BACK FROM KINGSTON. Dr. W. R. Hall, Medical Health Officer, returned last night from King-ston, where he has been attending the ston, where he has been attending the Fifteenth Annual meeting of the Association of Executive Health Officers of Ontario. R. S. Dunlop, Chairman of the local Board of Health, accompanied Dr. Hall, as delegate from the Maple City. The attendance was smaller this year than usual, but the Chatham representatives assert that the assembly was a very select one. The program was a long one, and the papers upon the different "subjects were the most valuable and interesting ones which have yet marked the ing ones which have yet marked the annual sessions. Do Hall did not owing to a lack of time, but he took a prominent part in the discussions upon tuberculosis, vaccination, physical education of women and the education problem viewed from a pub-lic health standpoint. RATHER STRANGE STORY.

The Walkerton Telescope tells the following strange story:—"Two or three weeks ago Mr. Perry Eli put an edvertisement in the local newspapers stating that he had found a large sum stating that he had found a large sum of money. No particulars were given, but a day or two ago he received a letter from one Snofgrass, of Chicago, giving the particulars of some money which he had lost here about 18 years ago. The writer states that he had been paid \$420 in Canadian bank bills, but hefore leaving Kincardine he exbut before leaving Kincardine he exbut before leaving Kincardine he exchanged it for gold. American gold pieces, twenty in number, had been wrapped in some brown paper and duly labelled. On arriving at Walkerton he had fallen in with the late G. G. Bobier, and had shared a jug of whiskey with him in the cellar of the house. On sobering up the money was gone. As Eli found the money on a beam in the cellar of the old Bobier house, and there was just \$400 in American eagles in the package, he naturally concludes that he has found the rightful owner."

DON'T MISS WHO IS WHO.

In the comedy of complications, "Who is Who," which will make its appearance at the Grand Monday evening next, Messrs. Chas. A. Loder and John McMahon, the chief fun conspirators of this company, have a vehicle admirably suited to their unctious style, as well as one which admits of almost unlimited introduction of specialty features without in any way marring its consistancy or destroying its plot. It is a decided novely to contemplate a musical farce comedy with a well defined and intelligent story, as farce comedies seldom have plots that can be discovered with a X-ray; but "Who is Who" has a plot that is visible to the naked eye, and the natural action is replete with the most laughable situations, and the fun is just as the bills describe it, one censeless drive. It would not be in keeping with modern farce comedy, however, without a liberal display of pretty girls, dainty lingerie, catchy music, and high vaudeville trimmings. All these have been provided, and this attraction ranks among the foremost All these have been provided, and this attraction ranks among the foremost comedy organizations before the public.

Man Who Attempted to Shoot P. M. Houston

Will Never Live Out His Twenty Year Sentence-Dr. Hall Had an Interview Wih Him.

While in Kingston attending the con vention of the medical health officers Dr Hall visited the penitentiary and there through the courtesy of the hospital physiof an interview with John Two hey, the eld man who was sentenced over two years ago by Judge Bell to 20 years for presenting a revolver at the breast of Magistrate Houston and threatening to

shoot him In speaking of Twohey's condition Dr. Hall said this morning:— "I don't believe I ever saw a sadder spectacle than that presented by this old man who now broken down by disease is forced to spend the remainder of his life behind the walls of a prison. I had a long conversation with Twohey and he assured me that he never intended to shoot Mr. Houston, His only desire was to frighten him. If the old man had wished to kill the magistrate he could easily have done so, as he had the gun pointed right at done so, as he had the gun pointed right at his breast and all that was required to send it off was a pull of the trigger. Twohey is now suffering from a disease of the lungs and will certainly die unless released. Should this be done he can survive but a short time anyway. I do not wish to express any opinion as to the justice of the heavy sentence impose upon this unfortunate man but I do say that unless the government interferes and grants he release, it rnment interferes and grants h.s release, vill shortly come by death."

Dr. Hall has not been idle in the cause of suffering humanity but has already cause a communication to the government on the subject to be prepared. A petition will also be circulated among the prominent citizens and Magistrate Houston himself will be asked to sign it, when he hears the circum-stances of the case Mr. Houston will, no doubt, do a!l in his power to effect Twohey's

TORONTO'S ALL CANADA EXHIBITION:

"Educational and entertaining, Ag-gressive and progressive," are the gressive and progressive," are the very appropriate watch-words adopted by the Toronto Industrial Exhibition this year, which will be held from August 27th to September 8th. This is the twenty-second successive year of Canada's great Exposition at Toronto, and each year has not only seen an improvement in the arrangements as compared with the years that have gone, but the quality of the stock is very farahead of what it was at the beginning; thus proving the inestivery farahead of what it was at the beginning; thus proving the inestimable value of Fairs such as that held annually at Toronto. It is an old story to say that the exhibition immediately approaching will be superior to all its predecessors, but it can safely be said that arrrangements have been made, and negotiations are pending, that warrant the statement that the Toronto Fair of 1900 will fully maintain the reputation it has gained that the Toronto Fair of 1900 will fully maintain the reputation it has gained of being the best of all that are annually held. A good deal of the space has already been taken up, and a number of entries have been made, but there are so many divisions comprised in the prize list, with its 131 classes and \$35,000 in premiums, that there is ample provision for all; and, talking of those divisions, it is interesting to note that there are no fewer than 55 in class 128, knitting, shirts, quilts. in class 128, knitting, shirts, quilts, cloths, etc.; 354 in class 54, poultry; and an average of 16 or 17 in each of the an average of 16 or 17 in each of the two dozen classes devoted to horses and cattle. This will give some idea not only of the scope of Toronto's Great Exposition, but also of the opportunities offered to secure a prize. It is a little early to refer to what is promised in the way of entertainment, but when it is stated that \$30,000 is spent annually on this department. but when it is stated that \$30,000 is spent annually on this department, visitors have ample guarantee that they will be abundantly provided for, and the admission to the Toronto Exhibition with its myriads of attractions is only 25c. Entries close on August 4th, and prize lists can be had by addressing H. J. Hill, Manager Industrial Exhibition, Toronto. As last year, so this, the exhibition will be inaugurated on Tuesday evening, August 28th, with a brilliant Military Tattoo. Reduced rates will be given and excursions held on all lines of travel.
