SEPTEMBER 14

1911.

A SPLENDID DEMONSTRATION OF THE FRUIT GROWING POSSIBILITIES IN OLD ONTARIO.

The fruit exhibit at the Canadian National Exhibition last week, part of which may be seen in the illustration, was indicative of the great fruit growing possibilities of Ontario. Ontario fruit growers now produce over 70 per cent. of the fruit grown in Canada. In Ontario is over 70 per cent. of the land in Canada specially adapted to fruit growing. The quality of Ontario fruit cannot be excelled. With wider markets fruit growing would soon become one of Ontario's most important industries.
