The SARNIA FENCE CO.

SARNIA - ONT. LIMITED

Buy Sarnia Fence NOW before the Prices advance. Owing to the raise in the price of wire all styles weighing 11 lbs. or over advance 2c per rod, and all lighter fences 1c per rod. MAIL US YOUR ORDER TO-DAY.

Sarnia fence is sold direct from factory to farmer, cutting out all agents' commissions, dealers' profits and giving you your fence at first cost.

Sarnia fence is made in what is conceded by the best industrial experts, to be the best equipped and the most economical fence factory in America.

The enormous amount of material that passes daily through our factory has resulted in a most economical system of handling. We can handle our present large tonnage to a better advantage to-day, than we could our small tonnage three years ago.

Combining these features. Our Direct Selling Policy—Our low cost of Manufacturing—Our abso-

lute guarantee—and the fact that we are not connected in any way with a combine for the elimination of competition, we believe you will give us credit for being in a position to sell you the best fence it is possible to make at the lowest cost.

Sarnia fence is the best known fence in the Dominion of Canada to-day, which is due largely to the fact that our fence has lived up to every claim we have made for it. From the first we have used a most rigid system of inspection, that insures our customers of getting the most perfect fence possible.

We buy our wire on the open market of the world, and our business is of such a tremendous volume that we are in a position to demand the best. Our wire is

galvanized to the highest possible standard, and is all full government gauge No. 9 wire.

Our policy is to sell the farmers of Canada, the best fence it is possible to make at the lowest possible cost, and our fence for the season of 1914 (our customers will vouch for us) is the best Dollar for Dollar value that has ever been offered in the history of the fence business, in the Dominion of Canada.

For the coming season we are making a feature of service, and have added to our equipment so that now we have a daily capacity of 150 miles of finished fence every ten hours. We are going to carry an extra large stock throughout the entire season and this with our increased capacity will enable us to ship all orders the day they are received.

Stop for one minute and think what price you were compelled to pay for fence before the Sarnia Fence Company came into the field and in recalling old prices, think where they would go if our competitors could get rid of us. For the past four years, we, with the support of the farmers, have managed to keep the price of fence down, and with your further assistance we will continue to do so. We want your order whether for one bale or a carload.

Without the enthusiastic support the farmers gave us three years ago the Government, in all probability would have put the fence sizes of wire on the dutiable list, and placed a bounty on all steel produced in Canada. Either one of these would mean the return of the old prices of five years ago.

WE SET THE PRICE. OTHERS DEVOTE THEIR ENERGY TO TRY TO MEET OUR PRICES.
