

Make the Cows Work

The difference between cows with a separator, and cows without a separator, is just the difference between "keeping" cows and cows "keeping" YOU.

Get a De Laval Separator

and produce, in comfort, two pounds of butter from the same source which, with drudgery, yields one to-day. Don't have cows around simply as part of the farm picture: make them work for you.

Brief But to the Point

was the comment made by one of the Great-West Policyholders, in acknowledging the dividend under his Policy maturing this year. He wrote:

"The Great-West Life Assurance Company is a splendid paying investment. I am very gratified with the dividend."

He, in common with all the others whose Policies are maturing, have the very best of reasons for being gratified with their dividends. All the original estimates, made when the Policies were issued, have been realized or exceeded, and there is every cause to expect a long continuance of the splendid results that are being accomplished for the Policyholders.

Those interested in obtaining profitable Insurance should send for full descriptions of the Great-West Policies, gladly given on request. A leaflet showing ACTUAL RESULTS under the Policies now maturing will be mailed on demand.

Farmers Ship your Frozen Grain to The Grain Growers' Grain Company, Ltd.

We can place all the Western Feed Grain in the East. It is stated throughout the West that there is poor demand, but such is not the case. The demand is good in Ontario, but the prices are not all that could be desired.

Hold your grain until you can get cars—Two or three can load in same car. Ship to the Farmers' Company and get quotations of the day—take nothing less.

We place grain in Ontario, sold on the basis of Fort William prices.
