GERALD S. DOYLE, Distribu

The Ruhr Situation.

AS VIEWED BY A CANADIAN.

ring husband. A fine cast including can hear the pips squeak," now finds Edwin Stevens, Lawson Butt, Lionel that the squeezing process is very terests with which he is identified. The Rothermere Press (Daily Mail.

Daily Mirror, etc.) still pooh-poohs this view, and can find experts ready to rush into print to controvert Sir Eric Geddes. In particular, Harold Cox, the ex-Liberal M.P., and secremaintains (and quotes from the trade anything has slightly helped it.

Reading between the lines. I fancy the truth is something like this: The paralysis in the Ruhr has led unoccupied Germany to get some things, particularly coal, from England, which she could otherwise have secured in the Ruhr itself. So far as British exports.

hit with increasing force by the occupation, to which Belgium may now mand for our product. feel that she committed herself rather countries surrounding Germany can as soon as possible. only purchase British and overseas goods in diminishing quantities as probably more than offsetting the direct gain already mentioned, quite GAS LIGHT COMPANY apart from the less direct reactions of the German debacle on the big eastern markets.

Moreover, every time France con fiscates a few billion marks in some German bank and throws them onto the demoralized foreign exchanges. Germany's power of buying from Truckmen! German bank and throws them onto So give master baby a Benjamin's England, and the power of the surrounding countries also, must be con-T hen keep him your baby as long as tracted by the further fall in the

The whole situation is exceedingly puzzling, and in the House of Com-When baby's baby he's making his mons the other day, Sir Alfred Mond. who speaks with authority, said that X citement's a danger, so better be- he could not finally make up his mind how far the Ruhr occupation was directly contributing to the trade de-Z calously tend him, he'll pay back pression whose coming he was inclined to expect.

Political Divisions. All of this produces some interest ing political reactions in England. To Dinners and Lunches Served judge by the Press, the country is still divided pretty badly in its attitude to the controversy with France though the chief frends of France are all of them. of almost all, to be found on Lord Rothermere's payroll. Moreover, it is quite clear that Mr. Baldwin's attitude, while generally welcomed by the various oppositions in the House of Commons, was endorsed by not nearly the whole of his own party. The back-bench Conservatives still retain a good deal of the war mind, and only restrain their en-

thusiasm for France with a great deal of difficulty. However, the Conservative Party is party. It depends more and more, now that Labour is the official oppos tion, on the big industrial interests, vide Sir Eric Geddes and others—are growing more and more convinced will find himself under fire now that

I write a few hours before the We have just opened a good Parliamentary debate on the French note, which may reveal much that is now speculation. But this is how I now speculation. But this is how I see things. If the discussion with France is to be brought into the open I tancy England will rally pretty solidly against the French belief in blood and iron. The ordinary Englishman has no more use for militarism west of the Rhine than east of it.—Gilbert E. Jackson in Financial Post.
