

STEPHENS' VIOLET-BLACK COPYING FLUID

Flows freely, and will give several Copies two months or more after writing. It is superior in copying property and in colour to the French exportations and other Inks of their kind. Ordinary Violet Writing and Copying Inks under exposure rapidly deposit colour in an insoluble condition, becoming nearly unusable for writing and incapable of affording copies. Stephens' Violet-Black Copying Fluid perfectly retains its solubility and copying capacity.

Stephens Inks

Have received

15 Highest International

Awards, being, in each

case, the highest award

made.

Manufactured by

H. C. STEPHENS, 191,

Aldersgate Street,

London, and sold by the

principal Stationers

throughout the World.

BLUE-BLACK WRITING FLUID, for its Beautiful Fluidity and Colour.

BLUE-BLACK COPYING FLUID, for giving Four good Copies, and its remarkable Fluidity, Easy Flow, and Durability.

SCARLET INK FOR STEEL PENS, because Steel Pens left in this Ink for months do not impair the beauty of its colour nor are the Pens in the least corroded by it.
