Looking for Coal?
During the past six months there has been reported an unusually large number of cases of petty burglary. Entrance by the cellar door or window is almost invariably the rule. And the occupants of the houses entered, seem apparently rather backward about reporting the cases to the police. So that one begins to wonder whether it is "cases of burglary" or "burglary of cases."

Mrs. R. E. Guntion left for Stratford this morning to attend the funeral of her niece, Miss Alice Nettleton, who died in North Alberta from influenza. The type of the disease out there was so deadly that the authorities demurred bringing the body east from Winnipeg, and the lady coming east by the same train with the remains was directed to return west.

Odd Ends of News
A well filled coal bunk at a time like this should dispel a groan of say six months' standing, over the loss of a few cases of '75.

HUNS TO BUILD FOR ALLIES.

By Courier Leased Wire
London, Nov. 26.—The German Government has adopted the program framed by the late Albert Ballin, director of the Hamburg-American line and the Shipowners' Union, binding Germany to build ships exclusively for the Allies at fixed prices in return for which Germany will retain her merchant fleet, says a dispatch to The Daily Express from Amsterdam.

will be open in OLD POST OFFICE BLDG., from 9 to 12 a.m., from 1 to 5.30 p. m., from 7 to 8 p. m. This arrangement has been made in order that all may have an opportunity to secure coal or wood. There is a good supply of pea, stove and egg coal in the city yards. It is hoped that people will realize the impossibility of supplying all with chestnut.

The American government has treated Canada very liberally, but chestnut has been used largely for war purposes, and consequently cannot be secured in large quantities.

CHILE ACCEPTS PERU'S PLEDGE

Danger of War Between the South American Republics at an End

SAYS MISINFORMED

No Real Reason Existed for Withdrawal of the Consuls

New York, Nov. 26.—Difficulties between Peru and Chile which resulted yesterday in recall of consular representatives by each nation from the principal cities of its neighbor, have been overcome by an apology on the part of the Peruvian Government, Carlos Castro Ruiz, Consul-General of Chile, announced here to-night.

A telegram informing him of the Peruvian apology was received to-night by Mr. Ruiz, according to his statement, from the Chilean Minister of Foreign Affairs.

The message the Consul asserted, authorized him to announce that the Peruvian officials admitted that in making public reports of outbreaks against their citizens in Iquique and Antofagasta, Chile, they had acted on misinformation. This was furnished, he said, by the Peruvian Consul at Iquique, whose authority had been canceled for this reason by the Chilean Government.

The apology sent from Lima, Mr. Ruiz added, was wholly satisfactory to the Chilean officials and brought the misunderstanding to an end.

No Real Reason.

Santiago, Chile, Nov. 26.—The newspapers in discussing the withdrawal of the Peruvian Consuls from Chile and the Chilean Consuls from Peru, declare that the withdrawals were made in order to avoid more serious difficulties; the manifestations which caused the withdrawals, they say, were without any reason in either country.

The Government of both countries are advised by the newspapers to proceed quickly to the carrying out of the treaty of 1883 and to solve the open question of the definite possession of the Province of Tacna and Arica.

Luis Bologno, the new Foreign Minister, is urged by the majority party in the Chilean Parliament to propose a quick way of solving definitely the questions between Peru and Chile.

The Peruvian question was brought up in the Chilean Chamber of Deputies last night and a stormy session resulted.

Senor Cardenas, the second Vice-President of the Chamber, suggested that the question be settled peacefully. The members of the new Chilean Cabinet, who were present, withdrew as a protest, and the President and the first Vice-President of the Chamber announced they had resigned. The session then had to be adjourned to prevent violence.

The sitting was reopened later and the Deputies voted Cardenas out of his office as second vice-President and annulled the resignations of the President and Vice-President.

After the meeting crowds in the streets hooted Cardenas, calling him a traitor.

Ambassador Gerard Says:

"The German Armies were held only a few days, yet the delay of those few days changed the fortunes of the whole world."

The Belgian soldiers who held on those few days, died fighting. Their children are dying of slow starvation. It would be well to digest these two statements.

If we grasp what this situation means, we can SAVE Belgium—not by the sword, but by paying our debt in part.

A contribution of a few dollars, administered by the Canadian Bureau in Brussels, will restore health and strength to a little Belgian, now in the grip of pitiless starvation. Oh, it is hard to write calmly and sanely about a horror that is positively ghastly...

To Subscribers in Arrears

Paper Controller Orders Cutting Off of Unpaid Subscriptions!

Mr. R. A. Pringle, K. C., the Paper Controller of Canada, has issued an order, effective January 1, 1919, which says:

"2. Discontinue sending paper within three months after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year The Courier's subscription list must be overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "due" to spur them to action. The date on the label affixed to the paper sent to mail subscribers tells the story. City subscribers can learn how their subscription stands by referring to their last receipt.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspaper until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months.

Send in your subscription at once. Do not delay the collectors call regularly on city subscribers. Keep your account up-to-date.
