

Concrete Mixers and Brick Machines

YOU can use fine gravel and crushed stone with this brick machine as it polishes the face of the brick, and therefore brings the cement to the face of the brick, thus assuring a much stronger brick in the face.

Concrete Mixers

We manufacture concrete mixers in all sizes to suit the contractor, including hand mixers and power mixers of all sizes, run by steam, gasoline or electric power. Our improved mixer gives you a batch in thirty seconds.
