PTORRHEA.

Pyorrhea is the most destructive, the most difficult to treat, yet one of the commonest of all the diseases of the teeth. It is present in the mouths of countless thousands of adults who fondly think their teeth are in perfect condition. It progresses slowly, and in its early stages, painlessly. The gums become soft and bleed easily, then they grow sore and become inflamed. Pus forms at the roots of the teeth and they loosen in their sockets. When the disease reaches this stage it affects the general health and usually extraction is the only remedy.

Your Cemetery Plot

May need our attention to put it in order for the summer months. It may need a MONUMENT or a HEADSTONE. Why not get one from us that will have that artistic effect that will make it look distinctive from every other memorial?

You may have a monument in your plot that has not been attended to for years. Let us put in some work on it and remove the traces of the weather by polishing and painting it again. You may want another inscription engraved. We attend to all this work during the next few months. A letter or a call at our showroom will put you in touch with an up-to-date and prompt service that stands for satisfaction.
