Alteration Sale

Altered Prices
Unaltered Values
Money Saving

In spite of the fact that alterations are causing some inconvenience, dust and noise, we are doing a fine business with the assistance of sale prices. People don't mind shopping under these conditions if they can save some money. White-wash sale and alteration sale still continues.

GEO. E. JUDSON

Brockville Business College

Bookkeeping, Shorthand, Telegraphy

If we made the statement that our graduates are better qualified for positions than graduates from other colleges, we would expect the public to doubt our statement, but when that statement is made by the business men of New York City it stands unchallenged. Read the following letter and if you want a thorough course you need not hesitate where to go. It settles the matter about positions.

THE UNDERWOOD TYPEWRITER CO.,

241 Broadway, New York, November 29, 1905
Mr. C. W. Gay, Principal, Brockville Business College.

Dear Sir,—Have you any young men stenographers who are willing to accept positions in New York City? I have found it extremely difficult to find young men to fill the positions at my disposal.

Having had the pleasure of meeting and placing a number of students from your school, all of whom are entirely satisfactory, which undoubtedly is the result of a thorough business training, I am prompted to ask the above question.

Assuring you of my willingness to place all the Underwood operators you may send me, I beg to remain,

Yours very truly
G. A. MEINECKE,

Manager—Employment Dep.

Sales of farm stock a specialty

The Ladies' aid

We've put a fine addition on the good old church at home. It's just the latest kilter, with a gallery and a dome.

And when it was dedicated, why we planked ten thousand down; That is, we paid five thousand—every deacon did his best— And the Ladies' Aid Society, it promised all the rest.

We've got an organ in the church—very finest in the land, It's got a thousand pipes or more, its melody is grand, And when we sit on cushioned pews and hear the master play, It carries us to realms of bliss unnumbered miles away; It cost a cool three thousand, and it's stood the hardest test; We'll pay a thousand on it—the Ladies' Aid the rest.

They'll give a hundred sociables, can-tatas too and teas; They'll bake a thousand angel cakes and tons of cream they'll freeze; They'll beg and scrape and toil and sweat for seven years or more, And then they'll start it o'er again, for a carpet for the floor; No, it isn't just like digging out the money from your vest When the Ladies' Aid gets busy and says "We'll pay the rest."

Of course we're proud of our big church from pulpit up to steeple; It is the darling of our eyes, the crown of our desire; But when I see the sisters work to raise the cash that lacks, I somehow feel the church is built on women's tired backs; And sometimes I can't help thinking when we reach the regions blest, That the men will get the toil and sweat and the Ladies' Aid the rest.

IRON, STEEL AND NICKEL

Canada is on the eve of remarkable developments in the smelting of magnetite ores, the manufacture of steel and the production of nickel pig by the electric system. Investigation and experiments that commenced three years ago have just been completed at Sault Ste. Marie, demonstrating beyond a doubt that the ores above mentioned can be cheaply and expensively smelted by electricity. The process admits of immediate commercial application.

It is impossible to overrate the important consequences to Canada bound to follow from these successful experiments. With vast deposits of iron ore existing throughout Ontario and Quebec, and contiguous to them large water powers for the cheap production of electrical energy, it does not need much thinking to see that iron and steel industries, free from the smoke nuisance will speedily be established. The successful production of nickel pig is also a wonderful achievement. In the Sudbury district the supply of ore is almost inexhaustible, and for the finished product there is an immense and ever growing demand. Further particular of the scientific triumphs at the Soo will be eagerly awaited, but enough has been learned to prove that Canada will be one of the greatest iron, steel and nickel producing countries in the world.

Debate on Happiness

A debate will be held in the Methodist church on the evening of March 6th, under the auspices of the Epworth League. The subject of debate is "Resolved, that a man's happiness depends more upon himself than his surroundings."

Affirmative—Rev. H. W. Burnett, Mr. W. C. Dowley, Mr. D. Fisher.
Negative—Rev. Philip of Crosby, Mr. C. P. Bishop, Mr. A. Williams.

An excellent musical programme is being prepared. Refreshments will be served at the close of the programme. Admission 15 cents. Come one, come all and enjoy a social evening.

Catarrh,

Called an American disease, is cured by an American medicine, originated and prepared in the most catarrhal of American countries. That medicine is Hood's Sarsaparilla.

It cures radically and permanently, in that it removes the cause, cleansing the blood of scrofulous and all other impurities. It overcomes all the effects of catarrh, too, and builds up the whole system.

CUT ALL TO PIECES

A Great Wreck of Clothing Prices.

Soon it will be time to say farewell to old winter and welcome the incoming spring. There's no better time to close out the balance of our winter Suits, Overcoats Underwear, etc., than right now we haven't got many lines in stock, far less than any other season's, but now is your opportunity, we have cut our prices right down—some are at cost, and others less than cost.

All winter goods have got to go to make room for our spring goods, which are arriving daily. The prudent buyer will read this ad. and call at once, and where else would you look for such splendid styles and quality as we offer, and such small prices.

A few Fur Lined Overcoats to be sold at cost. Come and see them.
