

ASKED HER DRUGGIST TO GIVE HER SOMETHING.

She Had a Bad Cold, So He
Recommended
Dr. Wood's Norway Pine Syrup.

Mrs. James Warren, Edmonton, Alta., writes: "Just a few words in favor of your Dr. Wood's Norway Pine Syrup. A short time ago I contracted a bad cold, and tried several remedies, but had no good results. I asked my druggist to give me some good cough medicine he could recommend, so he told me to try Dr. Wood's Norway Pine Syrup, and I can safely say I have never tried anything like it. The first dose gave me relief, and I was completely cured of my cough before I had finished one bottle. It is the best cough remedy I have ever tried, and I can recommend it to everyone."

Obstinate coughs and colds yield to the grateful, soothing action of Dr. Wood's Norway Pine Syrup.

It is a remedy without an equal for coughs, colds, bronchitis, and all affections of the throat or lungs.

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents.

Manufactured only by The T. M. M. Co., Limited, Toronto, Ont.

OPERATIONS AVOIDED

By Lydia E. Pinkham's
Vegetable Compound

Bellefleur, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. I had a very bad and irregular period and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital and the best doctors said I must submit to an operation. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—Mrs. EMMA CHATEL, Valleyfield, Bellefleur, Quebec.

Another Operation Avoided.
Poughkeepsie, N.Y.—I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for womb trouble but Lydia E. Pinkham's Vegetable Compound did more for me than the doctors did. I have gained five pounds. I hope that every one who is suffering from female trouble, nervousness and headache will take the Compound. I owe my thanks to Mrs. Pinkham. She is the working girl's friend for health, and all women who suffer should write to her and take her advice.—Miss TILLIE FLEMING, 33 Jay St., Poughkeepsie, N.Y. Thirty years of unparalleled success confirm the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

Tonight the N. B. A. and Warwick
teams will play in the commercial league, and the Wanderers and Nationals
in the city league.

**BICYCLERS
AHEAD OF
THE RECORD**

New York, Dec. 12.—One of the teams in the six day bicycle race at Madison Square Garden gave up the grueling this morning. It was the Ryan-Cavanagh combination, both members of which were declared by the physicians incapable of finishing the race. The teams left in the race were more than two miles ahead of the record at 8 o'clock this morning, at the end of the 32nd hour. At that time, twelve teams had covered 800 miles, 5 laps, while the Thomas-Stein and the Galvin-Wiley combination remained one lap behind. The early morning sprints failed to change the relative positions of the contestants, although they forced a speed that broke the record. In fact the riders were ahead of the record at 6 a. m. when the leaders had covered 631 miles, 6 laps. The score at the end of the 32nd hour, 7 o'clock tonight, was as follows:
Twelve teams had covered 800 miles flat.
Thomas-Stein and Galvin-Wiley were a lap behind.
The previous record is 876 miles and 9 laps, made by Halstead Lawrence in 1895.

**ABE ATTELL
HOGAN BOUT
POSTPONED**

New York, N. Y., Dec. 12.—The bout between Abe Attell and One Hogan scheduled to take place here next Monday night, has been postponed until Dec. 29. The postponement came at the request of Attell, who is said to have hurt his hand in a practice bout.

JOHNSON WEIGHS NEARLY 300; HE WILL NEVER FIGHT AGAIN

Chicago, Ill., Dec. 12.—Jack Johnson, champion heavyweight pugilist of the world, weighs nearly 300 pounds and will never again enter the ring in a contest to retain his title, according to information received at his home here.

Johnson is on the ocean on his way back to Chicago with his wife, who is seriously ill. He sailed with his wife from Liverpool yesterday and has informed his friends in Chicago that he has finished with his rope work.

Johnson's friends in the colored belt in Chicago had discussed rumors of the champion's retirement for several days past, but when the confirmation of these came, they were at a loss to understand his action.

Johnson has given out that he will engage in business when he reaches his home.

CHAMPION BILLY ALLEN TO TACKLE MICKEY M'INTYRE

Billy Allen, the clever Canadian lightweight, who recently won the Flanagan belt, emblematic of the championship of Canada, may be seen here on New Year's Day against Mickey McIntyre.

Negotiations between the two men are now in progress looking for a bout on the holidays, and if arrangements can be completed they will come together.

Allen is recognized as one of the cleverest lightweights in the world today. He holds a decision over Abe Attell and has twice won from Knock-out Brown, besides many other good boys. A fight between McIntyre and Allen would be a most interesting battle.

Mickey McIntyre and Beth McLeod

twelve round bout at King's theatre on Monday night, December 18th.

McLeod, who is also a Cape Breton boy, is well known here, and many of the fight fans are well acquainted with his work in the ring. He is the only man who ever put Dan in a corner down for the count, and when he did that Littlejohn was among the best boxers in the country.

McLeod is known as a hard hitter. He has fought all the best men in the country and in Montreal only a little over a year ago he made some good ones out of Dan.

McKay has already started training for the bout, and will get into the best of condition for the fight. He is not at all sure that he is not going to take any chances with him. McLeod will arrive in Sydney tomorrow night and will do his training at the Smith's quarters at Ashby—Glouce Bay Gazette.

**SAM M'VEY
IS TO MEET
LANGFORD**

The Socials have six players so far who will defend their colors in the interprovincial professional league this winter. Yesterday they landed McPherson, the speedy wing artist, who played brilliant hockey for the Wanderers last season. "Mac" was one of the fastest skaters in the Nova Scotia amateur league last winter.

McPherson was surprised to learn that Manager Gordon Innes scooped him up. MacPherson will be used as a utility player.

Besides McPherson, the Socials have Hilton, Laing, Twaddle, Dumphy and Wilkie. They will probably import two or three upper Canadian players. Last year the Halifax team was made up of maritime talent, and Innes is planning on starting the season with a team of players from Nova Scotia. The Socials will probably carry three players.

Up to date Manager Murphy has only secured two men for the Crescents, Frank Condon and "Chummy" Murray. Mr. Murphy is negotiating with some upper Canadian players, and will probably bring five or six of these men to Halifax. The Crescents will likely carry three or four utility players.

It is understood that New Glasgow will have Stone-Weaver, a defenseman, who played another maritime team on the team. It is doubtful, however, if the eastern town will use any other players from the provinces than Morrison. They are endeavoring to land some men from Ontario and Quebec and will probably secure the services of at least seven upper Canadians.

Moncton will probably play Worham goal; Gregory, center; Crockett left wing; with Norman to fall back on if they are hard up for a forward. The other members of the Victoria aggregation will be imported.

Doran, who played cover point for the "Vics" last winter, is endeavoring to get a place with the Wanderers of Montreal. He is likely to fall back on the Victoria team if he fails to do this.

The majority of the men who will compete in the maritime pro league will be imported.

**CONSTABLE USED GUN
AS HIS PERSUADER**

Now He is on Trial in Woodstock Charged with Shooting with Intent to Maim or Disable.

Woodstock, N. B., Dec. 12.—The Case Cartwright presiding, opened this morning. Arthur Gard was foreman of the grand jury, but as there was no presentation before the jury it was discharged. The two criminal cases were taken up under the speedy trials act. An English lad, Hartland by name, got two years in the penitentiary for stealing a small sum of money from Duncan Dickinson.

G. Whitfield Green is now on trial charged with shooting at a man named Heeseen intending to maim or disable him. The prisoner pleaded not guilty. Green went to Bristol to arrest his namesake, having a warrant based on a Scott's Act conviction, to which of course the complainant had pleaded guilty. The complainant saw the constable and attempted to get away and he claims that Green chased him and fired a revolver at him, one of the bullets striking the ground near him as he fled. The case will be concluded tomorrow morning when the civil cases will be taken up.

R. K. Y. C. Bridge Whist.
The bridge whist tournament in the R.K.Y.C. rooms, German street, will resume last night and the leaders in the play were as follows: E. P. Howard, 82; Dr. Mahoney, 84; I. B. Murray, 87; W. C. Rothwell, 88; George B. Hegan, 84. This is the second night's play in the tournament and the score made last night added to first night's play, makes the grand total score of the leaders as follows: W. C. Rothwell, 1,840; H. B. Robinson, 1,720; Horace A. Fox, 1,630; Dr. Mahoney, 1,602; A. E. Everett, 1,578. The next games will be played on the second Tuesday in January.

OXFORD BEATS CAMBRIDGE.
London, Dec. 12.—Oxford University defeated Cambridge University in the annual Rugby football match played at Queens Club today by a score of 19 to 0.

FACULTY OPPOSED TO LEAGUE

Fredricton, Dec. 11.—That the future of the Intercollegiate Hockey League is in jeopardy is the startling news contained in a letter received at U. N. B. from the captain of the Acadia College Hockey team.

The letter further states that the Intercollegiate Hockey League was the subject of discussion at a conference of representatives of the faculties of Acadia, U.N.B. and Mount A. at Truro some time ago and adds that it has been decided that there will be no league.

The decision of the faculty does not meet with the approval of the student body at U.N.B. and it is believed that the students of the other universities of the "big three" hold similar views. At U.N.B. hockey has been increasing in popularity during the past few years until last year there was a professional hockey coach, and the other colleges also engaged professional hockey coaches and the result was that the colleges played a better variety of hockey than ever.

Charges of Professionalism.
Chancellor Jones of U.N.B. when asked by The Cleaner last evening about the matter, said that the question of abolishing the hockey league had been under consideration at the Truro conference, but declared that he had as yet received no official communication to the effect that there would be no league. In fact, Chancellor Jones at least gave the reporter the impression that he had not been in favor of abolishing the league, but said that the opinion had been expressed at the conference that the league last year had had a flavor of semi-professionalism and that that phase of the question was talked over very seriously.

**SMELT FISHERMEN
MAKING BIG MONEY**

Moncton, Dec. 9.—Making over one hundred dollars a day, the fishermen experience of some of those fishing smelts on the Big and Little Butte and other rivers in this part of the province being as follows:

Previous to that some are caught with hook and line, and hundreds of men, women and children are engaged in this work. Great preparations are made for the netting season and if the ice has formed sufficiently strong, the work is much easier. As there is seldom good ice as early as December 1st, the fishing is done from scows anchored at the different stations as the section of the river occupied by each fisherman is called. If the fishermen cannot agree as to their location, the district is settled by the local fishery officer.

The smelt is the smallest and most delicious fish caught in these waters. The average weight is one to two ounces. Though found in a comparatively limited district in rivers entering the Gulf of St. Lawrence and Strait of Northumberland, the principal haul of which are the Miramichi, Bouctouche and Richibucto, in which the smelt of the 7,228,700 lbs (last year's product) was caught, it is peculiarly a Nova Scotia fish, and one of the most important, the value of last year's catch of the principal species in this province being as follows:

Herring, \$820,132
Lobster, 750,787
Salmon, 726,261
Cod, 551,204
Clams, 337,592
Crabs, 228,168
Shrimp, 200,412
The catch of smelt in this part of Canada is comparatively small, the total value for Nova Scotia being but \$3,526, in P. E. Island \$51,452 and in Quebec, \$20,502.

Last year 200 smelt nets were reported in New Brunswick, 115 in the County of Northumberland, principally at Chatham and Bay du Vin, 661 in Kent county principally at Richibucto, and 100 in the Miramichi at different points in Gloucester, Restigouche and Westmorland counties. As two men or a man and boy are required for each net the importance of the industry is considerable.

The buyers have been paying as high as 5¢, cents a pound or about \$10 a ton for the fish this year and as some of the nets yielded over four tons in the first three days of the season the fishermen are making money fast. As the fish scatter, however, the catches become smaller until before the midwinter they are sometimes very small. The smelt has never been cured in any way and the buyers prefer them frozen but the fish are kept in the ice houses or freezers until they can be gradually forwarded to markets. Owing to the delicate nature of the fish the buyers make frequent losses from soft weather during transportation, the principal markets being Boston and the large cities.

The habits of the smelt are peculiar. Early in the spring, as soon as the ice is out, myriads of them may be seen making their way up every little creek in the shores which they frequent. They are going up to spawn and they choose the smelt streams which the larger fish do not frequent. Generally the beds of these small streams are black with the fish. Late in June they return to the ocean and are seen no more until the cold weather in the fall when they float in and out with every tide, remaining all winter in the rivers and streams where the water is deep enough. Forty or fifty years ago the smelt had no commercial value in this part of the world, for no means had been devised of getting it to market. Then tons of them were scooped up by men living near the smelt streams and put on the land as a fertilizer. It is the one river and near shore fish that does not appear to be in danger of extinction. In fact it seems to be increasing in numbers as formerly great quantities were caught as they were going up the shallow streams to spawn while now such fishing is prohibited.

**IN CONSTANT USE
101 Years**

What other liniment has ever undergone such a test? For over a century

**JOHNSON'S

**NICKEL IS CHRISTMAS
HEADQUARTERS.**

It will be merry times at the Nickel from now until Christmas, especially among the children. The new programme of pictures for today includes the following: "Vitaphone's splendid motion picture drama, 'In Arctic Night,' with a powerful cast of players; the Essanay story 'The Forest Ranger's Plea,' a lumbering yarn and two delicious comedies by the Edison Co. 'How the Phone Came to Town' and 'Fannie's Banquet.' Mr. Bessette has a new song and little Princess Elizabeth will continue to delight everybody with her marvellous dancing and cute singing. This child is town-talk and enjoying a great drawing card. Tomorrow afternoon the fun commences in real earnest. This is when the Santa Claus playlet has its inaugural. This year there will be new characters and new dialogue, and although the lines were written for children's ears only, they are amusing also to grown-ups. The sketch runs over twenty minutes and is going to be filled with surprises. Musical novelties are to be introduced, electrical Christmas tree wonders, magical dreamland effects and extremely funny mix-ups between Happy Holligan, Santa Claus, Gloomy Gus, Jimmy Pinkey, the big tough boy and Jimmy's little sister (Princess Elizabeth). The hours are very amusing for the kiddies. The hours are 2:15 and 4:15.

**BIBLE CLASS DECIDES
TO FORM HOCKEY TEAM.**

The Eureka Bible class of Queen Square church met last evening and organized for a catarrh hockey season. A Claire Gilmour was elected captain of the hockey team; C. Den-ton, vice-captain, and LeRoy King, business manager.

The members of the class were in favor of entering their team in a league of teams from similar classes if such could be formed.

It is to be hoped that those classes which are forming hockey teams will get together and form such a league.

Cures Old Folks' Coughs
Doesn't Disturb the Stomach, Eases at Once and Cures Thoroughly.

**"CATARRHOZONE" A BOON
TO MANY THOUSANDS.**

Because you are old is no reason for suffering with everlasting coughing those terrible chest troubles and difficult breathing can be thoroughly cured with Catarrhzone. You simply breathe the healing vapor of Catarrhzone, and instantly its rich balsamic fumes are carried by your breath into the tiniest recesses of the nose, throat, chest, bronchial tubes and lungs.

Just think of it—a direct breathable medicine, full of soothing antiseptic pine essences that reaches every sore congested membrane in two seconds. No drugs to take nothing to harm or sicken the stomach, because Catarrhzone is the purest, safest cough, catarrh and cold remedy ever devised.

"For many years," writes Richard McCallum, Stirling, Ont. "I have suffered from Catarrh, and continually hawked and coughed, so that my throat was always in an inflamed, irritable condition.

"Doctors medicine did not help me in the least, and all other remedies I used were quite useless. In one case it was time wasted in snuffing powder up the nose; in another using a greasy ointment, and so on. Not one of them was the least bit of good."

"I heard Catarrhzone favorably spoken of, and tried it. Really it benefited me more in a few hours than years of doctors' and other so-called remedies.

"Receiving such immense benefit, I continued using Catarrhzone, and in a few weeks I was completely cured of Catarrh and throat trouble."

Get Catarrhzone to-day. Large size costs \$1.00, and 50c. All dealers for The Catarrhzone Company, Buffalo, N. Y., and Kingston, Ont.
