

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the blood is in proper condition. A regular liver and blood purifier, the Sarsaparilla. It cures all those who are afflicted with the blood. It is the best of all blood purifiers. It is the best of all blood purifiers. It is the best of all blood purifiers.

Miss Wale, of Newton, Mass., was a guest at Pleasant View Farm, a few days the past week.

Miss Alice Spurr, of Deep Brook, spent a few days with her friend, Miss Hattie Harris, Pleasant View Farm, this week.

Frank Jones made a business trip to Halifax this week.

O. S. Dunham, editor and manager of the Digby Weekly Courier, made us a friendly call on Tuesday.

Mrs. William Morgan left Saturday for St. John, on a short visit.

M. Armstrong purchased the fine young horse, Border, Jr., from W. G. Clarke last week.

"Sporty" Benson has made some marked improvements to his property this summer.

Thelbert Rice is making some improvements, to his dam at the Bear River Granite Works.

A party of ladies and gentlemen from here took tea and spent the evening at the Harbor View House, Smiths Cove, on Tuesday evening, a very enjoyable time being spent.

There has been considerable traffic in horse flesh here during the past week. On Monday, Reuben Alcorn purchased from H. M. Rice his fine young mare, Lady William.

A tennis tournament will be held on the court of W. G. Clarke, Esq., on Labor Day, September 2nd, between members of the Igiz Tennis Club and the Young Men's Social Club.

Messrs. Clarke Brothers purchased from Reuben Alcorn his fine young horse, Bob, which they are using on their delivery team. The best is none too good for this firm.

Stamper George L. Captain C. F. Lewis, brought about one hundred and fifty people up here from Digby on a moonlight excursion on Thursday evening of last week.

Mr. Sydney Chute, a gentleman over 60 years of age, was one of the party who took in the excursion on steamer Granville last week, and while there is nothing remarkable in this, it is remarkable that this was the first time he was ever on board a steamer.

The outlook for a grand exhibition here on October 10th looks good. The committee are busy with the preparations. The main interest seems to be that in the stock show as there never was as good a class of stock in the County as there is at the present time.

While Charles Harris, of Morgantown was driving down the river road on Monday, his colt got scared by a boat sail and shied, throwing Mr. Harris out, breaking three of his ribs and otherwise injuring him. The colt ran a short distance and was stopped. We deeply sympathize with Mr. Harris in his misfortune.

R. A. Harris is making some improvements on his property. He has had the stone wall removed and is terracing the front. This not only beautifies his own property but widens the street at this point and adds very much to its appearance. We congratulate Mr. Harris upon his spirit of improvement, and would recommend it to others.

A dastardly attempt to poison a pair of horses belonging to William Cossaboom, of the Harbor View House, Smiths Cove, was made on Wednesday evening or early Thursday morning of last week, by putting cut turnips mixed with Paris green in their feed boxes. Mr. Cossaboom thinks there must have been fully a pound of the poison in the two boxes and probably the large dose is what saved the life of the horses, the only noticeable results being the horses mouths were burned quite badly with it. This is the meanest trick we have heard of for some time, and we sincerely hope the culprit will be brought to justice.

Dr. J. P. Amis had his colt, William Mack, on the speedway last Friday afternoon and while off the sulky standing talking to a man, the colt stepped on the rein, pulling his bridle off, and started down the hill on the run. The doctor grabbed him by the head and held on as long as he could but seeing that he could not stop him, he threw himself clear. The colt ran down the hill and, in making the turn at the corner by George Kennedy's, he pitched pole end over end, clearing himself of the bike, and ran a short distance, when he was stopped. The bike was considerably damaged but, strange to say, the colt came out without a scratch.

Smith's Cove

Mr. and Mrs. Robert Hills, who were married here last week, have gone to Newton, Mass., where they will make their future home. B. Fred Hastings, who has been visiting at Winchester Castle, returned to Boston this week.

Miss Conroy, who has been the guest of Mrs. N. H. Raymond for a number of weeks past, has returned to her home in Jersey City.

Mrs. S. J. M. Allen, Yarmouth, is visiting Mrs. Chris. Harris.

The Misses Gunn, who summered here, have gone back to St. John. The tourists are departing for their homes, and by the first week in September most of them will have gone.

Robert Stoddard, who is quite prominent in literary circles in New York, has leased a piece of land from Herbert Woodman and will erect a log cabin thereon. Mr. Stoddard, who formerly lived in Montpelier, will be a permanent summer inhabitant of the Cove.

Miss Whiting and Miss Collins, of Rochester, N. Y., have become so attached to Smith's Cove that they have decided to summer here in future, and will have a cabin built during the coming winter on a plot of ground they leased from Herbert Woodman.

Who was the belle of Smith's Cove this summer? is the question that has agitated the minds of some of the young ladies. The best way to settle it is to take a vote through the telephone.

A number of Chamberlain's young people had a picnic here last Thursday. They spent an enjoyable day.

Two of the most highly respected and oldest residents of the Cove drove to Bear River the other day with their faithful mare, Katie, reaching there without any incident of note. But on their return journey there was something doing, for the Captain pulled a fragrant cigar while his good wife enjoyed a candy sucker. They looked happy as clams, and they were Mrs. Poole has sold her valuable cow to Mr. Ismore, who will use her for dairying purposes.

Mrs. M. cause took a day off this week and went to Digby. Aunt Nery sticks close to business and enjoys a holiday now and then. Mrs. Brenton has returned to Boston, after a pleasant visit with friends here.

HOLD FAST YOUR CONFIDENCE.

There are three kinds of people in the world, the "wills," the "wonts" and the "can'ts." The first accomplish everything; the second accomplish everything; the third fail in everything.

It is natural for the world to believe in men who believe in themselves, who have confidence that they can accomplish things.

The chief difference between the successful and the failures lies in the single element of staying power.

The man who does things, who brings about results, never waits to see what the crowd is going to do. A weak, discouraged, disheartened being is no more the man that God made, than is the hardest jargon, sweet music.

The thought that one is a victim of circumstances, that success or failure depend on chance, is absolutely destructive of all noble character building.

The world stands aside for the man who has a programme, a work to do and who feels that he is able to do it.

Never allow yourself to admit that you are inferior to the emergency confronting you, for this is to invite defeat. Strongly affirm that you can do the thing. The moment you harbor a doubt of your ability, the moment you capitulate to the enemy.

Fear of failure or lack of confidence in one's ability is one of the most potent causes of failure in all walks of life.

To do anything worth doing in the world, we must not stand shivering on the brink, thinking of the cold and the danger, but jump in and scramble through as well as we can. It will not do to be perpetually calculating risks and adjusting nice chances.—Sidney Smith.

Sick Exchange Promotes Gambling Transactions

A Pittsburg dispatch says—(Innocent Tiers, vice-president of the Dollar Savings Bank, yesterday sent a letter of suggestion tending to the suppression of combinations of organized wealth to create panic conditions, and thereby causing lack of confidence and hampering the prosperity of the country. Mr. Tiers is a publicist and economist and his suggestions have been received in this city with more than passing interest. In the letter he says—

"As a possible means to protect the legitimate business interests, the wage-earners and bread-winners of the whole country from untold injury, due to industrial stagnation, I respectfully suggest that the necessary steps be taken to prevent the illicit transmission and publication of stock exchange quotations."

"As stock exchange quotations are very largely the reports of more gambling transactions, I believe their wide transmission and publication could be largely prohibited in the same manner or upon the same grounds as Louisiana lotteries and other such gambling transactions are now prohibited by the national government."

Effort to Break Up Oil Monopoly

WASHINGTON, August 25.—An important conference held here between Attorney-General Bonaparte, Judge Frank B. Kellogg, of St. Paul, and Chas. B. Morrison, of Chicago, the latter being special attorneys for the government in suits for the dissolution of the Standard Oil company, has resulted in a number of important decisions. They demand a uniform working week of 65 hours and a uniform working week of 65 hours and a uniform working week of 65 hours.

What strengthens the belief is the fact that Attorney-General Bonaparte had a lengthy conference some days ago with Morrison, in which the subject was considered in all its phases. It is also intimated that the Attorney-General is making preparations to prosecute individuals of the Standard Oil company under the provisions of the Sherman law, and that the action will be pressed without delay and with the greatest vigor.

When officials of the Department of Justice were questioned on the subject, they refused to discuss the matter.

GOOD FOR BILIOUSNESS.

"I took two of Chamberlain's Stomach and Liver Tablets last night and I feel fifty per cent better than I have for weeks." Says J. J. Firestone of Allegan, Mich. "They are certainly a fine article for biliousness." For sale by W. A. WARREN, Pharm. B. Samples free.

The marriage is announced to take place on September 19th in the Carlton Street Synagogue, St. John, N. B., of Mr. Barnet Jacobson, junior member of the firm of Jacobson & son, to Miss Esther Jacobson, of St. John.

FOR A SPRAINED ANKLE.

A sprained ankle may be cured in about one-third the time usually required, by applying Chamberlain's Pain Balm freely, and giving it absolute rest. For sale by W. A. WARREN, Pharm. B.

A London paper says—It is understood that Balsani, the bandit, who is holding out Sir Harry MacLean a prisoner, has sent a communication to the British government, in which he greatly modifies his previous demands for the release of the Capt. The only condition he makes now is that his own life and the lives of the members of his family be guaranteed. He makes no suggestion of ransom or other concessions.

New York Threatened With Meat Famine.

NEW YORK, August 23.—Drivers and stablemen employed at the wholesale beef packing houses went on strike last night. They demand a uniform working week of 65 hours and a uniform working week of 65 hours and a uniform working week of 65 hours. Both the independent companies and the so-called "trust" are affected. The companies have notified the retailers to send their own teams to the distributing depot for supplies. For the present, at least, it is thought that the retailers will not be seriously inconvenienced. The strike follows a meeting of the Teamsters' Union and when the order to strike was received from a messenger of the union, the drivers left their teams on the streets or wherever they happened to be at the time. About 500 men are out. Representatives of the strikers and agents of the companies were in conference during the afternoon trying to come to an understanding. The companies wished to renew a working agreement, the life of which recently expired, but the men insisted upon a working week of 65 hours. Soon after this meeting, which failed to reach a compromise, the order to strike was given. The companies were then somewhat taken by surprise, and it was late in the night before the abandoned wagons with their perishable loads were recovered and brought to the stables.

CHANCES IN FAVOR OF ANNAPOLIS BEING SHIPPING POST FOR IRON ORE.

Among the notable visitors to Annapolis Royal last week were Senator T. J. Drummond, of Montreal, Mons. E. Woodward, of Paris, France, and W. J. E. Parsons, C. E., of London. They were guests for a day and night at the Queen Hotel. The two former are largely interested in the company by whom the Torbrook Iron Mines have lately been acquired and a large part of time here was spent in exploring the Basin with a view to locating a pier for the shipping the output of the mines at that place. For this survey they required a steamer, none being in port at the time Mr. Ernest Mills, of the firm of A. D. Mills & Sons, placed his commodious and speedy motor boat at their disposal and Port Wade Digby and available points in this vicinity were visited, while this visit contains no promise of immediate results it is proof positive that the capitalists who have the development of this great iron industry in hand are still looking forward to shipping via the Annapolis Basin. The chances seem to be all in favor of the site selected by Mr. George B. Corbett, west of Allen's Creek, who, from a long acquaintance with the harbor, anchorage, etc., claims this as the most desirable point. The official trip proved a most enjoyable outing as well. The party was accompanied by Mr. Edmund Dwyer, Chief Clerk of the Pass Dept. of the D. A. R.
