Dept. of Trade & Commerce.

Minister's Office.

Ottawa.

May 25th, 1921.

Dr. R. F. Ruttan,
Research Council,
Ottawa, Ont.

Dear Dr. Ruttan,-

I enclose a letter from Mr. J.B. Hunter which will explain itself. I would like to have your views in respect to this matter, particularly as to what co-operation could be had between the laboratories referred to and the Research Institute.

As it seems they are to be removed from the McGill University Building, and established in Ottawa, the question arises on two points, first, as to whether any or all of the work done at present by these laboratories is necessary to the departmental work, and secondly as to whether the whole or main part of the work could be better done in connection with the Research Institute.

Yours very truly,

(Sgd.) George E. Foster.
