THE
 NEW VERSION
 OF HANLON'S

"SUPERBA"

New and Magnificent
 in every particular...

Manager Roote has arranged an exceptionally attractive offering for an early appearance in the new version of Hanlon's "SUPERBA," which comes this season better equipped than ever; a production unsurpassed in the amusing, bewildering and gorgeous effects; a performance remarkable for a multiplicity of original and marvelous features of pantomimic, vaudeville, spectacular and musical entertainment, by a cast of over fifty brilliant artists; the mechanism of the scenic effects alone requires forty stage hands.

Among some of the attractive specialties, besides the gorgeousness of costumal and light effects, the antics of that master of clowns, Chas. Guyer, will be seen the wonderful Rossi Bros. in their original acrobatic specialties, a charming and attractive female whistler, Nellie Daly, the popular song-bird of the company, cartoons of popular personages of the present day, and others. Half-a-dozen new and brilliant ballets, exquisite gems of melody, dazzling costumal revelations, new tricks, illusions and startling mechanical surprises. "SUPERBA" is now the largest and most perfect scenic spectacle en tour, and in fact the only production of its kind in the world. Pleasing in its entirety, every moment one of enjoyment, containing the best, most acceptable and entertaining offerings that have created unbounded enthusiasm at every performance.
