

been employed for a period exceeding (a) six months (b) twelve months?

Mr. Raynald Guay (Parliamentary Secretary to Postmaster General): June 30, 1974, Full-time Temporary Employees: Approximately, 3,569; (a) Six months, 287; (b) Twelve months, 190.

NOTE: We are interpreting full-time temporary employees as being employees hired on a day by day basis, or for specific term who work a normal 7½ to 8 hour shift.

OLYMPIC COINS

Question No. 549—Mr. Jelinek:

1. How many (a) \$5 (b) \$10 Olympic coins are involved in each of the seven series?
2. What was the date the last coin was minted in the first series?
3. What was the date the first coin was minted in the second series?
4. Does the government propose a surcharge on any of the coins to be minted in any of the new series?
5. Does the government plan to introduce new packaging for coins in the new series and, if so, for what reason?
6. Does the government propose to reduce the silver content in the coins of future series and, if so, by how much?
7. Can the government estimate how much loss of revenue has been experienced to date due to the increased prices of silver in coins already minted?
8. (a) How many people in the Post Office Department (i) were employed in the coin programme before Parliamentary authorization (ii) are currently employed directly or indirectly in the Olympic coin programme (b) what are the salaries of these individuals (c) how much funding has been permitted for entertainment and expenses for these employees?
9. How many employees currently in the Minister's Department (a) presently earn in excess of \$25,000 annually (b) earned in excess of \$25,000 one year ago?
10. (a) What was the total value of coins sold as of October 1 (b) what was the total cost of producing coins sold as of October 1?
11. What payments were made to COJO as of October 1 from coin sales?

Hon. Mitchell Sharp (President of the Privy Council): I am informed by the Departments of the Postmaster General and Finance as follows: 1. The exact number of coins in each series has not been decided, but will be approximately one seventh of the total number of coins to be minted for the seven series. The actual number to be minted will be adjusted according to market demand.

2. Minting of Series 1 has not been terminated.
3. June 11, 1974.
4. There have been and will continue to be premiums on coins in each of the seven series.
5. There are no plans for new packaging at this time.
6. No.
7. The increase in the price of silver does not cause loss of revenue from coins already minted.
8. (a) (i) Several people in the Post Office Department were involved in advising the Postmaster General and the government prior to and during passage through parliament of the bill. The Olympic Coin Program was established and staffed after the passage of the Olympic (1976) Act. (ii) Indirectly, it may be said that the entire adminis-

Order Paper Questions

trative resources of the Post Office Department are used as required by the program in the interests of economic and efficient administration. The Olympic Coin Program employs directly sixty-six persons. (b) Not applicable. (c) Not applicable.

9. (a) 112. (b) 105.

10. (a) and (b) This information was given in the second report to parliament which was tabled on December 2, 1974.

11. None.
