

# Think How Long You've Bothered with That Same Old Corn

Perhaps you have pared it an hundred times and seen it grow again.

You have daubed it with liquids, maybe. Or used old-time plasters.

And the corn remains as bothersome as ever. It will remain until you treat it in a scientific way.

Other folks do this:

They apply a Blue-jay plaster, and the pain stops instantly. Then, for 48 hours, they forget the corn.

In two days the corn is loosened, and they lift it out.

No pain, no soreness, no discomfort. And no more bother with that corn.

A million corns monthly are now being removed in this gentle, modern way. Try it on that old corn.

A in the picture is the soft B & B wax. It loosens the corn.  
B stops the pain and keeps the wax from spreading.  
C wraps around the toe. It is narrowed to be comfortable.  
D is rubber adhesive to fasten the plaster on.
