kiss-ed you, and call-ed you sweet names. Your moth-er has sent you to this nice school, and makes sup-per for you when you go home, and she will be kind to you all her days.

Do you ever thank your moth-er for her kirdness? Yes, you of-ten say, "'Thank you;" "I love you so much, dear moth-er." All good boys love their moth-er.

Can'-not cloth crag

em-ploy'-ed en-dure ex-cept' fall'-ing spring mount'-ains tim'-id sense with-out'

A goat is very much like a sheep, ex-cept that he has not wool, but hair on his back. A kind of cloth is made from goats' hair. Goats' hair is also em-ploy-ed to make fine wigs.

A goat has more sense than a sheep, and is not so tim-id. He can endure heat much bet-ter than a sheep; but he can-not endure cold so well as a sheep.

Goats can go up steep rocks or mount-ains, and leap ver-y far. They spring from crag to crag with-out a-ny fear of fall-ing. They like to feed on the top of high mount-ains.
