The girl with the sharp tongue calls it "her luck" because she some times gets caught saying sharp things about people. Should a mar spend most of his time out of doors call it "his luck" if he occasionally gets caught in a shower? Should anyone who is always playing with edged tools call it "his luck" if now and then he cuts himself? Should a girl who is always saying sharp things about people call it "her luck" if now and then one of them overhears or in some other way gets wind of her ill natured remarks?

Such a Temptation.

The temptation to say sharp, witty things about people the moment they are out of earshot is very strong to, thing. It depends on the character many of us. It is so easy to be of your teeth. Some people come to sharp and witty over the peculiarities him for inspection every month, that the very best of us have, and some every three months, some once the joke seems to take on a particu- in six months. Nothing could give him the right to destroy or o imperil her crew and passengers parison with the status of neutrals within the walls of a fortified city under siege. But international law requires the besieging force to give notice of bombardment. "The officer in command of an attacking force, o runs the language of The Hague Convention, "must, before commence ing a bombardment, in cases of as

sault, do all in his power to warn the istom is there any extenuation fo this act of monstrous inhumanity, n exception, no condition, can be had to shield it from the full force and con demnation it deserves and has re-ceived. And the warning advertise-ment published by the German Em-bassy here, being notice of an in-tent to commit a crime, is of no more avail for exculpation than a Black Hand letter of threat. The rule of mercy to the crew and

passengers of captured merchant ships of the enemy rests upon the universal principle that the opera-tions of war are carried on against armed forces, not against the enemy's tainly never against neutrals. rests upon the principle of the instructions for the government of the armies of the United States in the field during the civil war, a code-prepared by Dr. Lieber and revised by the hand of Abraham Lincoln, in which it was declared that men in which it was declared that men in arms remain "normal beings respon-'sible to one another and to God.' Germany snapped her fingers at the laws of war and at the law of morality when she did this deed of blood. She put herself outside the domain of on her behaviour that by that act she onfessed herself to be an outlaw nation. We know now how she makes war, how she intends to make war—that discussion is ended. Had we known on Aug. 1 what is now made so ainfully clear to us we should be-ond all doubt have taken a different course. We passed over in silence the lawless violence and carnage risited upon Belgium by the German nyader, although many prominent Americans insisted that we should

Now that we are warned that Germany has resolved to make war in disregard of the laws of God and man, like a Malay running amuck, we know what to do. The time for rotests has passed. It becomes now ur duty as a nation to demand that fermany shall find means to carry n her war without putting our citiens to death. It is a demand in which other neutral nations will have T. J.
