

his monthly flight to the Baskatong country, in the northern part of his field, his old College friend, the Rev. J. Taylor B.A. of Aylwin, assists him by taking his place in the southern part of the diocese.

Rev. W. T. Morison received a call, shortly after he graduated last spring, from the charge of St. Therese including the congregations of St. Therese, Grandfresnière and St. Eustache, which he accepted; and was accordingly ordained and inducted by the Presbytery of Montreal, as pastor of that congregation.

Pleasing reports have come to us of Mr. Morison's success. The Church at St. Therese has been repaired during the past summer, and the manse has undergone renovation.

Rev. P. D. Muir, B.A., was officially set apart to the sacred work of the Christian Ministry, by the Presbytery of Montreal, assembled at Avoca in the month of June last. In the evening, divine service was held at Harrington over which Mr. Muir will also act as Minister.

We were very glad to have Mr. Muir with us, for a day or two; shortly after the opening of the college; and to learn that he was enjoying his work among the hills of Avoca.

Rev. W. Patterson, B.A., received a call shortly after graduation, from Knox Church, Leamington, Ont., which he accepted, and was ordained and inducted over that charge shortly afterwards.

Mr. Patterson was married on September 10th, to Miss Laura Bilton, of London, Ont. Miss Bilton was a member of the choir of St. Andrews Church and an active worker in the Christian Endeavor Society. On the same day; St. Andrews lost another esteemed member of their choir, and a Christian Endeavorer, in the person of Miss Carson, who was married to another of our graduates; viz, the R. v. A. MacWilliams, B.A., of Peterboro, Ont. While we are sorry for St. Andrews, we rejoice, that our graduates prove so successful, in this, as well as, in other spheres of labor.

Last in alphabetical order, but by no means least: we come to our late President, and ex-Editor-in-Chief; the Rev. James Taylor, B.A., who was ordained over the charge of the congregation worshipping at Aylwin, Que., by the Presbytery of Ottawa. Mr. Taylor's work is progressing very satisfactorily. He is still combating that great enemy of human happiness, the liquor traffic; and reports the prohibition sentiment, as growing in that part of the Province. He is more than ever impressed by what he has seen this summer, with the need of urging social reform, and of pushing the work of French evangelization.

The editor, who labored in the same county, during the past summer, is also deeply impressed with the need of working along both these lines.
