Hon. Lloyd Axworthy (Minister of Transport): The management of Canadian National Railways advises as follows:

Recently there has been no demand for a breakdown of the ranges of pension benefits under \$100 a month. Consequently, CN computers no longer produce such information. If required, the data could be produced but it would involve an inordinate amount of time and expense. The following information concerning the number of pensioners and the monthly amount of pensions in force at December 31, 1983 was extracted from CN's present computer pension data base.

1. Number of pensioners receiving

(a)	under \$100.00 a month	2,316
(b)	\$100 to \$199.99 a month	2,652
(c)	\$200 to \$299.99 a month	3,841
(d)	\$300 to \$399.99 a month	4,122
(e)	\$400 to \$499.99 a month	3,398
(f)	\$500 to \$599.99 a month	2,679
(g)	\$600 to \$699.99 a month	2,194
(h)	\$700 to \$799.99 a month	1,815
(i)	\$800 to \$899.99 a month	1,670
(j)	\$900 to \$999.99 a month	1,310
(k)	\$1,000 to \$1,499.99 a month	3,568
(1)	\$1,500 to \$1,999.99 a month	993
(m)	\$2,000 to \$2,499.99 a month	188
(n)	\$2,500 a month and over	57

In the group receiving pensions under \$100 a month, there are a number of cases where the amount of pensions paid by Canadian National Railways do not represent the total pensions payable for railway service. For example, pensions payable by CN to international employees (service in both Canada and the United States) relate to their service in Canada only. Such employees also receive annuities payable under the U.S. Railroad Retirement Act or the Social Security Act for services performed in the United States.

In addition, there are various pension agreements between CN and other companies, such as Canadian Pacific Limited and the Ontario Northland Railway, where each company
