

ULCERATED LUNGS.

The Great Phlegmagogue.

A Cure for Diseased Lungs.

Few persons but are troubled, more or less, with difficulty of raising Phlegm, a thick humor or matter, deposited from the blood, that obstructs the air passages and glands of the Bronchi, etc. The accumulation of this matter leads to Ulceration, Tubercles, and Consumption, and the patient suffers great distress until it is removed. One teaspoonful of the Resolvent will loosen the Phlegm and enable the patient to expectorate with ease. Every person troubled with Cough, Bronchitis, Catarrh, Tightness of the Chest, Phlegm, Inflammation of the Lungs, Congestion, etc., should take a teaspoonful of the Sarsaparillian at once, and bathe the chest with Radway's Ready Relief. If the Cough is constant, take the Resolvent regular—three or four times a day—or whenever a fit of spasmodic cough seizes you.

It secures a good appetite, makes sound and healthy flesh and fibre, gives strength to the weak, and repairs the waste with healthy material. Let not the Consumptive neglect this warning, nor reject the hope held out. Exclusive direct remedies, that act only on the lungs, will never cure; they may smooth and soften the path to the grave, but never will they restore the patient to health. It is foolish for people to reject a remedy that cures so many diseases. It is not the remedy that makes the cure—it is the BLOOD, and pure blood will cure the Consumption just as certain as it will remove Pimples, Blotches, and Pustules from the Skin—and those who wish to have their system invigorated with Rich, Pure, Strong Blood, must use **Dr Radway's Sarsaparillian Resolvent.**
