

AIRSHIP IN WIND STORM.

Count Zeppelin's Craft Plaything of the Winds.

Soldiers in Autos and Cavalry Racing After Airship.

Came Within 300 Feet of the Ground at Munich.

Munich, April 1.—The Zeppelin airship, with the count himself on board, is being swept helplessly over the country. She is out of control and drifting, with no hope of being able to make headway against the increasing wind.

The airship left Friedrichshafen early this morning and five hours later appeared in the air over the outskirts of Munich. A distance of 111 miles was covered in five hours.

When the seriousness of the situation was realized the troops were ordered out to follow the airship and be prepared to render any assistance possible.

The departure took place at five minutes past four from Friedrichshafen. It was still dark and the weather was dull.

The airship was sighted, shortly before 9 o'clock, approaching Munich, the church bells of the city rang out in peals of welcome and cannon fired a salute.

The airship then moved off in the direction of the palace, where it was greeted by the Princesses of the royal family.

ON THE WING. Ending, April 1.—The Zeppelin airship, driven before a storm, that is increasing in violence, passed swiftly over this town at 1.45.

DROPPED A NOTE. The Count has dropped out a note addressed to the commanding officer of the three squadrons of cavalry that are following his route.

Landshut is forty miles northeast of Munich. The next large town in the direction of the flight is Straubing, thirty-five miles from Landshut.

BUILDING PERMITS ALMOST DOUBLE.

Greater Hamilton Coming, Sure Enough—Special Cars For Sunday Morning Trains.

Another sign of returning prosperity is the large increase in the value of permits for March of this year as compared with the corresponding month a year ago.

Yesterday afternoon argument in the appeal against Barton's suit to compel the city to give certain township residents a water supply and sewer connections was completed before Chief Justice Falconbridge.

The street watering carts made their first appearance this year yesterday afternoon. There are printed instructions on the backs of the cart this year advising people who have complaints to make about the way the watering is done to telephone 1174, and the Board of Works officials desire that people take advantage of this and register complaints promptly.

Druggist and Doctor

Were Fined in the Smithville Cases This Morning.

Intense interest was taken in the Smithville liquor cases to-day. Two convictions were registered this afternoon at 12.30.

Dr. Munro was fined \$10 for writing a prescription technically wrong.

The charge against Wm. Ahl, selling without a license, opened this afternoon at 12.30. The courtroom was packed with people.

LITTLE HOPE OF RECOVERY.

Hamilton Man Had Skull Fractured at Merriton.

St. Catharines, Ont., April 1.—George Aldridge, of Hamilton, lies in a critical condition in the General and Marine Hospital here.

On Tuesday morning, when the committee meets again, T. W. Gibson, Deputy Minister of Public Works, will be asked to give evidence on the expenditures of the Provincial mine on the Gilles limit.

Herbert Gorman, 538 James street north, and George Millican, 24 Guise street, were arrested last night by Constables Duffy and Lentz.

GREAT TIME.

North Enders Had It Last Night and Paid To-day.

Herbert Gorman, 538 James street north, and George Millican, 24 Guise street, were arrested last night by Constables Duffy and Lentz.

Every member should have one of the new style swagger sticks, with the regimental crest embossed on the metal cap, which are sold for 25 cents at peace's cigar store, 107 King street east.

NO LIGHT.

Kinrade Case is as Deep a Mystery as Ever.

Ottawa, Ont., April 1.—Mr. Warburton, M. P., denies the story published in a Hamilton paper that he had identified the Col. Warburton figuring in the Kinrade murder case.

Two weeks have passed since the Kinrade inquest was adjourned for five weeks. The provincial and local detectives have been hard at work in the interval, but have not yet succeeded in getting anything that helps them much.

The month's leave of absence granted to T. L. Kinrade from his duties at the Cannon Street School has expired, and the Board of Education has had no word from him.

WANT HIM LIBERATED.

With the object of obtaining the release of James Bradley from jail, petitions are being circulated widely through the city, and are being signed by nearly everyone approached.

Mrs. Owens, 230 John street south, wandered away from her home yesterday morning at 9 o'clock, and has not been seen since. She is mentally deranged and her friends fear for her safety.

PRIZES FOR THE FARMERS.

Board of Health's Powers as to Building Sewers.

Municipalities May Sell Waste Steam For Heating Purposes.

Duncan Ross Picks More Holes in the Public Accounts.

(Special Despatch to the Times.) Toronto, Ont., April 1.—If Mr. Phil Bowyer's Act, which rode through the Municipal Committee in triumph this morning, gets an equally enthusiastic reception in the House, Ontario will proceed to blossom like the rose.

Mr. J. P. Downey's bill passed the Municipal Committee this morning without serious opposition. It affords to municipalities the same privileges with regard to sewage extensions that now obtain concerning electric light and waterworks.

Let the city follow the example of the Bell Telephone Company and bury the wires.

The ladies need expect no help from Whitney in their fight against the white plague. He downed Joe Downey's anti-tuberculosis bill, and Joe took the count.

Notice that Whitney is quite willing that the Federal Government present Britain with a Dreadnought, but he is not in any hurry to have the Provincial Government donate one.

Another good way to boom the city would be to make it as light as day at night. We need a daylight bill to make it as bright at night as at noon.

THEATRICAL MEN MEETING.

A Canadian Merger Said to be a Probability.

It is reported from Toronto that a theatrical merger of Canadian theatres, largely in Ontario, is under way, with Mr. A. J. Small as the central figure.

Mr. John Appleton, manager of the Savoy and Bessie's theatres here, was at a conference in Toronto yesterday, but Mr. George Stroud, treasurer, said to-day that Mr. Appleton had nothing to say in regard to the meeting.

NO LIGHT.

With colors flying, and His Worship Mayor McLaren on board as a guest, the Hamilton Steamboat Company's fleet, sailed away for Toronto this morning on her first trip of the season.

Hamilton's fleet of pleasure and excursion boats will have an important addition shortly. The Hamilton Ferry Company, which has completed arrangements to give a first-class service to the northern shore this year, has been notified that the boats to be used on its line will be here early in May.

NEW FERRY SERVICE. Hamilton's fleet of pleasure and excursion boats will have an important addition shortly.

Mr. Charles F. Maund, of Kingston, has been appointed freight and passenger agent for the Turbina Steamship Company, in this city.

SAFETY DEPOSIT BOXES

To rent at \$2 a year and up wards, for the storing of deeds, bonds, stocks, wills, silver and other valuables.

THE MAN IN OVERALLS

Bury the wires.

Even William Bell admits that he is afraid of the Tory machine.

There is little comfort for the hotel man in the new liquor license law.

With shame be it said, Hamilton is still without a children's shelter.

Still, Mr. Atkinson, the York Loan money may come in handy for Christmas. Don't be too impatient.

In a week or two now it will be worth while going around and taking a look at the market.

The Philadelphia Bulletin puts it this way: If Canada takes part in a British war she will have to look out for herself.

Let the city follow the example of the Bell Telephone Company and bury the wires.

March came in like a lamb and went out like one. What's the inference?

Old Liberal! Might have sent his complaint to the Times, instead of playing into the hands of the enemy.

Notice that Whitney is quite willing that the Federal Government present Britain with a Dreadnought, but he is not in any hurry to have the Provincial Government donate one.

Does the Herald imagine that Mayor McLaren is less patriotic than it is or more stingy, or just that he fails to properly understand the war scare situation.

Remember, boy your Irish could have no charms for Mr. McMahon's accuser.

Constable Campaign is an old campaigner, and no doubt has trained up his son in the way he should go—to follow in his footsteps.

With colors flying, and His Worship Mayor McLaren on board as a guest, the Hamilton Steamboat Company's fleet, sailed away for Toronto this morning on her first trip of the season.

Hamilton's fleet of pleasure and excursion boats will have an important addition shortly.

Mr. Charles F. Maund, of Kingston, has been appointed freight and passenger agent for the Turbina Steamship Company, in this city.

THE STREETS OF TORONTO.

Shall the Police or Street Car Co. Control Them?

Question Threshed Out Before Municipal Committee.

City and Company Come to Some Agreement.

(Special Despatch to the Times.) Toronto, Ont., April 1.—Which shall control Toronto streets, the policeman or the roadmaster of the Toronto Street Railway? This was the question that the Municipal Committee of the Legislature was called on to settle this morning.

"I want to see the police given absolute control of the streets," said Mayor Oliver. "The city policeman ought to be the highest authority on the street, and the railway company ought not to have anything to do with it."

"I have been in half a dozen big cities of the United States and in every one of them the police have controlled the traffic," said the mayor.

"We have come to an agreement, I think," said Mr. Chisholm, on their return, and he read that agreement.

Seventeen hundred people, when set down in a city even as big as Hamilton, make a notable difference in the appearance of the streets.

These excursions show the possibilities this city has of bringing people here from outside points by the network of railroads that branch out from here.

BRANTFORD EXCURSION.

1,700 Came In On Stanley Mill's Spring Trip.

Seventeen hundred people, when set down in a city even as big as Hamilton, make a notable difference in the appearance of the streets.

YELLED TO BE TAKEN OUT.

Federal Military Prison at Leavenworth Burned.

Eight Hundred Prisoners Let Out and Guarded by Troops.

Prisoners First in Great Glee and Afterwards in Terror.

Leavenworth, Kan., April 1.—It took 1,200 United States soldiers to maintain order and to prevent prisoners from escaping during a fire which destroyed four buildings of the federal military prison here early to-day.

The fire started in the 13th infantry barracks when it seemed that the whole prison would certainly be destroyed, and were held under heavy military guard until the fire was under control.

SUICIDED WHILE INSANE.

The Victim, However, Was Only a Mad Dog.

Hamilton Bay claimed its first victim yesterday afternoon, when a suicide sought the peace found in death, diving through a hole in the ice.

The suicide was an innocent little dog, who, on the first breath of spring contracted what looked like hydrophobia.

Residents on Simcoe street west saw the dog with froth about its mouth, rolling in the road. They telephoned to police headquarters and an officer was sent down, armed with a revolver, to kill the animal before it did any biting.

Dealers Have Advanced Domestic Price 50 Cents a Month.

Fear of an ice famine here this summer was ascribed as one of the chief reasons for the dealers advancing the price.

The seal this year is an advance of 50 cents a month over last year's prices for domestic supply, and is as follows:

25 lbs. daily ... 87.50  
35 lbs. daily ... 3.75  
50 lbs. daily ... 4.50

Lord Northland and Mrs. Sterling have lodged appeals against decree of divorce granted Mr. Sterling in Edinburgh.

HARVESTER MEN ARE IN A HOLE.

Cannot Supply Demands of Returning Prosperity in Great Canadian West.

It looks as though the Western farmer might be up against it good and hard this year, for a famine in farm implements faces the west.

The demand is far in excess of the supply and has entirely upset the calculations of the experts who look the west over each year for the next season's business.

There appears to be little hope of relief for practically all the big firms are tied up, and although they have made every effort to tide over the difficulty they have been unable to keep up with the orders that have poured in.
