

FOR EXEMPTION OF NEW DWELLINGS

Legislation to Encourage Building Discussed by Municipal County Committee—Other Bills For Legislature.

A meeting of the bills committee of the municipal council was held yesterday afternoon in the office of the county secretary when various bills to be presented to the legislature were considered. Those present were Councillor O'Brien, chairman; Councillors Jones, Bullock, Schfield, Donovan, Golding, Campbell and Mosher and the secretary, J. King Kelley. The various sections of a bill relating to a municipal building for the city and county of St. John was considered section by section but no action was taken, further consideration being stood over until later in the week.

Another bill considered was that enabling the city and county of St. John to borrow money against taxes which had been levied. The bill also authorizes the General Public Hospital, Municipal Home and other public institutions within the county to borrow money up to eighty per cent. of the amount of assessment levied for their support.

A bill relating to the rates and taxes in the parish of Lancaster would authorize the parish to collect \$3 for every horse in the parish. It also calls for the payment of a motor fee to the parish equal to one-third of the fee paid to the provincial government. The fees are to be used for highway maintenance and the bill contains clauses exacting penalties for non-compliance with the act.

An act was considered which would give the municipal council power at any general meeting to issue bonds to pay for improvements to the General Public Hospital, which may be made from time to time. This would mean a change in the present act. The council would also have the power at the time of issue of such bonds to fix the denomination, period to run and rate of interest.

An act which was read but not considered was one relating to exemption from taxation of new buildings planned for dwelling purposes in the municipality. The act would give the council power, by resolution, to exempt any rates and taxes, except local school rates, on new buildings for dwelling purposes, with the exception of hotels, until January 1, 1934. The exemption would not exceed \$6,000 for a single family house; \$12,000 for a double family house, and for a multi-

WOMEN'S RIGHTS AND MEN'S WRONGS

Divergent Views Expressed in Joint Debate at Brooklyn Academy.

New York, March 22.—Soft moonlight, breath of promise suits, allusion, millinery, clothing bills and other accompaniments of courtship, marriage and divorce, were discussed from divergent viewpoints at the Academy of Music in a debate on the question: "Have women's rights brought man's wrongs?" The Rev. William Carter, married, pastor of the Throop Avenue Presbyterian Church, braved the indignation of about 800 women, making up eighty per cent. of the audience, to argue the question, from the standpoint of the downtrodden male, while Miss Sarah Stephenson, borough secretary of Brooklyn, confident in the support of the majority, took the other side.

Dr. Carter dared to say some very strong things about women, remarks that elicited many murmurs of disapproval. The feminine contingent at the meeting fairly gasped when he told them that they haven't half the rights they used to have, and referred to the Roman woman Vestalia, who divorced ten men in one month, thereby establishing a world's record as a fast worker, which even Henry VIII. had been powerless to equal.

"The man pays for a mistake made after a soft moon," he continued coolly. "Either he is sued for breach of promise, or if he marries he invites alimony which is never outlawed and is better than a Liberty bond."

"Women are never satisfied with

being equal. A majority of women believe in having super-rights. She has been set on a pedestal by man to be adored by him. She has been lifted to such a height that man is not her equal."

There was another flutter when Dr. Carter said that whenever a man had entered woman's field he had excelled her. "Where you go for a good meal?" he asked. "You go to a man chef. Even a woman, to get a good hat, has to go to a man modist. We have men butlers and men valets, and in everything a man excels a woman, except one—nursing."

Miss Stephenson, at the outset, quoted Genesis to prove that the earth has originally been given equally to man and woman.

Why man should prefer a clinging vine was more than Miss Stephenson could understand. She said that she was for the fifty-fifty basis of dividing the husband's earnings.

Take a Vote on Pies

Take a vote on pies in your home and you'll make mostly raisin pies. For this is the pie that men think most delicious.

Raisins furnish 1560 units of energizing nutriment per pound. They are 75 per cent pure fruit-sugar in practically predigested form.

So the nutriment of raisin pie is almost immediately assimilated.

Raisins are rich in iron also, which brings the bloom of youth to women's and children's cheeks. When you eat raisins you eat a "beauty food" as well as one that's healthful.

Try raisin pie tonight. You'll never have to ask men what pie they like thereafter. Every first-class baker has this pie, or if you wish to make it yourself, we publish here the tested recipe for the chief of pies.

SUN-MAID RAISINS
