PROVINCIAL LEGISLATURE. Third Session of the Sixth Parliament

FORTY-THIRD DAY. WEDNESDAY, April 5, 1893. The Speaker took the chair at 2 o'clock.

Mr. Brown moved the appoint

MR. Brown moved the appointment of a select committee, consisting of Mesars. Kitchen, Watt, Stoddart, Booth, and the mover, to inquire into all matters connected with the pre empting of certain lands within the McLaren Ross timber limit on Campbell River and Duncan's Bay, Vancouver Island, with power to send for persons and papers and report to the House.

Hon, Mr. Vernon said he did not know that there would be any objection to the resolution passing if hon members thought they could get through the work. The correspondence asked for in connection with this matter was now being typewritten and possibly when it was laid on the table it would be seen that there was no necessity for a select committee. If, on the other hand, an investigation was then thought mecessary, it could be held.

The motion passed.

MORTGAGE TAX.

MORTGAGE TAX.

MR. BROWN moved for a return showing "what amount of the revenue derived from the tax on mortgages is included in the respective amounts shown as the 'Personal Property Tax' paid in from the various electoral districts of the Province, as per statement on page 10x of the Public Accounts for the year ended 30th June, 1892."

HON. MR. TURNER pointed out that it would not be possible to get the whole of the return, as the tax in some districts was not kept separate from the personal property tax.

PROVINCIAL VOTERS ACT. Dr. Warr introduced a bill to amend the rovincial Voters Act. Bill read a first time; second reading to-morrow.

SANITARY MATTERS. Dr. Warr introduced a bill to make pro-ision for the sanitary condition of municithe sanitary condition of mus Bill read a first time; sec

PUBLIC SCHOOL ACT. Hon. Mr. BEAVEN introduced a bill to mend the Public School Act Amendment

LAND ACT. HON. Mr. VERNON introduced a bill to amend the Land Act. Bill read a first time, second reading to-morrow.

DR. REINHART'S REMOVAL.

Hon. Mr. Beaven, rising to a question of privilege, referred to the case of Dr. Reinhart's removal from the Cariboo hospital. He read a copy of a resolution of the Hospital Board, which stated that the Government had removed the doctor without their wish. When this matter had been up before, he said, the hon. Attorney-General had denied that the Government had dismissed Dr. Reinhart.

Hon. Mr. Davin said he could not see how the question of privilege came in, and

The House went into committee on the akusp-Slocan Railway bill, Mr. Sword

LAND REGISTRY BILL Report of committee on the Land Reg try bill was adopted with amendments. MISCHIEVOUS ANIMALS BILL.

Hon. Mr. Davis moved that the order for committee on the Mischievous Anima bill be discharged. SUNDAY CLOSING OF SALOONS.

MR. GRANT asked that the rules be sus sended to permit him to introduce a bill egarding Sanday closing. He explained hat his proposal was to have the salcon closed during the hours of divine service rom 10 a.m. to 2 p. m. and from 6 p. m. to 0 p. m.

from 10 a.m. to 2 p. m. and from 6 p. m. to 10 p. m.

Mr. Booth objected, and Mr. Grant was informed he must give the usual two days' notice.

Hon. Mr. Daviz drew strention to the fact that the discussion would have to come on sconer or later. He purposely refreshed from expressing an opinion on the merits of the measure, but would like to see the discussion brought on as soon as possible, so as not to delay prorogation.

Mr. Booth still objected, and the matter dropped for the present.

JURORS BILL.

The House went into committee on Jurors bill, Mr. Hunter in the chair.

The bill was reported complete with amendment.

OFFICIAL ADMINISTRATORS ACT. The House went into committee on the Official Administrators bill, Mr. Fletcher in the chair.

The bill was reported complete without amendment.

EXECUTION ACT. The House went into committee on the Execution bill, Mr. Stoddart in the chair.

The bill was reported complete without amendment

LAND ACT AMENDMENT. Hon. Mr. Vernon moved the second reading of the Land Act Amendment bill, which he briefly explained as being intended to enable settlers in the interior to take 320 acres. Since 1874 the Land Act had been more liberal to those who went into the interior, but a year or two sgo it was thought desirable to make it 160 acres all over the Province.

Province.

MR SEMLIN supported the bill, the principle of which he said he had advocated two years ago when the change was made.

The bill was read a second time and committeed, Mr. Keith in the chair.

The bill was reported complete with amendments; report was adopted; bill read a third time and passed.

STOCK RANGES BILL. Report of committee of the whole on the Stock Ranges bill was adopted, bill read a third time and passed.

GAME BILL.

Dr. Warr moved the second reading of a bill to provide a sanitary by-law to be in force in all municipalities until another by law be passed.

The bill was read a second time.

The House adjourned at 11 o'clock.

The little people of the Centennia Methodist Sunday school enjoyed their an unal treat in the schoolroom last evening the programme consisting of a grand supper, followed by an entertainment furnished by the scholars, the programme being mad up of choruses, songs, addresses and recitations.

Court Banneckburn.

Chief Ranger C. B. Lockhart presided at a well-attended meeting of the new court I O.F. last evening, when it was decided to adopt "Court Banneckburn" as the name, their being already a Court Columbia in existence. C.D.S.C.R. J. H. Falconer was also present and read considerable correspondence from the Supreme Court.

On Tuesday afternoon a little girl, four years old, while feeding the swans at the lake in the park, was attacked by the male swan, which rushed out of the water after her. The child was picked up by a gentleman who happened along; a second child of two years was burried away by the lady who had brought them out. The swan pursued for fifty yards. Whether he was afraid for the cygnets, which he previously drove under the bridge, or had some other cause for anger, is not known, swans being proverbially silent. But nevertheless the children might have been seriously hurt.

The sewers are All Right.

The six months' test to which the sewers laid by Contractor McBean are subject will end on the 26th inst., when they should be finally taken over by the sewerage commissioners. These have yet to be named, the present Council having not immediately appointed a new board, after having accepted the res gnation of the former commissioners. During the six months very few connections have been made, there being only fifty or sixty buildings now draining into the sewers. The severe weather of course interfered with the making of connections by many who were ready to do so, and in the case of those who will not incur the expense of the work until absolutely necessary, the city has not felt in a position to force them pending the passage of the Municipal Act amendments now before the Legislature. The sewers have stood the test satisfactorily, and the Sanitary Engineer is quite satisfied that they should be finally taken over when the time expires.

Dead Chinamen.

The inquest on the bodies of the two dead Chinamen found on Mr. Warlock's premises a fortnight ago, was resumed in the Police court yesterday before the coroner and jury. Mr. Warlock was again put in the box, and in answer to Mr. Berryman, explained that two Chinamen had been discharged before the taking on of the deceased men, but that he had never heard that the discharged Mongolians had been about the place from the date of their dismissal. All the men had been engaged from the same company in Chinatown. Mr. H. Carmichael, Government analyst, was the next witness. He deposed to having stellar and the men had been engaged from the same company in Chinatown. Mr. H. Carmichael, Government analyst, was the next witness. He deposed to having stellar and the men had been engaged from the same company in Chinatown. Mr. H. Carmichael, Government analyst, was the next witness. He deposed to having stellar and the men in receipt of yours of the lith literature of the coroner of the city high were far more valuable and the men had been engaged from the same company in Chinatown. Mr. H. Carmichael, Government analyst, was the next witness. chained up either in root cellars or in the kitchen. One of the young ranchers visited his poisoned meat yesterday, expecting to find a dead dog, but instead found two eagles, the largest ever killed on the Island. The male bird, from tip to tip, measured no less than 7 feet 2 inches, and the female 7 feet 9 inches. Evidently the cock bird was young, as the female measured more.

Farmers living in country districts ought to be protected some way by law. Many persons keep dogs perfectly useless, while if a decent tax were put on dogs many useless ones would go, and the country farmer, after feeding his sheep through a hard winter, would not meet the rather unpleasant sight of 15 or 20 lambs dead on his sheep range when he strolls out to see how many he could choose for the market. Something should be done.
