

October
Fifth
1920.

Brigadier-General J.P. Landry,
G. O. C., M.D. No. 5,
Quebec, P....

My dear Landry:-

I note by the "Chronicle" of date September 30th, that you were good enough to pre-
side at a meeting called for the purpose of
organizing a branch of the McGill Graduate Society
in your city.

Mr. Tilt has told me that there is
every prospect of a real live organization being
built up in Quebec, and I hope that you will continue
to give it your personal support.

I am firmly convinced that the
Graduate Societies, while giving pleasure to them-
selves, can be a most useful factor in helping their
Alma Mater retain the high place she has won for
herself as a leading and progressive University.

With all good wishes, I am,

Ever yours faithfully,

Principal.
