

WILL KISSING BE PROHIBITED

The Osculatory Process Denounced
by Scientists as Extremely
Dangerous—How the Dan-
ger Can be Removed.

A keen discussion is being carried on by some of the best scientists as to the danger and "crime" of kissing, led by Dr. Somers, Health Officer of Atlantic City, and Dr. Nalpas, of the Medical Faculty of Paris. They charge the kiss with spreading grippe, scarlet fever, measles, mumps, whooping cough, typhoid fever, diphtheria, erysipelas, meningitis, tuberculosis, and many infectious skin diseases. They suggest legislation on the subject, and the posting of notices in railway stations, street cars and other public places, but they say it would be useless to post them on verandahs, in cosy corners, porches, shady nooks, or moonlit lawns. They also propose compulsory legislation for methods of disinfection of the mouth and purifying the breath, especially with a view to the protection of the innocent babies who are particularly subject to infection. The greatest and most effective purifier and germ destroyer known to medical science for the mouth, throat and breath, as well as for the blood, stomach and lungs, is Psychine, that triumph of the medical world that is attracting almost universal attention because of the wonderful results attending its use. One of its recent triumphs is told as a matter of experience in the following brief statement:

Dr. Slocum Co.
I am sending you photo and testimonial here-
with for your great remedy PSYCHINE. Your
remedies did wonders for me. I was 28 or
29 years of age when I took PSYCHINE. The
doctors had given me up as an incurable consump-
tive. My lungs and every organ of the body were
terribly diseased and wasted. Friends and neigh-
bors thought I'd never get better. But PSYCHINE
saved me. My lungs have never bothered me
since, and Psychine is a permanent cure.

MRS. LIZZIE GARSIDE,
519 Bathurst St., London, Ont.

Psychine, pronounced Si-keen, is ad-
mitted to be the most wonderful of all
disease and germ-destroying agencies.
For building up the run-down system
and curing all forms of stomach
troubles and diseases of the chest,
throat and lungs or head, it is simply
unapproachable. It is a reliable home
remedy. For sale at all druggists,
\$1.00, or Dr. T. A. Slocum,
Limited, 179 King Street West, To-
ronto.

Canada Pays for Immigrants.

Five years ago Canada was receiving
12½ per cent of the total of from 60,000
to 70,000 emigrants from English shores
to North America, says the Canadian com-
missioner of emigration in London. Now
she receives over 50 per cent. In
these five years the immigrants into Can-
ada from Great Britain have increased
from 3,000 annually to 65,000. Canada
wants population. A net bonus of \$1.75
per head is given by the government to
every immigration agent in Great Britain
sending out emigrants to settle in Canada.
To the continental agent a gross bonus of
\$5 is paid. As a matter of fact each British
agricultural emigrant averages a total
cost of \$12 to the Canadian government,
and each continental emigrant costs the
sum of \$5. Consequently the Canadian
government is paying \$3 per head more
for British than for continental emigrants.

The Colonizer of London publishes an
interview with a firm in that city which
makes it its business to send children to
Canada. The head of the firm stated
that for \$125 they would take a boy, pay
his fare and take care of him until he has
settled with some farmer. The boy is
paid from \$5 to \$12 per month by the
farmer.

The payments by the Canadian govern-
ment to the emigration agents in Europe
for each emigrant sent to Canada accounts
for the large increase of emigration to
that country in recent years.

This Tonic Builds Up.

Many medicines stimulate, break down,
leave you worse than ever. Ferrazone is
different—it's a blood former, a nerve
strengthening, a body builder. Pale anaemic
girls are given color and vigor. The tired
and sleepless are strengthened and restored.
"Better than all I found," Ferrazone
writes Mrs. E. F. Castle of Woodstock.
"I was completely run down, cheeks were
blanched, lips white and had every sign of
anaemia. Ferrazone added to my weight,
gave me strength, ambition and good
health." Nothing better, try Ferrazone
yourself, 50c per box at all dealers.

Five Monarchs to Visit Paris, Nation's Charm.

Paris, April 30.—It is officially announ-
ced that Paris is to be visited by at least
five monarchs this year. The first to
come will be the king and queen of Nor-
way, who will stay at the Norwegian lega-
tion for about a week. Their visit, how-
ever, is to be official. Following them
the queen and king of Denmark will also
pay a visit here, but it is thought that
their visit will not be official. Toward
the end of July, and after he has paid a
visit to Russia's emperor, King Peter of
Serbia will come back to his beloved
Paris for a short stay.

All About Spring.

The croak of the crocus is heard in the
land.
The bulbs are beginning to bubble;
The robin is robin' on every hand
The sparrow is sparing for trouble.
Fluency is sneezing and nosing around.
The worm from his warm bed is worm-
ing.
The rills are all trilling with musical
sound,
While seaward they're merrily squirm-
ing.
The blossoms are making a bluff on the
trees,
The cow bells are plaintively ringing—
By which and the soft-soapy feel of my
knees.
I know that the spring is a-springing.
—John Kendrick Bangs.

Docking Horses' Tails.

P. W. Boynton of Dollar P. O., York
County, while attending the meeting of
York County's J. P.'s, gave the agricul-
tural department a call yesterday. He is
still advocating the cessation of the prac-
tice in vogue among horsemen, especial-
ly the breeders of draught horses, of
docking the tails. He asks the following
questions:

How many horses are on record as win-
ning thoroughbreds that are docked?
How many standard-bred and trotting
horses of the front rank are docked?
Why was not old Baron's Pride, the
great Scotch Clydesdale, docked?
If I order an entire horse shipped to
me and he is docked, can I send him
back as not entire?

Mr. Boynton is of the firm opinion that
many of the vices and weaknesses of
working horses and of brood mares and
stallions are due to the practice.

More Immigrants Coming.

Toronto, Ont., April 25.—Word has
been received by the C. P. R. officials at
the Union depot that 8,500 immigrants
will arrive in Canada within the next
few days, which will necessitate the car
distributor of this division to send all
spare coaches to St. John, N. B., at once.
A number of ocean liners are due at that
seaport within the next week. The great
majority of the new arrivals will likely be
dispatched by the C. P. R. to the West.

In the last two days more than 1,000
have arrived at the Ontario Immigration
bureau. Nearly all of the 1,000 were
English, and in one party were 32 families
with 109 children.

ENGLISH SPAIN LINIMENT is
moved, hard, soft or calloused lumps and
blemishes from horses, blood spavin, curbs,
splints, ringbone, swellings, stifles, sprains,
sore and swollen throat, coughs, etc. Save
\$50 by use of one bottle. Warranted the
most wonderful Blemish Cure ever known.
Sold by T. B. Taylor & Sons.

Second Noah's Ark on the Way to China.

Berlin, April 30.—A second Noah's ark
is sailing from Hamburg for China. The
Chinese government is to establish a zoo
at Peking and has ordered a choice assort-
ment of wild beasts from Hagenbeck's
famous menagerie. Herr Hagenbeck has
chartered a steamer to take the animals to
China. There will be a pair of each kind,
just as in Noah's ark, and they will be
housed in strong, roomy crates. With
this nucleus of a zoo, will go a number of
German keepers, who will teach the
Chinese how to manage wild beasts.

Armour's Big Horses.

Armour & Co. of Chicago, are showing
their famous geldings at the London
Show this summer. The animals are on
their way there now. Jim and Henry are
the wheelers; Phil of the swing pair and
Dude and Mack, the leaders in the six-
in-hand. All the nine sent over are light
grey in color, mostly of one type and all
dashing gaiters. One pair weighs 4200
lbs., Jim 2385 and Henry 2240 lbs.
It is said that these horses will be ex-
hibited in the fall in Canada upon their
return.

HOW TO CLEANSE THE SYSTEM.—Parnel-
lee's Vegetable Pills are the result of
the effects of extracts of certain roots and
herbs upon the digestive organs. Their use
has demonstrated in many instances that
they regulate the action of the liver and the
kidneys, purify the blood, and carry off all
morbid accumulations from the system.
They are easy to take and their action is
mild and beneficial.

The Stokes Trial.

The first trial of Edward S. Stokes for
the murder of James Fisk, Jr., in New
York, January 6, 1872, resulted in the
jury's disagreement. In the second
trial, on December 18th, 1872, he was
found guilty and sentenced to be hanged
on February 28, 1873. On a third trial
January 18, 1873, he was found guilty of
manslaughter in the third degree, and
sentenced to four years in Sing Sing.
We have not been able to ascertain the
cost of the trial. Perhaps some reader
can furnish this information.—Star.

Brandon Man Finds Five of His Fam- ily Were Killed at Chisleham.

Brandon, Man., April 26.—Thomas
Goulding, proprietor of the Lambton
house here, has just discovered that his
entire family with the exception of his
aged mother, were among those who
perished in the horrible wreck at Chap-
leau, on the C. P. R. The awful list of
dead which is just beginning to be com-
pleted, included his two brothers, a sister-
in-law and two nephews.

Infants too young to take medicine may be
cured of croup, whooping cough and colds by
using Vapo-Cresolene—they breathe it.

STOP, WOMAN!

AND CONSIDER
THE ALL-
IMPORTANT FACT

That in address-
ing Mrs. Pinkham
you are confiding
your private ills to a
woman—a woman
whose experience with
women's diseases covers
a great many years.
Mrs. Pinkham is the
daughter-in-law of Lydia
E. Pinkham and for
many years under her
direction, and since
her decease, she
has been advising
sick women free
of charge.

Mrs. Pinkham's Standing Invitation.

Women suffering from any form of
female weakness are invited to promptly
communicate with Mrs. Pinkham, at
Lynn, Mass. All letters are received,
opened, read and answered by
women only. A woman can freely talk
of her private illness to a woman; thus
except your good-will and her advice
has relieved thousands. Surely any
woman, rich or poor, is very foolish if
she does not take advantage of this
generous offer of assistance.

If you are ill, don't hesitate to get a
bottle of Lydia E. Pinkham's Vegetable
Compound, at once, and write Mrs.
Pinkham, Lynn, Mass., for special advice.
When a medicine has been successful
in restoring to health so many women,
you cannot well say, without trying it
"I do not believe it will help me."

CANADIAN PACIFIC IRRIGATED FARMS IN SUNNY ALBERTA

Before deciding where to locate

CALL AND SEE THEM

Britain's Doormat.

When the delegates from the annual
photographic convention at Southampton
visited the Isle of Wight Dr. Aline, the
eminent seismologist, described the island
as "the doormat of Great Britain," re-
marking that, "Welcome" was written all
over it.

Holloway's Corn Cure destroys all kinds
of corns and warts, root and branch. Who,
then would endure them with such a cheap
and effectual remedy within reach?

TESTED WITH DROPS OF WATER.

Number That a Sceptical Student in
Paris Could Stand.

A drop of water, even three for four
drops, falling on the head seems a thing
unworthy of attention; nevertheless, in
China a slow and continuous dropping of
water on the head has been found to be
a method of torture under which the most
hardened criminal abjectly howls for
mercy.

When a professor in the Sorbonne sta-
ted this to his class the other day, says
the London Chronicle, one of the students
laughed incredulously, and said it would
take a good deal of that sort of thing to
affect him.

The professor assured him that even
one quart of water dropped slowly onto
his head would be beyond his endurance.
He agreed to experiment.

A quart measure filled with water was
brought in, a microscopic hole was bored
in the bottom and the performance began,
the professor counting.

During the first hundred drops the stu-
dents made airy remarks. With the sec-
ond hundred he began to look less cheer-
ful, then gradually all his talk died away,
and his face took on a haggard, tortured
expression. With the third hundred the
hand began to swell and look red.
The pain increased to torture. Finally
the skin broke.

At the four hundred and twentieth drop
the sceptic acknowledged his doubts van-
ished and begged for mercy. He could
bear no more.

He Kept His Religion.

Booker Washington tells of a colored
brother who was a member of the church,
but who "had to have a spree now and
then." After one unusually long absence
he returned to the conference meeting,
and in due time rose to make con-
fession that he had been a great sinner;
he had broken all the Ten Command-
ments, but he thanked the Lord that he
had kept his religion.

Holland's Pious Queen.

The queen of Holland has initiated a
daily religious service at the Palace in
the Hague, which is open to every mem-
ber of her household, from the grand
chamberlain to the butler. The queen
takes her seat at a small table in the
dining room and begins by reading a psalm,
which is afterwards sung by all present.
She then reads a chapter from the
scriptures, and the ceremony closes with
the singing of a hymn.

Wedded at Strathroy.

Strathroy, April 25.—Miss Maud E.
Gill, daughter of Mr. and Mrs. Aaron
Gill, was united in marriage to Mr.
James E. Cooper, of this town. Rev. M.
L. Pearson, pastor of the Methodist
Church, performed the ceremony in the
presence of about 50 invited guests. The
bridesmaid was Miss Minnie M. Gill,
sister of the bride, while the groom was
supported by his brother Mr. Wm. Coop-
er.

Bottled Love Letters.

Missouri girls are still throwing bottled
letters into the Missouri river, to see what
will turn up. A year ago a Carroll county
girl cast a message on the waters at St.
Louis. Recently she received an answer
from a young engineer in the employ of the
Government river improvement service sta-
tioned a few miles below Memphis, Tenn.
The letter stated that the bottle had been
found in a crevice by workmen engaged in
the work of repairing the levee.—Kansas
City Times.

Freezes Both Feet.

Fort William, Ont., April 25.—J. Wil-
liams, Hudson's Bay factor at Osnaburg,
about 300 miles north of Ignace, had his
feet frozen and drove his dog team to
Ignace and from there was brought to the
Fort William hospital. The trip down
took three weeks. Portions of the feet
were amputated.

Bryan In A Runaway.

Morrisville, Vermont, April 25.—Wm.
J. Bryan narrowly escaped injury in a
carriage accident here today. The team
behind which he was being driven to the
station ran away and the wheels struck
the station platform. Mr. Bryan was
shot out of the carriage as though from a
catapult, alighting on his hands and
knees, but unhurt except for a few minor
bruises.

Canada Gets Buffalo Herd.

Denver, April 25.—A message was re-
ceived here today that the Pablo herd of
buffalo on the Flathead reservation, Mon-
tana, has been sold to the Canadian Gov-
ernment. The bulls will be removed to
Canada about May 1st and the cows and
calves will be sent north in July. There
are between 400 and 500 buffalos in the
herd, which is the largest in the world.
The price is said to be \$150,000.

Chinese Troops Good Runners.

In the drilling of recruits for the
Chinese army each man is required to
carry sand in his knapsack. For the
first day he carries two ounces; on each
succeeding day he increases this amount
by two ounces until at last he is carrying
sixteen pounds.

These men can run at a dog trot for ten
consecutive hours and arrive at the end of
that time in a fit condition for fighting.

Alberta University.

Edmonton, April 25.—Strathcona, the
home city of the Premier of Alberta, has
been chosen as the seat of the new Pro-
vincial University. The President of the
University, the Board of Governor and the
Senate will be chosen during this year,
and classes should be established some
time next year.
