

SIMONDS MAY UNITE WITH ST. JOHN CITY

Petition now in circulation among residents in vicinity of East St. John.

It was announced during the meeting of the city commissioners yesterday that a portion of the Parish of Simonds would likely come into the city under certain conditions. The matter came up when the council was in committee discussing the matter of assisting the company promoted by Arthur H. Likely for the purpose of building workmen's homes in the vicinity of East St. John. Mr. Likely told the commissioners that he had a petition in circulation and many signatures had been affixed to it favoring the scheme of coming into the city. As soon as completed, the petition would be submitted to the commission. Mr. Likely then asked what the council proposed to do in regard to his scheme for providing working men's houses.

His Worship thought that the city should not back the operations of the company unless the operations were carried on in the city. He believed that if the section of the county in which it was proposed to erect the dwellings would come into the city that the council would then be justified in doing something.

The whole matter was then referred to the Town Planning Committee, which is to report to the council after investigating the scheme.

PERSONAL.

Mr. and Mrs. Cortlandt Robinson returned on Saturday from their honeymoon.

Montreal Herald: Miss Faith Hayward, Bishop street, who went down to St. John to be one of the bridesmaids at the marriage of Miss Lillian Anderson, has returned to town. Dr. and Mrs. James Frankum, formerly of Vegreville, Alta., spent a few weeks in Montreal with relatives on their way from Europe, where they passed the last year. Mr. Frankum has decided to go west and will reside in Edmonton.

Charlottetown Patriot: Mrs. Austin J. Walsh, of St. John, together with her two children, Arthur and Urban who has been spending the summer visiting friends and relatives at Toronto, Lot 33, Stanley Bridge, and other places, returned to St. John last Thursday. Miss Marion Russ left Friday morning on a visit to friends in Sackville and St. John, N. B.

Moncton Transcript: Mrs. G. Wheaton, of St. John, and Mrs. Laurie and daughter, of Nova Scotia, are visiting at the home of J. H. Steeves, St. George street.

Chatham Commercial: Mrs. T. N. Vincent, of St. John, is the guest of her sister, Mrs. F. E. Jordan.

Mr. and Mrs. Geo. H. Ward (nee Kerr) have returned from a pleasant trip of two weeks to Boston and other American cities.

Rev. Dr. W. E. McIntyre, Rev. W. Camp and Rev. Dr. Hutchinson left last evening by the C. P. R. for Toronto to attend the meeting of the Canadian Baptist Foreign Mission Board.

**A Stove You Can
Always Depend On**

The Gurney-Oxford has a nation-wide reputation for reliability.

It's a thoroughly well made stove. During its long life it never fails to do its work.

It can be depended to cook each meal with little trouble and no worry.

The Gurney-Oxford Economizer (with which every Gurney-Oxford is equipped), enables you to keep the fire in perfect control always.

The grates are designed for perfect combustion. The divided flues convey the heat from the fire to all sides and corners of the oven. The owner of a Gurney-Oxford does not know what it means to take a roast or a batch of biscuits from the oven with uncertainty.

We want to demonstrate the features of the Gurney-Oxford that have gained for it first honors in everything that makes a stove valuable.

VIEW OF OSTEND, THE MOST FASHIONABLE SEASIDE RESORT IN EUROPE.

THE SEA FRONT AT OSTEND

Ostend, one of the gayest and most fashionable seaside resorts in Europe, is a town of Belgium, on the coast of the North Sea, and had 42,400 inhabitants, a number greatly increased during the summer season. It is mentioned as early as the eleventh century. Early in the seventeenth century it sustained a siege of three years. Its fortifications were razed in 1865. The chief promenade is the Digue, a stone dyke or embankment, fifty to a hundred feet wide, which extends for three miles along the sand dunes on the coast toward Middelburg. Ostend has an admirable racecourse, a golf links, a pigeon shooting grounds and a Casino, almost as famous as that of Monte Carlo. The beach is most attractive and affords a fine view, no vehicular traffic of any kind being allowed on the sea front.

CITY COMMISSIONERS AGAIN TALK PERMANENT SIDEWALKS

Asphalt easily repaired after being torn up — More water extensions this winter — Commissioner Potts will also make additional repairs to the streets.

K—City Commission Again discussed the city commissioners had a short session yesterday afternoon when several proposed extensions to the water service of the city were approved and the matter of a permanent sidewalk for Main street discussed. Matters of a routine nature were also taken up.

Those present were Mayor Frink, Commissioners Wigmore, McLellan, Potts and Russell with the Common Clerk.

The minutes of the last meeting were read and approved.

Commissioner Wigmore introduced a resolution for water extension in different parts of the city.

Mayor Frink drew attention to the fact that extensions were also being made in the country, but parts of the city were left without water supply. He thought it should be the policy of give water to the city first.

Commissioner Wigmore said he had been carrying on the work of water extension in the city as fast as it could be done.

Water Extensions

The extensions were approved as follows:

In Charles street, from Garden to Dorchester street, a distance 330 feet, at an estimated cost of \$660, to be paid out of Water Maintenance Fund.

Street, about 100 feet, at estimated cost of \$600, payable from Water Reserve Fund.

In Carleton street, from Wellington Row to Peel street, about 100 feet, at estimated cost of \$400, payable from Water Reserve Fund.

In Clifton street (West) from Lancaster street to the City Line, about 700 feet, at an estimated cost of \$1,400, provided the property owners enter into an agreement to pay ten per cent. on the total cost until such a time as the revenues therefrom amount to such a sum.

For the present this will be paid for from the Water Maintenance Fund.

Lease to King

The Commissioner of Water and Sewerage recommended that a lease be issued to His Majesty the King of land at Little River for the construction of a pond for the accommodation of young fry in connection with the Fish Hatchery, for a term of five years from the 1st day of November next on the same terms as the present lease at an annual rental of \$50. The lessee to be allowed to lay a pipe to the spring and to covenant to keep the road leading from the city's property to its hatchery in good state of repair during the said term at its own cost.

The resolution was adopted.

More Pipe

The tender of John Birch for iron pipe for water extension was approved as with additional freight on account of the war it was still the lowest.

The Commissioner pointed out that local concerns had had an opportunity to tender.

The Public Works Department was given permission to buy 100 tons of asphalt for use on the streets and sidewalks.

Commissioner Potts introduced a resolution whereby it was proposed to take the unexpended part of the bond issue for Main street, amounting to about \$2,500, and build a permanent sidewalk there, provided the Recorder decided that the money could be used for that purpose. The resolution was approved, although it was the opinion of some of the commissioners that the money could not be used for sidewalks.

PLAN TO GIVE WASTE APPLES TO THE POOR

Rev. W. H. Barraclough forwarding scheme to provide needy with fruit for which there is no market.

The gathering of the surplus crop of New Brunswick apples and placing them among the poorer families of the city was a scheme that has been suggested by several citizens to Rev. W. H. Barraclough and he has already taken steps to ascertain just what might be done in this direction. The proposal was that citizens should provide means of bringing apples to the city and distributing them among the poor.

At the present time it was said thousands of barrels of apples were going to waste in the orchards of New Brunswick on account of the lack of adequate markets and the abundant apple crop. It has been almost impossible for the farmers to gather the apples and citizens propose to do this work provided the farmers will donate the apples.

The scheme in which Mr. Barraclough has moved was that citizens should raise sufficient money to collect the apples and bring them to the city.

and may by directing attention to apples as an article of diet prove of some advantage to farmers in the years to come.

The Department of Trade and Commerce has been carrying on an advertising campaign in Canadian papers directing attention to value of apples as an article of diet, and it is reported that this campaign has produced good results, and is enlarging the

home market for apples. The department has been advertising a booklet telling how apples may be prepared for the table, and it is reported that already 20,000 applications for this booklet have been received.

A Woman's Way

Who says a woman's part is only
"watch and wait"?

True, a woman cannot shoulder a rifle and go to the front, but there is a way in which she can help and which is just as important. That way is in supporting the prosperity of Canada.

Women do the buying. A million of them in Canada are buying, every day, most of the necessities and luxuries for eight million people, expending and influencing the expenditure of perhaps a billion dollars every year.

At present much of that expenditure goes for imported products.

Suppose it were all switched to Canadian-made goods. Think how many Canadian workmen would be kept busy supplying this enormous demand! Think what it would mean to Canadian industries! Think what an era of prosperity it would create!

This is a woman's way to help. To create prosperity for Canada, to lay forever the spectre of unemployment, to create resources to carry on the war.

It's very easy too, just
