

CONSTIPATION CURED BY THE USE OF MILBURN'S LAXA-LIVER PILLS

Constipation is one of the most frequent, and at the same time, one of the most serious of the minor ailments to which mankind is subject, and should never be allowed to continue.

A free motion of the bowels daily should be the rule with every one who aspires to perfect health.

Mrs. Fred. Hall, 299 Hibernia Road, Montreal, Que., writes:—"Having been troubled for years with constipation and trying everything I knew of, a friend advised me to use Milburn's Laxa-Liver Pills. I used four and a half vials and I am completely cured. I can gladly recommend them to all who suffer from constipation."

Milburn's Laxa-Liver Pills are 25 cents per vial, or 5 vials for \$1.00, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Worth Looking Into

When it becomes necessary to buy feed, it will be well to keep in mind the word "CRESCENT."

"Crescent" is a mixed crop, with the Government analysis on every bag. One of the largest dairy herds in Ontario recently ordered a carload, and the order was placed after thoroughly testing its value as a dairy feed. Ask your dealer about it. If he does not know, write us. We can give you a close price on a carload. **THE CHISHOLM MILLING CO., LIMITED** "A," Jarvis Street Toronto, Ont.

LINCOLN LONG-WOOL SHEEP

And Shorthorn Cattle.

The Riby Grove Flock and Herd, owned by **MR. HENRY DUDDING,**

is the source to which practically all the leading export buyers have resorted from time to time to obtain stud sires and dams, and rams and ewes of unrivalled merit and quality. The record of its show-yard success is unequalled, and so are its sale averages. Selections of Sheep and Cattle always for sale.

Apply: **THE OWNER, RIBY GROVE, STALLINGBOROUGH, GRIMSBY ENGLAND.**

Shropshires The right quality to breed from. Choice animals of both sexes for sale. Also White Wyandotte cockerels. **W. D. Monkman, Bond Head, Ontario.**

LONG-TERM JOB.

A certain business man of Rochester is of the opinion that he has an exceedingly bright office-boy, and nothing pleases him better than to tell how he acquired the youngster's service.

A notice had been posted in the man's shop-window which read as follows:

"Boy wanted about 14 years."

A lad of that age, with little that was prepossessing in his appearance, came into the office and stated that he had read the notice.

"So you think you would like to have the position?" asked the merchant, patronizingly, as he gazed at the lad over the rim of his spectacles.

"Yes, sir," was the reply, "I want the job, but I don't know that I can promise to keep it for the full fourteen years."

QUESTIONS AND ANSWERS. Miscellaneous.

SCHOOL TAXES.

Is it legal to levy taxes on the rate-payers of a School Section three years before building? **SUBSCRIBER, Ontario.**

Ans.—We think so. **LIME-LAID STONES FOR USE IN CEMENT WORK—OLD LATHING.**

1. I have been thinking of building a cellar wall for a house. I have an old stone wall, which has been laid up with sand and lime mortar, which I want to use the stone of in a cement wall, and I have been told that the stone are no good on account of their having been laid in lime mortar—that cement will not take a bond on them.

2. Can you tell me whether old laths that have been removed from a wall can be used again, or whether plaster will stick onto them and stay satisfactorily? **W. M. B.**

Ans.—1. If the stone are cleaned off reasonably well and wet before using they will be all right, and may be used safely.

2. The old lathing may be used with confidence, although lathers do not like to put it on. A builder who has used old laths on a new house built for himself tells us he finds them quite satisfactory.

DRYING OFF COWS—EDIBLE MEAT IN CHICKEN—VARIETIES OF EARLY APPLS.

1. Should a cow be milked nearly up to calving time? What is the usual practice with record or exhibition cows?

2. What proportion of the weight of a hen (or turkey) do (1) the bones and (2) "insides" constitute on the average?

3. How is it that varieties of apples generally grown in Nova Scotia, etc., for export, as Duchess, Gravenstein, etc., are seldom grown in Ontario?

T. H. M.

Ans.—1. She should be dried off six or eight weeks before calving, except occasionally in the case of those extremely persistent milkers with which it is dangerous to attempt drying-off at all. Never try to dry a cow after she has commenced to "spring bag." Exhibitors of the dairy breeds of cattle usually milk pretty well up to the usual time of drying-off, though some of the Ayrshire exhibitors in Scotland give their cows a much longer rest, often to their hurt from a utility point of view.

2. The following table, quoted by Prof. Elford in an article published in "The Farmer's Advocate" last summer, showing the difference in the weights of representative chickens killed before being fattened, and similar stock killed after fattening, will probably supply the information desired.

WEIGHT OF THREE CHICKENS.

	Before fattening.	After fattening.
	lbs. oz.	lbs. oz.
Feathers off	8 8	16 4
Ready for cooking	5 2	11 6
Cooked and cool for two days	3 8	9 2
Bones	1 2	1 11
Eddie portion	2 6	7 6

3. Duchess apples are grown in Ontario to some extent, and are recommended for planting by men who will make a business of handling early fruits in the proper way. Woolverton, in his book, "The Canadian Apple Grower's Guide," speaks of the Gravenstein as "altogether too little cultivated in Ontario, considering its many excellent characteristics," adding that "It has no competitor of its own for either home use or market." With the inefficient system of marketing that has so largely prevailed in Ontario, the variety has not proven profitable except very occasionally in farmers' orchards, and the local demand for early fruit has been so often limited as to render it unwise to grow it. But with the more efficient system of packing, marketing and transportation, and with the more extensive marketing in the West, it is well worth the effort that will be required to grow it profitably.

SOL-O-KRE GERMICIDE SHEEP DIP

KILLS LICE, TICKS and FLEAS

"SOL-O-KRE"

will stamp out CONTAGIOUS ABORTION.
