WHEN WRITING TO ADVERTISERS PLEASE MENTION THE GUIDE

Buy, Sell or Exchange Through The Guide

The Guide is read in over 34,000 of the best farm homes in Western Canada every week. Hundreds of our readers are using The Guide's "Farmers' Market Place" and find it the very best means of selling purchased livestock, poultry, seed grain, seed implements, etc. A still greater number of our readers find The "Farmers' Market Place" the best place to buy what they require and can secure from other farmers. Guide classified advertisers have set a high standard of integrity and fair dealing, which has contributed more than anything else to the growth of The Guide's classified advertising section. On the other hand advertisers find the customers they get through The Guide a very honorable class of people to deal with. The Guide is always ready to assist in adjusting differences between those who buy and those who sell through its advertising columns. Complaints from subscribers regarding treatment received from Guide classified advertisers are remarkably few and far between, which is a splendid tribute to the honesty and fairness of those who use The Guide.

The Guide's "Farmers' Market Place" is planned so as to co-operate with our readers in affording them an economical opening to wider markets. A glance at this page will show the many departments into which it is divided. This affords the prospective buyer a quick method of referring to the section in which he will find offerings in the line he intends to buy. Naturally he will look over all the advertisements in that particular section before making his choice.

This means that every advertisement will be read by every prospective buyer. This is the strong advantage of this classified section. Advertising rates are given at the top of this page. Send in your order now accompanied by the amount for the number of times you wish your ad to run, and let The Guide demonstrate to you, as it has to hundreds of other farmers, how it can sell.

The GRAIN GROWERS' GUIDE, WINNIPEG, Man.

MARKET GRADES OF HOGS

A treatise on hog raising from the viewpoint of the packer, has been compiled and is being sent out to the swine raisers of the country by Armour and Company. The booklet is the work of E. R. Gentry, general hog buyer for Armour and Company, assisted by Dr. R. J. H. DeLoach, director of Armour's Bureau of Agricultural Research and Education.

It describes the various classes and grades which are standard at the various big markets and explains the types which the packers are most anxious to get and for which they say they will pay the highest prices. The various cuts and the dressing percentages from the different grades are described and their bearing on the market values shown.

RECOMMEND SHEEP SALE

At a recent meeting of the Manitoba Livestock Associations at Brandon it was recommended a sale of livestock be held during the provincial summer exhibition in 1918. The principle of appointing a Livestock Commissioner by the government was recommended. A directory of breeders and breeds will be issued to members. The sheep breeders decided to hold a sale on October 24 or 31 for pure breeds and grades. All were urged to market their wool co-operatively through the Provincial Department of Agriculture.

ALBERTA WEED BULLETIN

A splendid bulletin on weeds has recently been issued by the department of agriculture for Alberta. It is entitled "Weeds of Alberta" and is by J. D. Smith, superintendent of the noxious weeds branch of the department. Its outstanding feature is a series of colored plates showing the plants in their natural colors. With these plates for reference the identification of the worst weed pests of the west is a simple matter. There are also full notes on the general principles of weed control; life histories of the various weed plants; methods of eradication, together with plates in color of the different weed seeds. This bulletin should be in the hands of every prairie farmer. It can be obtained free by writing to the department at Edmonton.

The plant uses its leaves for building more plant. Without leaving the plant cannot make normal growth. This is true of pasture crops as well as for other plants. When pastured too close the pasture crops cannot make much growth and hence do not produce much food. It weakens the plant too so that it may not make a normal growth the next year. Give the pasture a chance to produce by not pasturing it too short.

MAHAJ

J. A. M. katchewan was nominated as a candidate for the position of Grain Growers' Guide through the nomination received with gathering. The nomination of Grain Growers' Guide the Moose the purpose means who give effect the Guide and of the M. Cathers of the moose The chairs bly how to
