LARGE.....\$1.75—worth \$2.67; saving 62 cents.

This popular remedy has now been before the country for more than a *quarter of a century*, during which, with very little advertising, it has firmly established itself in the confidence of the people; and in thousands of families has become as indispensable as flour or salt.

During this period its inherent merits have overcome the intense prejudices of physicians, and it is now daily prescribed and recommended by members of the Faculty of all Schools—Allopathic, Homoeopathic, Botanic, and Eclectic. Ask any of them about it. They will tell you that the medicinal virtues of WITCH HAZEL in an extraordinary range of action are indisputable, and that cure is simply the

BEST AND ONLY UNIFORM PREPARATION

from that shrub; that it is carefully made by experienced pharmacists, having the advantage of the perfect machinery required by an enormous business, from the best parts of the plant, judiciously selected at an exact and critical period of its growth. They will tell you that it is *always the same, and always good*; that it is not affected by change of climate or temperature; that its action is prompt and effectual; that it does not accumulate in the system, and ultimately manifest poisonous characteristics, but may be used freely, externally and internally, alone or in connection with other medicines,

WITHOUT THE SLIGHTEST DANGER.

Ask your druggist for one of the little books (bearing his address), with which we supply him free, for distribution among his patrons. If you are well, it may give you some *Interesting and Useful Information*; while to the ill it may be the *Road to Health*.

REMEMBER.—POND'S EXTRACT really has a very extensive range of action. It will promptly *relieve* any pain, and will effectually and permanently *cure* a greater number of the ills which an intelligent and prudent mother would trust herself to treat than any other preparation. It is, therefore,

AN INVALUABLE DOMESTIC REMEDY.

The 50c. Bottle is cheap, because the doses are small. The \$1 Bottle is cheaper, worth \$1.33, saving 33c. The \$1.75 Bottle is cheapest, worth \$2.67, saving 62c.

FOR SALE EVERYWHERE.
