

The Luxury of a Davenport Sofa Bed

Have You the Privilege of Knowing?

It is the most all-round convenient piece of furniture that is offered for the home — this is the testimony of the many who have bought one from us.

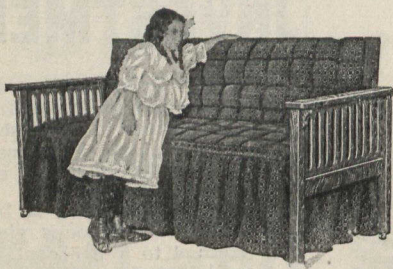

It satisfies the needs of the tidy wife who has limited room. It offers accommodation and ornament for the room by day—and can speedily be converted into a bed by night. The back simply rolls forward—so easy a child can operate it. You actually sleep on a good spring and mattress. The bedding is always in place concealed from view during the day and ready for use when needed.

It can be readily taken apart for ship-

ment, narrow doorways, or storage, and is easily set up again.

It costs no more than the old style davenport, nor as much as an ordinary bed of equal grade, notwithstanding its unquestioned superiority.

The frame of this davenport bed sofa is steel, simple and substantial with quarter-cut oak ends. Cannot get out of order. Always ready.

The Construction is high grade throughout, and made to give durable, satisfying service. The springs have ninety of the best double cone, oil tempered, steel spiral springs, all securely fastened so that it is

impossible for them to get loose and weaken the construction. The mattress or pad is filled with sanitary felt, very comfortable and, when the bed is opened ready for use, it is large enough to accommodate two persons. The seats and back are suitably tufted. Finished with valance on ends and front.

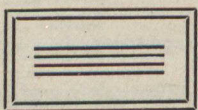

The finish is a rich golden color, polished. Nothing is omitted in style or finish that can be accomplished by first-class workmanship. Special care is taken to bring out the beautiful grain of the wood.

The coverings are the very latest block patterns in a good quality velour of any standard color. The cushions are removable, held in place by our patent invisible spring clasp. The upholstery is protected by the cushion automatically turning inside out.

The measurement is 72 ins. long and 23 ins. wide between arms; 72 ins. by 50 ins. when opened.

Operation. Each Davenport is fitted with an automatic device by which it is easily converted into a large size bed, as shown in illustration, and back again to a davenport sofa. To change into a bed, place the hand on top of the back and pull forward. The back turns a somersault quietly and easily, and brings the mattress and bed-clothing into position as a bed ready for occupation. To change back to the davenport sofa, place the hand beneath the front section and pull upwards, immediately the back rolls into position altogether concealing the clothing from view. Nothing to get out of order and can be operated by a child.

PRICE \$25.90
