

From Ottawa.
Ottawa, April 19.
The Canadian Gazette to-day contains the following:—Thomas H. Bateman, Strathroy, to be Sub-Collector of Customs; John McDougall to be postmaster at Fort Garry, vice Hon. A. G. B. Bannatyne, resigned.
The North-West Committee met this morning and adjourned until this afternoon, and is now engaged in the examination of Archbishop Tache.
Notice of motion has been placed on paper by Senator Ellet to the effect that the Senate Chamber shall never again be used as a ball-room.
Mr. La Riviere, late of Montreal, now connected with the Crown Lands of Manitoba, has been approached by a number of people on both sides of politics, with a view to his candidature for Provancher. He has not yet given his decision whether he will run or not.
The question of reciprocity may be considered as virtually settled. The impression, which appears to be well founded, prevails that our Canadian delegates have succeeded in the main objects of their mission to Washington.

A small steam yacht belonging to Mr. Tregent, of Windsor, County of Essex, was seized by the collector at Port Rowan, on Wednesday, for attempting to leave without a clearance.

Gas.—Windsor intends lighting its streets with gas. Some Detroit capitalists are agitating the scheme.—The St. Thomas Times is also advocating more light in the shape of gas for that town.

FARMERS' CLUB.—The farmers residing in Brantford township have organized a club to be called the "Farrington Farmers' Club," under most favorable auspices. Already twenty-three members have been enrolled.

CAN'T DO IT.—The proprietors of two hotels in St. Catharines applied for their licenses the other day, but were promptly refused by the model inspector, who said that the returns had been promptly sent in to headquarters on the 15th of March, after which it is illegal to issue licenses.

A RIGHTOUS LAW.—The Mayor of Durham has issued a notice that every occupant of a house or shop, whether owner or tenant within the corporate limits, shall provide a good ladder of sufficient length to reach the roof of the dwellings they respectively inhabit; and it shall at all times be appended to the building.

NULL AND VOID.—The following laws expire this year:—An Act to make temporary provision for election of members to serve in the Commons. An Act respecting the admission of Prince Edward as a Province of the Dominion. An Act to continue for a limited time the Insolvent Act of 1869 and Acts amending the same.

GOVERNMENT ITEMS.—The Town Council have passed the by-law to grant a bonus of \$100,000 to the Huron and Quebec Railway through committee, and resolved to submit it to the people on the 21st of May. Messrs. Ogilvie, of Montreal, are about to erect a large flouring-mill and elevator here, capable of turning out, at least, 250 barrels of flour a day. Plans for flour mills here some time ago, are to be rebuilt at once.

THOUSANDS of persons flocked to the banks of the Thames on Saturday in expectation of seeing another extraordinary high tide. They were not altogether disappointed, as the water rose considerably higher than usual, though not so high as to cause any damage.

THE mortal remains of the late Col. J. K. Oshawa were on Saturday interred, with Masonic honours, at Oakville.

MANUFACTURE OF COCOA.—"We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London."—See article in Cassell's Household Guide.

AS NUMEROUS CASES OF
Have occurred from the sale to the public of Hypophosphites, containing strychnine, without being properly labelled, purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Cellulose are requested not to confound the two preparations, as is frequently done, under the impression that both are of the same medicinal properties. Phosphates are necessary elements of the animal organism, and are absolutely essential to the phenomena of life. They enter into the composition of every solid and fluid of the human body, and are the natural exciting agents of the functions of nutrition, and determine perfect cell formation and the growth of tissues. For supplying the waste resulting from mental and muscular exertion there can be no substitute for Phosphates while the system remains chemically constituted as it is. Attributing the effects of strychnine to the action of hypophosphites has led to false deductions and errors in practice, and greatly misled the public as to their true merits.

ONTARIO School of Agriculture —AND— EXPERIMENTAL FARM

This institution will be open for the reception of pupils on the 1st day of May next, when a preparatory term of one year will be commenced.
The objects of the Institution are:—First, To give a thorough mastery of the practice and theory of husbandry to the young men of the province engaged in agriculture and horticultural pursuits, or intending to engage in such. And Second, To conduct experiments tending to the solution of questions of material interest to the Agriculturists of the Province, and to publish the results of the same from time to time.

Until the farm has been systematically laid out and brought into order for the special purposes to which it is to be applied, and until the necessary buildings and offices have been erected, it is not deemed expedient to settle definitely the curriculum of instruction to be given, or the conditions upon which students will be admitted when the institution is in full operation. For some time to come the work of the farm will be mainly confined to the preparation of the fields and buildings for the systematic instruction of pupils; and during this preparatory term the chief aim will be to teach the pupils how to perform the farm work in the best and most profitable manner, coupled with such amount of scientific knowledge as will enable them clearly to comprehend the results sought to be obtained from each operation, and the scientific facts and principles upon which it is based.

During said term the number of pupils will be limited to the strength that can be profitably employed in the operations of the farm, and at this number must necessarily be small at present, (namely, about thirty) a selection will be made, inasmuch as more than the required number of such as shall be considered likely to derive the most benefit from the instruction to be given. The institution will be strictly non-sectarian, but all pupils—except those who from conscientious scruples formally object to do so—will be required to be regularly present at morning and evening prayers, and also to attend their respective places of worship at least once every Sunday.

The pupils must engage on an average seven hours daily in the work of the farm, farm-yard and garden.

In return for their work they will receive instruction, board, lodging and washing, free of expense, and, in the event of their completing the term, and passing the prescribed examination during the year, they will each receive at the close of the year the sum of fifty dollars in money.

The qualifications necessary for admission to the institution for the said Preparatory Term shall be merely those which, under the Provincial School Law, every boy must possess in coming from a Common School into a High School, viz.: A thorough knowledge of Arithmetic—As far as Simple Proportion, inclusive.

ENGLISH GRAMMAR AND COMPOSITION.—Analysis and parsing of sentences; writing a familiar letter, reading, spelling and dictation. Outlines of English and Canadian History.

Outlines of General Geography, and Geography of the Dominion of Canada. A certificate of admission to any High School or College in the British Empire, or a certificate as a duly qualified teacher, will be accepted in lieu of an examination, but special arrangements will be made for the examination of candidates not possessing such certificates.

In addition to the above qualifications the candidate must produce satisfactory certificates of sound bodily health from a duly qualified medical practitioner, and a certificate of good moral character from a clergyman of the denomination to which the candidate belongs.

He must also enter into an agreement (with the consent of his parents or guardians) that he will complete the term of one year, and during that period submit to the rules, and give his whole time to the duties and studies of the institution.

All applications to be forwarded to the undersigned on or before the 15th day of April next.

H. McCANDLESS, Principal.

NOTICE.
The time for receiving applications is EXTENDED TO THE 25TH INST.

Dr. Williams' Pink Pills
Before Taking. After Taking.
Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits, but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatitis, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Universal Lassitude, Pain in the Back, Discharge of Urine, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by indulging from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one.

The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing:
