arrived, but prices are not fixed; well-known firms are, however, accepting lower rates. Balsam tolu dearer, copaiba easier. Oil of aniseed is marked up, though cassia is down. As usual, at the close of the season, tartaric and citric acids are lower.

#### Be a Merchant.

These are "merchant times" in the drug business, and he who trims his sails to the coming breeze will surely get the advantage of being among the first to move in the right direction. The trend of the times is toward consolidation, and "only a chemist" will bring a man in but very few dollars. Better to adapt yourself to the conditions existing and try to be near the head of the procession as it passes on. Keep in your store what is asked for, or liable to be, even if it is postage stamps or fishing tackle, cutlery or stationery. There is profit in these goods, and that is what you are in business for, or should be. An honorable profession is very nice, but in the drug business it cuts a very small figure in producing bread for your family. There is not enough "profession" to go round, but there is enough "honorable business," if you make an effort to keep it in the drug stores and not drive it away.—Boston Drug Market.

#### Canada.

The holiday season is not usually a busy one. Last month has been quite up to the average.

Opium, every indication is higher prices. Look out for adulterated gum.

Quinine has declined in price. The reason, so far, is not known here, and the outlook is uncertain.

Balsam tolu is higher.

Glycerine. The indications are it will continue to bring high prices.

Camphor is stiffer in price.

Ipecac is higher.

Acetanilid is a trifle higher.

Menthol is easier.

Insect powder much advanced.

#### England.

London, Aug. 27, 1896.

The chemical and drug markets are always quiet at this time of the year, and business is very dull.

Camphor has given way still further. Quinine is also steadily on the down grade; competition between English and German manufacturers forcing down the price. Cod-liver oil is lower, and with only a small demand. New otto has just
