The recent improvements and the new prices represent values in Motor Cars, which it will pay you to investigate before buying.

Automobile prices have now reached rock bottom. To wait longer may mean paying higher. Order now to ensure Spring delivery.

LOUIS PLETSCH & SON

been effected before 2 o'clock. Prices were generally stronger, the best offerings gaining from 10c to 15c over last Thursday, and the common stuff, in some opinions, recovered the decline of last Monday.

The cattle receipts of 2400 included about 400 that were billed thru. Trade opened briskly, with a good demand for choice steers, heifers and baby beeves. There was no export buying, and the stocker and feeder trade was slow. The demand for bulls was perhaps the poorest on the market, and while cows were slow at the opening, the advent of a number of Jewish buyers put life into this section of the market.

Some good prices were in evidence throughout the market, a number of baby beeves bringing \$9.50 per cwt. A few heavy steers brought as high as \$8.50, and one big heifer weighing 1450 lb sold at \$9. One cow brought \$8.25 and a couple sold at \$7. Quite a few sales were made from \$6 to \$6.50. A few fair feeders sold at \$5.25 to \$5.50.

The veal trade showed little change from last week, although some of the tops were inclined to be slightly higher. The light offering made all grades easy to sell, but the market for common calves showed no improvement. Best sales were from \$11 to \$11.50.

Sheep and lamb prices were mostly firm, with sheep bringing the high price of last week. One lamb brought \$15 per hundred, with poorer quality offerings ranging down to \$10.

Sales of hogs were steady with last week's close, although the market showed signs of weakness. Sales were being made at \$13 f.o. b. and \$13.75 fed and watered. Packers were talking lower prices for to-day, and if they have their way sales will be on the basis of \$12.25 f.o.b. and \$13 fed and watered.

#### LAKELET

Breezes—There was quite an exciting time round Andy Allan's last Wednesday night when a cow fell into a well some 23 feet deep. The neighbors, L. Viney, John Wolf and his son Anson and Sangster Bros, were called and immediately set to which pulleys, ropes, etc. were attached. An extension ladder was lowered and Anson Wolf got down and managed to get the rope round her body behind the shoulders. The horses at three successful draws got her to the top, but could not hold her till the men could block the way, and back she went the 23 feet. The fourth draw was more successful and they got her away from danger. Incredible as it may seem that an animal could stand all the jarring and exposure of lying or sitting in 3 feet of water for some 2½ or 3 hours and live, yet that is what happened. A thorough rubbing with straw and the application of hot blankets revived her and in about an hour she was on her feet and is now apparently as well as ever.

#### DANGEROUS SYMPTOMS

A contemporary gives the following advice to its delinquent subscribers: "If you have frequent fainting spells, accompanied by chill cramps, corns, bunions, chilblains, epilepsy, and jaundice, it is a sign that you are not well and liable to die any minute. Pay your subscribers." die any minute. Pay your sub-scription in advance and thus make yourself solid for a good obituary notice." We pass the advice along for any of our subscribers who may have observed these symptoms, or any of them, in themselves.

Four cars, containing between fifty and sixty thousand feet of plain and matched lumber, valued at about \$85 per thousand, were unloaded at this station last week. This valued shipment is intended for the erection of a pheasant raising establishment on the hydro property at Eugenia. We are informed that the Fish and Game department of our economical government is the instigator of this wonderful scheme. Most people look upon this outlay as so much money thrown away.—
Flesherton Advance.

Miss Margaret McCulloch and little niece Jean, left on Tuesday for Filmore, Sask., where they will in future make their home with the former's brother, the Rev. Henry McCulloch. On Saturday evening a number of lady members of Knox Church and neighbors gathered at the home of Mrs Aitchisan to spend a pleasant hour with Miss McCulloch before her departure. As a memento of the friends in the congregation a club bag was presented to Miss McCulloch and a camera to little Jean. Clifford E. press.

Efforts will be made by the Hamilton Ministerial Associatin to curb the activities of several Mormons who reached that city the other day and intend, it is said, to win converts by holding a series of meetings and making a house-to-house canvast Several prominent ministers have expressed themselves in frank terms on the matter and declared that the doctrine preached by the Mormon delegates are of a dangerous character, while the appeal made at homes was said to be most insidious.
