MR. JOHNSON GIVEN A WARM RECEPTION

Chicago's Colored Leaders

Turn Out in Force

To Welcome the Gentleman Who Put it all Over Mr. Thomas Burns in a Recent Encounter.

CHICAGO, Mar. 15.—The ideas of March hereafter will have a significance to Chicago's colored population other than that given it by history, for yesterday Jack Johnson, the first colored champion of the world, appeared at the depot where they waited patiently for two hours for the delayed train. Wearing polka dot trousers, peg leg trousers, boldly designed shirt front and the masculine of the cabriolet hat, they were garbed according to the latest dictates of fashion as promulgated from the editorial throne of the so-called black belt. There was a hush as the conqueror of Tommy Burns alighted from the platform. His eyes were keen, his step jaunty. There was little strength apparent in every movement and his smile showed appreciation of mingling again with his old friends. "He is wearing a gray fador," whispered one of the crowd, "just like mine."

"Look at the field glasses over his shoulder. Reckon he wants them to look for Jeffries."

For the rest of the champion's attire it was Australian gray and the cut was English. Those who boasted previous acquaintance approached the ring hero hilariously accosting him as "Jack" and slapped him heartily on the back. Less fortunate individuals were gravely "proud to meet Mr. Johnson," and then stood back at respectful distance.

An automobile was waiting. In it Johnson was whisked away to the home of his friend J. B. Williams, 28 State street, a section of the city in which many colored people make their homes.

SERVA SEEMS TO BE GETTING IN A CORNER

Austria Will Force the Issue, Making War Probable—Turkey Seemingly Information.

Information.

BERLIN, March 15.—Advices received at the foreign office today concerning the strained situation between Austria-Hungary and Servia indicate that the crisis is still in an acute stage. It is affirmed that Austria-Hungary is about to make another effort at Belgrade with the view of bringing Servia's views into accord with her own. The nature of these representations is not disclosed but it can be said that the dual monarchy will demand a clear explanation of Servia's intentions. Officials say that if Servia accedes, the negotiations will pursue a peaceful course but if not hostilities are inevitable and the only task of the powers will be to localize the conflict. The report that Turkey will demand an explanation of Servia's intentions with regard to the large quantities of war material and munitions in the hands of Servia has been officially confirmed. Should the reply be unsatisfactory, an embargo will be placed thereon. In the meanwhile Servia has arranged to procure munitions of war and stores via Bulgaria but pressure will be brought upon Turkey to prevent the passage of military supplies through the Dardanelles.

WEALTHY WINNIPEG WOMAN DECIDES TO GO TO JAIL

Profers This Course to Paying a Judgment—Big Business Done at Little Western Towns.

WINNIPEG, Mar. 15.—Rich beyond the ordinary lot of man or woman, Mrs. Stephenson refuses to pay any award of the courts and prefers to go to jail. She acknowledges to have \$15,000 in cash and \$2,000 in diamonds, but she does not keep them in the bank but on her person, where they cannot be touched. A judgment had been taken against her for \$8884 but this she refused to pay and went to jail with her money.

The technical charge is not debt, but contempt of court in refusing to obey the order of the court.

Officials of the C. P. R. state that the little town of High River, Alberta, shipped more wheat than any other place in western Canada, the shipments averaging 60,000 bushels per mile for the entire mileage in that district. The three year old town of Cadzow, Alberta, it close, for during past season its freight shipments figured up as follows, \$500,000 for grain, \$300,000 for stock, \$300,000 for dressed meat and \$300,000 for dairy produce. Fifty-two thousand acres of winter wheat and 35,000 acres of oats are under cultivation in the vicinity.

P. E. ISLAND LEGISLATORS ADVOCATE THE CREATION OF A MARITIME FISHERY BOARD

Suggest That It Include Both Federal and Provincial Representatives Who Would Deal With All Matters Affecting This Valuable Industry

CHARLOTTETOWN, Mar. 15.—The "herring shockers" that is applied to Prince Edward Islanders, by the people across the border, appears to be justified, for the least by the people from the fact that the fishing industry next to agriculture, is the most important in this sea-surrounded Province. Although herring is only one of the varieties of fish that inhabit our waters, it seems in accord with the times of things therefore, that the legislature should discuss the fisheries question, and last week, a very instructive debate took place around a resolution requesting the Federal Government to take steps to preserve, increase and develop the fisheries. It was suggested that a commission after the pattern of the Scotch Fishery Board should be appointed. In practically every constituency of the thirty in this island, fishing is a prominent industry, and nearly every member felt in duty bound to his constituents to talk upon the subject. The resolution was moved by Mr. R. N. Cox, of Miramichi, who has carried on extensive operations particularly in the herring industry on this island, and at Magdalen. He is also largely interested in the lobster fishing. He contended among other things, that there should be a size limit for lobsters, that the traps should not be set in a less depth of water than nine feet, that mackerel nets should not be set on the spawning ground of this valuable fish, and that all fish should be inspected before shipment and that the future of the island fisheries is largely dependent on a proper system of cold storage, and adequate transportation facilities. Mr. Cox believes that the fresh fish industry is capable of tremendous development here, only once the necessary cold storage system could be established. Other speakers such as Hon. Joseph Read, of Summerside, and Hon. John Richards, of Biddeford, also took part in the debate. Hon. John Richards, of Biddeford, contended that the protection of our oyster fisheries, which are rapidly becoming depleted. The famous Malpeque oysters are the best in the world and last year it was paid from \$10 to \$12 a barrel for this pointed out that New York dealers island product, which they close in preference to their native bivalve.

Mr. John McLean, of Bourke, one of the largest lobster packers in the province, contributed some valuable information based on his own experience. He and other speakers advocated the shortening of the lobster season, which in the north and east side of the island, extends from April 20th to July 10th, so that it would run from May 1st to July 1st. There is a different season for the south and southwest sections of the province, and the members from those sections favored some reduction of the fishing days also. The total value of our lobster catch was estimated at between \$600,000 and \$700,000 and unless some restrictions are granted the industry will go into decline. The establishment of hatcheries at one or two points has been of service in keeping up the supply but as a chain of lobster traps virtually extends around the whole coast line, and as traps are used which catch everything in the shape of lobster, there is danger of the industry becoming seriously affected by over-fishing. The necessity of establishing a standard of pack and a standard of packages in regard to herring, cod and mackerel, was also emphasized, as was the need of having our fishermen educated in the best methods of curing and caring for the fish. The question of divided jurisdiction is admitted to be a handicap to the progress of the industry, especially in the case of oysters. Farmers are anxious to secure large quantities of oyster mud as a fertilizer, but in digging mud which belongs to the province, they are liable to take live oysters, which the federal government says they must not do, as they have the power to regulate the fisheries. It was suggested in the course of the debate that a fishery board composed of independent men from the three maritime provinces should be appointed to deal with the matters of oyster fishing. On this board both the federal and local power and rights could be vested. The resolution is still before the house and will be disposed of this week.

NEW GLASGOW MAN SEEKS HIS WIFE IN MONTGOMERY

Railway Town the Mecca of Runaway Women—Hiram Trenholm Dead.

MONTGOMERY, N. B., March 15.—Because he thinks his wife is living with another man in Montgomery, a resident of New Glasgow has written the local police asking that enquiries be made so he could obtain information sufficient to secure a legal separation. The wife left her home in New Glasgow some months ago, and it was only recently the husband learned she was here keeping house for another man. The death occurred this morning at Point de Buie of Mrs. Hiram Trenholm, aged sixty-four years, of heart failure. Deceased was very prominent in the community and leaves a large circle of friends to mourn her loss. He leaves a widow and six children. W. S. Trenholm, of the C. P. R. A. department of the I. C. R. here, is a son, also Arthur at home. The daughters are Misses Posselt and Adele at home, Mrs. Whitney, Wakefield, Mass. Mr. C. Chapman, Shemogue, Hon. C. W. Robinson is a nephew of the deceased. The funeral will be held Thursday afternoon.

ITALIAN POLICE FEAR FOR ROOSEVELT'S LIFE

Endeavor to Dissuade Him From Visiting Southern Italy.

NEW YORK, March 15.—The World prints this cablegram from London which was written by the Daily Chronicle correspondent at Milan:

"The Italian police are in a state of trepidation over Mr. Roosevelt's arrival in Naples early in April, and they learn with dismay that the ex-President and his wife and three children intend to journey in Southern Italy until June. Every effort will be made to dissuade Mr. Roosevelt from setting foot in Sicily and the earthquake region. The Messina district from the time immemorial has been the stronghold of the Mafia and in view of the ex-President's strenuous campaign against the criminal associations, such a movement would be attended with grave risk."

FORTUNE DESTROYED BY HUNGRY RATS

Miser Countess Found in Wretched Home Almost Dead From Starvation.

ALBURN, March 15.—The Countess de la Premiere, who, in her youth, was a noted beauty, was found dying yesterday in a miserably furnished room, which she inhabited at Sena, in the Department of the Yonne. Although she had plenty of means, she was noted for her avarice. She hoarded her money and kept it in an old cupboard near her bedside. Into her bedroom she would allow no one to enter. She was now approaching 60, and for some time has been in failing health. As the neighbors had not seen anything of her for two days, they concluded that she was dead. They went to the police, and two gendarmes were sent to investigate. The door of the building occupied by the Countess was locked, and in order to enter the officers had to force the door. The Countess was found lying on her bed, unconscious, and terribly emaciated, for as she lived entirely alone she had been without nourishment for several days.

A swarm of rats had been in possession of the room. They had eaten whatever food had remained, and had also attacked the old woman's hoard of wealth, which was safely in barrels and scrip. Gained scraps of thousands of franc notes were found on the floor.

ZEPPELIN AIRSHIP SUCCESSFULLY LANDED

FRIEDRICHSHAFEN, Mar. 15.—Count Von Zeppelin's new model airship with the inventor and four other men aboard made a successful descent in a field on the shores of Lake Constance today.

It has been asserted that the count would not land on the ground without an especially built platform, but this has now been disproven. The airship came easily to the earth and after remaining for some time re-ascended and returned to the balloon shed on the lake. One of the steering planes was slightly damaged by coming in contact with a tree but it was repaired on the spot. Lieut. General Linker and a number of other army officers were present to witness the manoeuvre.

TELEGRAPH STRIKE PROVING A FAILURE

French Employes Not Anxious to Lose Their Jobs

Many Went to Work Today and the Tie-up Is by No Means General—May Be Called Off.

PARIS, March 15.—The general strike of the telegraph, telephone and the postal employees of the state voted with so much enthusiasm last night, is turning out today to be anything but effective and unless there should come some sudden change for the worst it promises to be of short duration.

An overwhelming majority of the day shifts in all the branches of the service reported for duty this morning. Hundreds of men who were present at the meetings last night apparently had concluded after sleeping over the matter that they would not run the risk of losing permanent employment.

Nevertheless, the various services are more or less crippled or demoralized today. The main defections occurred in the telegraph and railway mail services. At the Central Telegraph office most of the operators are this morning sitting behind their keys with crossed arms on the pretense that their instruments are out of order. The telephone system appears to be working normally but the deliveries of mail occur with some delay.

The Government shows no signs of yielding. On the contrary M. Simey, Under Secretary of Posts and Telegraphs, announced this morning that such a revolt on the part of the servants of the state cannot be tolerated. Every official refusing to work or disobeying the regulations, will be summarily suspended and dismissed without the usual appearance before a court of discipline. There is reason to believe that the Cabinet, at its meeting today will temporarily forbid further meetings of postal employees on the ground that such gatherings endanger the public service.

ELECTROCUTED FOR KILLING HIS UNCLE

Italian Put to Death at Auburn Prison This Morning

No Maintained to the Last That Companion Who Was Set Free Had Committed the Crime.

ALBURN, N. Y., March 15.—Salvatore Randazzo, who was convicted on April 3, 1908, for the murder of his cousin, Pietro Randazzo, of West Salama, on January 11, 1908, was electrocuted in Auburn Prison at 6:15 o'clock this morning. The electrocution was a successful one. But two contacts were necessary to kill, the first one of 1400 volts at 7 1/2 amperes lasting fully a minute, while the second one was of but three seconds' duration. Randazzo claimed to the last that he was not guilty of the murder of his cousin. In a letter to his father written yesterday morning the man within the shadow of the chair said that the murder was the work of Silvio Baretta. Baretta and the Randazzos were section men at West Salama, occupying bunk in a box car. Pietro Randazzo was killed on the night of January 11, 1908, and the body thrown into the Alleghany River where it was not found until a week later. Baretta and Randazzo were arrested and indicted for murder in the first degree. Randazzo's trial took place first and he was convicted. Baretta was acquitted. It was shown at the trial that the murder was a part of a plan to rob Pietro Randazzo of between \$40 and \$50.

FREDERICTON NEWS

FREDERICTON, N. B., March 15.—L. W. Johnson, who was removed from office of principal assessor by the city council last evening, packed up his effects and vacated city hall this morning. James Farrell, the new assessor, will be sworn in tomorrow morning.

Harry McLaughlin, of New York, and C. F. Sanford, of St. John, are here today to interview the government in regard to the Grand Falls Power Company.

The annual meeting of the Farmers and Dairyman's Association opens here tomorrow afternoon. An attractive programme has been arranged and there should be a large attendance.

NEW DEVELOPEMENT IN KINRADE MURDER

Members of Family Swore Ethel Did Not Go Out

But Other Persons Saw Her Some Distance From Home Shortly Before Tragedy—Important Evidence Coming.

HAMILTON, Mar. 15.—Sensational developments are promised when the Kinrade murder inquest is resumed Friday evening.

Members of the family have sworn that Ethel Kinrade was not out of the house the day of the tragedy. Florence says she went down stairs to mend her gloves and that Ethel called down to ask if she were ready to go out. Shortly after the man came to the door. The police expect to show that Ethel Kinrade was shot shortly after returning to the house. They expect to prove conclusively at the next session of the inquest that Ethel Kinrade was conversing at home from her home at 3 o'clock on the afternoon of the tragedy. The Star learns from an authoritative source that a witness will be called who will swear positively that she saw Ethel on the street at 3 o'clock. This witness says she knew the dead girl well and she knew the time exactly because she was turning the key in her door to look it just as the city hall clock struck the hour. The police hope to substantiate this story by the evidence of Miss Rosack, who lives near the Kinrade home, and who is quite sure he saw Ethel pass his house that afternoon.

A number of new witnesses, it is understood, will be called.

Detective Miller was here this morning and called at several houses in the neighborhood of the Kinrade house. He says there was nothing for publication. He declared there was no truth whatever in the report that the Norfolk police had been asked to make an arrest. The detectives, according to their official theory, a contractor took a load of tools to a certain street this morning to open a sewer, but the weather was so stormy that he was unable to continue the work until tomorrow morning. Mrs. Kinrade's calling days were the first and third Thursdays. The inquest at the inquest was rather confusing on this point, and made it look as if the tragedy was on the third Thursday. It was on the fourth Thursday.

THORNDYKE ANGELL, THE FRIEND OF ANIMALS, DEAD

BOSTON, March 15.—Geo. Thorndyke Angell, the "Friend of Dumb Animals," as the veteran leader in the humane educational movement in the United States was called, died early today, aged 84 years. In 1864, after saving two horses run to death in a race, he became interested in humane work for dumb animals and prompted by the action of Henry Bergh, who in that year started the New York society for the prevention of cruelty to animals, Mr. Angell established the publication "Our Dumb Animals."

Since that time he has been active in the humane movement. He has been engaged in the interest of his chosen life work. He travelled many times throughout the United States and in scores of other countries in pursuit of that work, and caused to be established more than seventy thousand "Bands of Mercy" in America and England.

CHATHAM PARAGRAPHS

CHATHAM, N. B., March 15.—The funeral of the late John Sinclair will be held tomorrow afternoon, St. Patrick's Day. It is stated as a coincidence that Mr. Sinclair's father was also buried on St. Patrick's Day.

A three weeks' revival campaign was started in St. John's Church last evening and the opening meeting was largely attended. Rev. J. M. MacLean, Geo. Wood, G. F. Dawson and Mr. Patterson of Tabularia, are conducting the services. Meetings will be held each night this week in St. John's church and next week in St. Luke's, concluding with service in St. Andrew's.

FORCED TO MOVE

because the owner had "sold the house over their heads," they had to decide quickly. "I don't want to move and then have to move again because the house isn't right," said the husband, "and I haven't the time to go house hunting." "You don't have to go house hunting, dear," said his wife little wife. "I'll go house hunting in the small want ad column." Call main 25
