#### The Teachers' Xmas Box.

We notice that the Daily News gives an emphatic denial to the rumor we published yesterday that the Teachers' Pension Scheme was to be dropped owing to the hostility displayed against it in the north. The Daily News observes that the truth or falsity of the rumor can easily be decided next Wednesday. Precisely. That is just what we said. We will repeat it for the benefit of our good-tempered contemporary:-

Wednesday, the 14th, is St. Valentine's Day, and also the day when the Legislature will meet, and the Government programme will be officially announced. It should at that time be seen whether teachers are to have the valentine we have mention in place of the Christmas Box promised on December 23rd, 1911."

We notice that our contemporary out of the abundance of his good nature, has presented us with a new leader in the person of Mr. Coaker. We thank him for the favour, although it is a work of supererogation, as we are already sufficiently provided for in the way of leadership; and moreover, we are not hankering after a change. We fear we have not the political versatility of our esteemed friend, which has enabled him to go to the country under a different leader at the end of every term for the past twenty years.

When the match opened both men got in some strenuous work, Berry taking a very aggressive attitude and many thought that victory would perch upon his banner. After about 20 minutes Ol-

The Ander son belt was held by Anderson for 9 or 10 years, and in his class he was the recognized champion of America antil defeated by Olson in this city After last night's match there was much comment amongst the specta
