had been in place from floor to ceiling in two or three of the cafes had been removed and the stalls were open in the front for six feet or more and the side walls were four feet high. The present sitting in the stall could be seen by anyone entering the restaurant.

DETECTIVE NOT SATISFIED.
Detective Hiddiscombe, who made the reports, said that the stalls were still contrary to the by-law, in that a clear view of their occupants could not be had from the entrance door of the cafes. He said that to see the persons in the stall it was necessary to walk down the stairs and look in at the front of the stalls.

Mr. Tilley then drew a parallel with an ice-cream parlor. He said that in the cafes and remarked that it was strange that the ice-cream parlor had not been brought up as well.

Detective Hiddiscombe said that of two restaurants, one without stalls and one with, the latter would do more business. He also said that some of the stalls were frequented by people of known immoral character and that even the changes in the present arrangement constituted a menace and was not in the spirit of the by-law.

COURT WILL INSPECT.
Mr. Tilley pressed that His Honor visit the different restaurants that were mentioned and Magistrate Henderson allowed the case to stand for a week that he and the detectives might have an opportunity to visit the cafes and ask for themselves what the reported changes had done.

His Honor remarked that there were complaints of late hours, loud noise, from restaurants kept by Chinese. He said that the case would be investigated thoroughly and would be sifted to the bottom.

BILLBOARDS TO BE REPORTED ON

Commissioner Wigmore Brings Up Question of Danger From Them

Carleton City Hall Bid Approved—Total Cost May Reach \$85,000

Danger to citizens from billboards, land titles in Lancaster and the restoration of Carleton City Hall were matters discussed at a committee meeting of the City Council this morning.

It was decided to recommend the acceptance of the lowest tender, that of Stackhouse Brothers, of \$43,338, for the restoration of the Carleton City Hall.

The report of the sub-committee was, in part, as follows: "The estimated cost was \$60,000 and the lowest tender was by Stackhouse Bros. for \$43,338.

"To complete the building would require heating, lighting and plumbing, and the architect, H. C. Moti estimates the cost at \$15,000.

To proceed with the present contract for \$43,338 would be most economical in view of the keen competition and low tender.

"Balance of insurance fund on hand, about \$20,000, would apply on reconstruction."

KEENER COMPETITION

Commissioner Prink asked why it would not have been better to figure on the whole job.

It was explained by Mr. Moti, that he believed keener competition in bidding would result in a simpler in land survey for the heating, lighting and plumbing as each bidder would be tendering only on his own line.

Commissioner Bullock asked if this estimate included the furnishings and the architect's fees. It was said it did not and he pointed out that these would probably bring the cost up to about \$65,000, which would mean a loan of \$22,000 from the Corporation. Commissioner Harding thought the cost might not exceed \$55,000.

APPLICATION GRANTED

The application of the New Brunswick Telephone Company for permission to place three poles on Sewell street, between Dorchester street and Pond street, was approved, any guy wires placed to remain at the will and pleasure of the council.

Commissioner Bullock presented a claim for \$22.50 from J. Driscoll for damages alleged to have been sustained by his automobile while on the ferry on November 23. This amount was referred to the commissioner of ferries for a report.

BILLBOARD QUESTION

Commissioner Wigmore called attention to a billboard erected for the erection of billboards and to which he had referred on previous occasions and said he would like to have the commissioner of safety or city engineer inspect every billboard in the city, whether on private property or not, and report on its safety.

LANCASTER LANDS

Commissioner Bullock said that when certain tenants of the city in Lancaster had applied for the fee simple in land under lease to them it was found which the lease called for as part of it belonged to the C. P. R. The latter had agreed to deed certain lands to the city on the condition that the city engineer should recommend a plan of the station and railway yard. The city engineer also recommended that a part of the city land, lying to the north of the station be sold to the C. P. R. for \$100.

The matter was referred to Commissioner Bullock and the city solicitor for a report.

A communication from the chairman of the Board of Assessors in connection with the assessment of the D. P. Brown Paper Box Co. for 1923 was laid on the table until the chairman could be present. The company moved their plant from the city to Simons early in 1923 and claim they are entitled to some reduction in the amount assessed on personal property and income.

Family Trouble Is Aired In Court

In the Police Court today, Sheldon Hogan, Pond street, pleaded not guilty to a charge of assault laid by his wife. He said she hit him first after calling him names. Mrs. Hogan asserts her husband had hit her, knocked her down, kicked her and generally ill-treated her. Mrs. Kirklund, who lived in the house corroborated her evidence. Hogan stated that he had three witnesses to the effect that his wife had slapped his face after he had insisted that she put on her coat and hat and go out with him, because he had something to tell her. The momentous secret was not revealed in court.

Magistrate Henderson allowed Hogan to make a deposit of \$50 and remanded him until Tuesday.

TAYLOR STATTEN ON VISIT TO CITY

Official Comes in Interest of Work Among Boys—Meeting at Beatty Hotel

Taylor Statten, secretary of the National Boys' Work Board of the Religious Education Council of Canada, is to arrive from Moncton this afternoon. He will be the guest of the Saint John Boys' Work Board at dinner at the Admiral Healy Hotel this evening when the ministers, Sunday school superintendents and male workers among boys, will attend. Following the dinner, at which Mr. Statten will be the speaker, he will address a meeting of the Saint John Boys' Work Board and Members' Association in the hotel. On Tuesday at noon Mr. Statten will be a luncheon guest of L. S. Simms at the Admiral Healy. He will leave again on Tuesday evening for Upper Canada.

WORK FOR BOYS.

Mr. Statten is credited with having evolved a program in boys' work that has met with high favor in international religious educational circles. The American national body, through Rev. Dr. Percy R. Hayward, formerly Baptist pastor in Fairville, has absorbed much of the Statten program, which, when presented to the vast American organization, elicited unusual enthusiasm. The American body is composed largely of university executives and constructive educationists of world repute. Therefore the visit of the Upper Canadian official is creating much interest among those who are working for the boys' spiritual, mental and physical welfare.

L. W. Simms of Saint John, besides his local activities in religious educational work, is chairman of the board of trustees of the international body, the meetings of which are usually held in New York city.
