A STRONG STATEMENT

FROM

A STRONG SOURCE

"In mild forms of syphilis with little or no glandular involvement, and in mixed sores, I immediately resort to mercauro, and I have never seen its equal as a remedial agent in syphilis. It is pre-eminently a new therapeutic agent, the physiological effect being *subjudice*. In latent lesions it is positively the best remedy. By abundant experience I am settled in my conviction as to its value, and more particularly so, when the iodides are not tolerated."
