

CASE

9-18 Tractor

20x28 Thresher

Every Farmer Wants a Combination Like This

Above we picture a Case 9-18 all-'round farm tractor and the new Case 20x28-inch thresher. Here is a combination which can't be beat. It brings to every farmer a new independence and greater economy. We are the first in the field to satisfy the growing demand for such a *handy team* of machines as this.

Even if you are not in the market today, you should be thoroughly acquainted with these remarkable labor-savers. They are described and pictured, together with the complete Case line, in our new 75th anniversary catalog, just off the press, which will be sent to you free upon request.

CASE, the Standard Tractor

The Case 9-18 tractor is truly an all-'round mechanical farm horse because this tractor is so useful.

It will pull manure spreader, gang plow, harrow, grain drill, planter, digger, mowing machine, rake, hay loader, harvester, haul crops and other materials.

It will drive a small thresher, a silo filler, feed grinder, fodder cutter, corn sheller, wood saw or hay baler. It operates a milking machine, also dynamo for electric lighting, and many more jobs.

This Case 9-18 has a four-cylinder valve-in-head special tractor motor, and is built for continuous hard pull without overheating. All gears are enclosed and run in oil. Center of gravity low down; therefore no danger of upsetting. Short wheelbase makes for easy turning in close quarters. A boy can operate it.

Don't buy a tractor before you've learned all about the Case. It pays to investigate thoroughly. If you're from Missouri, we "can show you."

The Sign of Mechanical Excellence the World Over.

Do Your Own Threshing

Thousands of farmers have asked us to add a smaller thresher to our line, so that they might do their own threshing. They have come to us because Case has long been the leader in the threshing machine business. So we have designed and built the Case 20x28-inch. It is especially adapted for small tractors. While we recommend the Case 9-18 all-'round tractor with it, this 20x28-inch separator can easily be driven by other power of like capacity.

With the Case 20x28-inch thresher there is no need to await your turn and run a risk. You may thresh as much as you please, whenever you please. This means absolute independence. Also extra profits, if you have time to handle some of your neighbors' crops.

The Case 20x28-inch thresher maintains the same standard of excellence as the larger models, which is sufficient proof of its performance, economy, durability and results.

We want you to know all about this Case 20x28-inch thresher before you purchase a machine. Samples will be gladly shown at all of our 44 Branch Houses.

J. I. CASE THRESHING MACHINE COMPANY, Inc., 394 Erie St., RACINE, WIS.

FOUNDED 1842

Four other Case tractors besides the 9-18, as follows: 15, 20, 12-25, 20-40 and 30-60. A size for every need—a size for every farm.

Eight sizes of Case steam engines: 30, 40, 50, 60, 65, 75, 80, and 110 h. p. None as good as these have ever been manufactured. They have proved superior.

Seven Case steel threshing machines in the following sizes: 20x28, 20x36, 26x46, 28x50, 32x54, 36x58 and 40x62 inches. These meet every demand. Case threshers always set the pace.

Case baling presses, in two sizes, 14x18 and 17x22 inches; also a 17x22-inch automatic baler. They do the most work in the least time.

Case silo fillers have big capacity and require least power. Their performance is unequalled, like all other Case products.
