

with the same remarkable results, and today Mr. Quant, restored to health, anticipates a long life of usefulness. The remedy which has succeeded, where the best physicians had failed, is Dr. Williams' Pink Pills for Pale People and a name that is now a familiar household word throughout the continent and a remedy that apparently stands without a rival in the annals of medical science. Having published, among others, the cases above alluded to, the curiosity of the publisher of the *Courier* was aroused and he determined to ascertain if anyone around Trenton had been benefited by the use of Pink Pills. In conversation with Mr. A. W. Hawley, druggist, he was told that the sale of Pink Pills was remarkable, and steadily increasing. And Mr. Hawley gave the names of a number within his own observation who had been benefited by the use of this remedy. Among others Miss Emma Fleming, granddaughter of Mr. Robert Young. It was stated that Miss Fleming had been raised from what was supposed to be her death-bed, after all other remedies and physicians had failed, by the use of Dr. Williams' Pink Pills. This statement was so startling that the *Courier* determined to investigate it further, and if true set the facts before the public for the benefit of other sufferers. Mr. Robt. Young, grandfather of the young lady was first seen, and in a reply to an enquiry said it was a miracle the manner in which these pills had restored his grand-daughter. As a last resort, and with a prayer in his heart, he had purchased a box of Pink Pills at Mr. Spauls-bury's drug store, and so much good resulted that the remedy was continued until his grand-daughter was as well as ever she had been. Miss Fleming's aunt was next seen, and she corroborated what had already been told the *Courier*, giving as well some additional particulars. Miss Fleming was next seen, and we must confess to being surprised, and at first somewhat incredulous that this young lady in the bloom of womanhood and health was the person whom we wanted to interview. Miss Fleming, however, soon convinced us that it was she who was so miraculously saved from death, and cheerfully consented to give a statement of her case. Her father, she said, was for years miller under Mr. Spence, and afterwards at Gordon's mills, near Trenton, and is now miller at Union. Three years ago Miss Fleming's mother died of consumption. Up to four years ago Miss Fleming stated that she had enjoyed good health, but taking a severe cold then she had not had a well day since, until she began the use of Dr. Williams' Pink Pills last December. She was reduced in weight to 90 pounds, but now weighs 111 pounds; a gain of 21 pounds. She consulted a number of doctors and took their remedies, but never obtained more than temporary relief. A physician at Newmarket whom she consulted said she was going into a decline and that he could do nothing for her. Her Trenton physician said that a sudden cold would go to her lungs and he had no hope of her ever getting better. She felt very misera-

ble, strength continually failing, suffered so much distress from food that she had no desire for it and lost all appetite. She kept continually growing worse until last fall she was not able to stand without support, and gave up all efforts to help herself. In December she was taken with inflammation of the bowels, and Dr. Moran was called in. He gave medicine that relieved her and cured the inflammation, but her strength was gone and she had to be lifted in and out of bed and could not sit in a chair at all. She had taken her bed expecting never to rise again, and this was the opinion of all her friends. It was at this juncture that her grandfather, having read in the *Courier* of the wonderful cures effected by Dr. Williams' Pink Pills, and as a last resort purchased a box, and urged his grand-daughter to take them. Miss Fleming had been before this recommended by a friend in Toronto to try Pink Pills, but declared she had no faith in them. Now, however, to please her friends she consented to take the Pink Pills; on the seventh day after beginning the use of the Pink Pills, she was able to walk down stairs, and has not gone back to a sick bed since. The effect upon her system was truly marvellous. Her appetite was gone, strength gone, prostrate upon her supposed death bed, in seven days she was able to walk down stairs, feeling renewed strength and a better appetite than ever before. Miss Fleming continued the use of Pink Pills, daily gaining health and strength, until she was able to take part in the household duties without the least injurious effect. Miss Fleming still continues to take one pill after each meal, and now feels as well as she ever did in her life. She feels truly grateful for what this great remedy has done for her, and only a sense of gratitude enables her to overcome her modest scruples in giving this testimony to the wonderful virtues of Dr. Williams' Pink Pills for Pale People.

Miss Fleming has recommended Pink Pills to a number of lady friends, who say they are doing them much good.

A further investigation revealed the fact that Dr. Williams' Pink Pills are not a patent medicine in the sense in which that term is usually understood, but are a scientific preparation successfully used in general practice for many years before being offered to the public generally. They contain in a condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an untailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexions, and the tired feeling resulting from nervous prostration; all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood and restore the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of whatever nature.

These pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ontario, and Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape,) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from the Dr. Williams' Medicine Company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.
