

ENORMOUS FORTUNES AWAITING CLAIMANTS

Lie buried in the courts of Chancery, Bank of England, England, France, Germany and other countries, amounting to over \$480,000,000, a great part of which belong to the people of America, including all classes of the community. The Chancery Paymaster will gladly pay the money to the rightful owners if they will only put in their claims. Thousands of people in the United States are unconscious of the fact that a fortune has descended to them from remote ancestors, and because they have no knowledge of these ancestors they take no interest in what is of vital importance to them. We earnestly urge every one to send to the British-American Claim Agency, Stewart Building, New York City, and obtain their authenticated Book Register (price 50 cents, stamps or postal note), containing a list of 50,000 people to whom this vast wealth belongs, and if they find their names or those of their ancestors, they should follow the instructions it contains. A fortune may await them. The following are a few of the surnames (among the 50,000) of persons entitled to money and property:

Abbot	Blair	Cowan	Ernst	Harris	Kavanagh	Middleton	Prince	Tempest
Abbott	Blake	Cowell	Erratt	Harrison	Kay	Miller	Prior	Terry
Abrahams	Bond	Cowley	Erskine	Hartwell	Kaye	Mills	Pritchard	Thomas

EXTRACT FROM THE LONDON TIMES.

"Very few people have any conception of the enormous sums of money which pass through the hands of the PAYMASTER, received in CHANCERY and remain under his control through the decease of the parties immediately interested and the ABSENCE of their NEXT OF KIN. The publication of these LISTS is the first step yet taken towards facilitating the DISCOVERY and RECOVERY of these FUNDS. The latest official returns show that there was \$25,500,747 in February, 1883. This sum has risen at the end of February, 1884, to \$27,005,769."—The London Times, July 4, 1884. As it is impossible to publish all of the names of persons entitled to money and property in this paper, we earnestly urge ALL, whether THEIR NAMES APPEAR here or not, to send for Book-Register (price 50 cents), containing 50,000 names and instructions how to proceed.

BRITISH-AMERICAN CLAIM AGENCY

(Incorporated under the laws of the State of New York.)

STEWART BUILDING.
250-a NEW YORK CITY.

Our readers desiring to procure choice Clydesdale stallions or high-bred Shorthorns, should attend Mr. Gillson's sale. See advt. in this issue.

We have received from Mr. E. J. Maxwell, Montreal, Secretary and Treasurer of the Montreal Horticultural Society, a copy of their eleventh annual report, including the report of the Fruit Growers' Association of the Province of Quebec.

Prof. Arnold, in a private letter to us, makes the following reference to the English farmers: "I had a first rate time in England. I found the English farmers a capital set of men, industrious, intelligent, skillful, friendly and extremely hospitable. I enjoyed my intercourse with them ever so much."

An English dairyman gives the following remedy for warts on the hands of milkers: Night and morning apply a saturated solution of salt in the best brown pickling vinegar. Let the owner of the hand take a pint bottle nearly filled with best brown pickling vinegar; drop in a little table salt, shake, and add more; continue this till the vinegar will not take up more. The application may be at any convenient time—twice or thrice daily.

If there were no scattering grain, and if the fields in wheat were not plowed and sown with wheat again, says a correspondent of the Philadelphia Press, it would be an easy matter to exterminate the Hessian fly. All that would be necessary would be to delay sowing until frost, when the fly ceases to lay her eggs. But in the meantime scattering grain from the harvest has come up, and on this the fly finds a home for her progeny until another crop is hatched out in the spring. If wheat succeeds wheat the scattering grain must be plowed or cultivated under as soon as it appears. Wheat stubble should always be rotted, not for the value of the rottage, but that it may not sprout and make a home for the Hessian fly.

Quite a number of amusing scenes are usually witnessed at the fairs, of which the following is a case in point:—Two young men enter the honey hall. One of them is heard to say, "Oh, here is the honey and bees; my father used to keep bees; I know all about bees. Oh, isn't that fine honey? Hello! what have they got this churn in among the honey goods for?" That's not a churn." And the young men turned to see who the speaker was, and were greeted by the smiling countenance of a beekeeper, who expended considerable time with them trying to explain the difference between a honey extractor and a churn, but they were no worse off than one of the judges at a show at Guelph, where one of the judges did not know the difference between a wax and a honey extractor.
