The man says it may have been the same case here.

And Neal, who was standing immediately opposite his young mistress, and met her eye as she spoke, heard the words with unruffled composure; not so much as a shade of change disturbing the equanimity of his impassive countenance.

BRUCE.

The general consensus of opinion in North Bruce is that Mr. H. T. Potts, of Arran, will be the tariff reform candidate for the House of Commons at the next election. It is questionable if Mr. McNeill would care to face the music in that event.

The deficiency in the Brantford water supply has been causing grave concern. The commissioners have decided to construct two large reservoirs in the vicinity of the present works. The water will, it is expected, filter through about 300 feet of gravel and reach the well from which it is pumped into the city. This scheme, the commissioners anticipate, will place the water supply of Brantford beyond any doubt or question for many years to come. When I would go to sleep I would have horribe dreams, and my life became very misorable, as there was no rest either day or night. Singular Conduct of a Man Surrected of Murdering His Employer.

Spokane, Wash., July 13.—Gardeners while digging a ditch at Peaceful Valley, a suburb of this city, exposed to view the skeleton of a man on ground used as a truck garden by John Haines.

Haines vigorously objected and tried forcibly to prevent the ditch from being dug. When the skeleton was uncerthed he became terribly excited and left the scene.

Coroner Newman began an investigation, and from the testimony adduced it is concluded that the skeleton is that of James Murphy, who formerly owned the ground that Haines claims. Murphy disappeared over five years ago, and Haines, who was working for him at the time, said that Murphy's relatives in Canada have written here several times for information coroning him. The belief is strong that Haines killed Murphy in order to secure the farm.

Castoria.

"Castoria is an excellent medicine for chil-dren. Mothers have repeatedly told me of its good effect upon their children." DR. G. C. Osgoop,

"Carstoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria ininterest of their children, and use Casaria in-stead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves." Dr. J. F. KINCHELOE, Conway, Ark.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has wen us to look with favor upon it."
